

Optimise Business Efficiency with Fast and Flexible Document Scanning.

The Epson WorkForce DS-1730 and DS-1760WN document scanners optimise business workflows with fast scanning speeds and efficient digital storage. Their compact design maximises workspace, while versatile media handling offers flexible solutions to meet diverse business needs. Designed with sustainability in mind, these scanners are made with up to 30% recycled plastic*, reducing environmental impact.

Scan up to A4 / Legal

30 ppm / 60 ipm Scan Speed

One-pass Duplex Scanning

Wi-Fi/ Wi-Fi Direct^

Ethernet^ Environmentally

ENGINEERED FOR GOOD

Built for Business

Enjoy fast scan speeds of up to 30 ppm and an ADF paper capacity of up to 60 sheets to enhance business productivity.

Effortless Scanning

Work becomes seamlessly easy with effortless scanning of various media types, including ID cards and even passports.

PC-less Operation with ScanWay[^]

Simplify your workflow by sending data directly to network folder, email, cloud or USB drive from the scanner control panel without using a PC.

^{*} Up to 30% recycled plastic is used in the production of the main unit, with the ratio depending on the availability of raw materials. This percentage refers to the weight of recycled plastic used in the exterior parts, relative to the total plastic weight.

For DS-1760WN only.

The Epson WorkForce DS-1730/DS-1760WN document scanner is a compact, versatile solution that streamlines workflows for both individuals and businesses, offering fuss-free connectivity, efficient digital storage and the ability to scan a variety of media and documents.

Versatile Scanning Solution for Businesses

Fast and Efficient Scanning

The DS-1730/DS-1760WN offers fast scanning speeds of up to 30 ppm / 60 ipm, significantly enhancing office productivity. It also features a 60-sheet ADF, providing convenient and efficient scanning capabilities.

Simple and Intuitive Operation

Designed for effortless operation, the scanner features an intuitive 6 cm (2.4") LCD touch screen (DS-1760WN) and a one-pass duplex scan feature, enabling quick scans and streamlining workflows.

Versatile Media Scanning

The DS-1730/DS-1760WN offers flexible scanning options to suit a variety of business needs. The ADF is ideal for high-volume scanning of mixed-size documents, long paper and originals ranging from $50-120 \text{ g/m}^2$ in thickness. For more delicate items such as photos, ID cards, booklets or documents that cannot be fed through the ADF, the flatbed provides a reliable alternative.

Document Management

Epson Scan 2

Text Enhancement

Improves text recognition when scanning text documents, whether in colour, greyscale or black-and-white. Removes background for better clarity, making double-sided printed documents clearer.

Document Edge Corrections

Only When Using ADF Scan

Correct and patch up missing edges or corners of the documents that are folded or torn with the colour of the original document. Punch holes can also be removed to enhance the overall aesthetics of the scanned image.

Folded edge

Border shadow

Punch hole

Document Capture Pro

Automate your scanning workflow with up to 30 customisable scan jobs and assign them to the device panel. Convert documents into searchable PDF files or editable Office documents with built-in OCR capability. Documents can be named and sorted into different folders conveniently by various job separation methods. You can also capture text and barcode information from documents including Machine Readable Zone (MRZ) of travel documents and output them as index data. Send your scanned image to a wide variety of destinations including cloud storage services.

Note: Limited functionality for Mac version of Document Capture software

User-friendly Features

PC-less Operation with Scan-to Features DS-1760WN Only

Simplify your scan workflow by operating on the scanner control panel. Send scanned image directly to network folder, email, cloud service or USB drive without the use of a computer. This also improves data security since no data is stored on the computer.

Image Sensor Glass Dirt Detection

Receive notification on the computer screen or LCD screen (DS-1760WN) upon detection of dirt on the glass surface inside the scanner. This reduces the risk of re-scanning due to poor image quality.

Free Stop Hinge

The free stop hinge allows the lid to be opened at an angle between 15 to 70 degrees without support, enhancing usability.

Automatic Cropping of Multiple Originals at Once

Effortlessly scan multiple items of different sizes simultaneously. The scanner driver automatically detects, crops and saves each item as separate files or images to a designated folder, reducing the time spent on scanning tasks and enhancing productivity.

Continuous Scanning Using ADF and Scanner Glass

Scan different types of documents from both the ADF and the scanner glass in a single scan, and easily combine them into a single file. This feature enhances efficiency, offers flexibility in document handling and ensures all your scanned images are conveniently stored together.
