## **Introducing ORIENT STAR Basic Date, a strong, sporty and elegant timepiece which reflects the essence of ORIENT STAR**

---

ORIENT STAR announces the Basic Date. It is a practical yet simple timepiece with urban refinements which exudes the essence of ORIENT STAR. It features a strong, sporty 42-mm case, a simple, clear and easy to read dial, and in-house automatic movement with 50-hour power reserve.

  
**ORIENT STAR**

The Basic Date with the sharp, solid, yet elegant design synonymous with ORIENT STAR, combines a three-hand time display with power reserve indicator and date window. The design includes fine details including a mirror-polished slope and fluid lines extending from the sides of the new larger 42mm case to the lugs. These have a cut surface characteristic of ORIENT STAR, shaped to pass easily through the wearer's sleeve. The three-link solid stainless steel strap extending from the case enhances the Basic Date's overall sporty feel.

Typical of ORIENT STAR timepieces is the rich assortment of deep dial colors, from sharp black to blue, white, grey, and green. The dial is designed for clear readability, even at the quickest of glances, thanks to the combination of long hands, a large case, and bold bar indices. Adding to the watch's simplicity is the subtle design of the power reserve indicator, which further enhances the watch's simplicity and readability.

Finally, the Basic Date uses SUS316 stainless steel for the strap, scratch-resistant sapphire for the crystal, and is powered by a high-performance, in-house movement with automatic winding mechanism.

## About ORIENT STAR

Established in Japan in 1951, ORIENT STAR originates from a desire to create a mechanical watch that would become a “brightly shining star” in every aspect, from its design and movements to its manufacture and assembly. Drawing on traditional watchmaking skills and the latest in-house integrated design and manufacturing competencies, the brand has continued to create timeless pieces such as the mechanical movements of the 46-F7 series. The delicate details, sophisticated designs and fine intricacies of these high-quality masterpieces attract the attention of watch connoisseurs from all over the world.

### — Product Specifications —

Collection	Contemporary				
Series name	Basic Date				
Reference	RE-AU0401S	RE-AU0402B	RE-AU0403L	RE-AU0404N	RE-AU0405E
Movement	Automatic (with hand winding) mechanical in-house caliber F6N43 made in Japan.				
Power reserve	50 hours				
Accuracy	+ 25 seconds ~ - 15 seconds per day				
Case material (color)	Stainless steel (rose gold colour plated bezel)	Stainless steel			Stainless steel (yellow gold colour plated bezel)
Case size	42.0mm / thickness 11.5mm				
Glass	Front: sapphire crystal (anti reflective coating), back: crystal glass				
Strap	Stainless steel (SUS316L) / trifold deployant buckle with push button / width 21mm				Stainless steel (SUS316L) and yellow gold colour plating / trifold deployant buckle with push button / width 21mm
