

## THE HEART OF FLEXIBILITY AND PRODUCTIVITY.

Epson understands the need and importance of efficient industrial labelling which is often hindered by the hassle of outsourcing colour label printing to Print Service Providers. Introducing Epson's first industrial colour label printer with PrecisionCore™ printhead technology that functions outstandingly in a high-mix environment. Make the right choice towards greater productivity.

## ENGINEERED FOR BUSINESS

### Hassle-free Colour Labels On-demand

Print high quality, customised colour labels in-house easily without keeping an inventory of pre-printed labels.

### GHS-compliant

Used with approved media, labels are GHS (Globally Harmonised System) certified for chemical labelling.

### Precision and Clarity

Epson's revolutionary PrecisionCore printhead delivers consistency and accuracy especially on small text, graphics and barcodes.

The ColorWorks C7510G label printer returns control to you with higher quality works and swifter print speeds. The label printer features Epson's revolutionary PrecisionCore technology, which is engineered to deliver precise printing quickly.

## Hassle-free Colour Labels On-demand

Designed to meet the needs of customers, the C7510G colour label printer leads the ColorWorks Series in print volume and is capable of high-mix applications. It allows you to produce multiple colour label variations from blank labels, eliminating the traditional two-step label printing process. It simplifies the print process to improve product identification and productivity whilst eliminating your excess inventory.

## GHS-compliant

Meet your regulatory requirements within the chemical industry with GHS-compliant labels. The C7510G label printer prints with UltraChrome™ DL ink\*, which when accompanied by certified media, delivers printouts that adhere to GHS standard and are BS5609 certified.

## Precision and Clarity

Featuring PrecisionCore printhead technology, Epson's most advanced printhead architecture, it is the driving force behind Epson's lead in both quality and quantity output. This translates to a reliable colour label printer that delivers both consistency and swift printing to meet your needs.

## Clarity in Printing

UltraChrome DL ink ensures printouts on glossy and other media stays clear and crisp with easy-to-read text and along with the appropriate media, printouts are smudge, fade and water resistant.

Epson pigment ink

Epson pigment ink is not water soluble and firmly binds to media fibers, resisting water and other moisture.

Dye-based ink

Conventional dye-based ink is water soluble so printouts can be negatively affected by water and other moisture.

## Astounding Print Speed

With a print speed of up to 300mm/sec, you can swiftly print full colour labels, rivalling speeds of incumbent thermal monochrome printers.

The C7510G label printer executes roll-to-roll operations with the option of a take-up-unit ensuring that overall productivity is increased.

## Selective Ink Cartridge Replacement

The C7510G label printer functions with consolidation of individual CMYK ink cartridges which mean ink wastage is now a thing of the past. Only replace empty ink cartridges to fully maximise cost savings and greatly reduce production time.

## Nozzle Verification Technology (NVT)

The C7510G label printer produces consistent and reliable quality printouts every time with minimal user intervention through its NVT that works behind the scenes to detect and revive blocked nozzles back to maximum operating performance.
