

Drive-through and Curbside Pickup

Epson Makes It Easy

Revolutionizing the way orders are received, identified and processed, Epson is helping customers streamline their drive-through and curbside pickup processes by offering a wide range of printing solutions aimed at providing receipt and label printing tools for both indoor and outdoor applications. Whether you're looking to expedite throughput or improve order identification accuracy while helping to eliminate errors and cut down on waste. Epson has a printing solution to better serve your business.

Route Orders Directly to Prepping Stations

Print Receipts at Ordering Locations

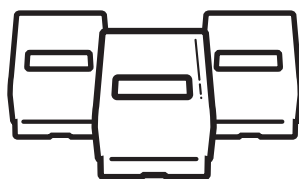

Personalized Labels to Improve Order Accuracy

The Epson® POS Printer Advantage

Outstanding Reliability

- Quality you can count on
- Dedicated technical resources
- Solutions to support unique customer applications

Broad Portfolio

- Receipt or label printing
- Countertop, wall-mount or wearable offerings
- Printers for indoor and outdoor environments

Multi-platform Compatibility

- Supports a wide range of software (iOS®, Android™, Windows®, Linux) and POS devices
- Supports printing from PC-POS terminals, tablets, smartphones and the cloud

“Some retailers and restaurants have seen up to a 500% increase in order pickup and delivery in the current climate, almost always at greater cost than their walk-in business. The right software application and printing technologies can help streamline the process for greater profitability of these digital journeys.”

Greg Buzek —
President, IHL Group

Drive-through and Curbside Pickup

Epson Makes It Easy

Epson thermal receipt and label printers make curbside pickup easy for any business to deploy. With versatile connectivity options and user-friendly features, these durable printers offer the flexibility to support a variety of POS systems that use either tablet or smartphone devices.

Choose the model that best meets your needs.
