Orient Star Launches 2025 Limited Edition Models with the Theme of Keshiki – Emotional Colours that Connect the World

Orient Star has launched a series of limited-edition watches inspired by the colours of the sky and sea that connect the world. These limited-edition 2025 models are released under the theme of Keshiki, meaning beautiful Japanese landscapes, and include three new models: Modern Skeleton and Semi Skeleton from the Contemporary Collection, and the smaller Classic Semi Skeleton model from the Classic Collection. The design theme is snowlight, and the dial's various shades of blue capture the soft glow of a snowy evening, where the reflection of light gently brightens the darkness. The special models are engraved with individual serial numbers on the case back.

The limited-edition Keshiki models incorporating dial colours representing the sky and sea connecting the world, began with the desire of Orient Star to be worn by people around the globe. Inspired by the theme of snowlight, these models feature dials that capture a scene where light reflects off snow-covered ground, softly illuminating the lower surroundings. The new blue grey dial features a deep navy blue gradation in the upper half, evoking the gentle contrast of light and shadow found in serene winter snowscapes. The quiet flow of time in the picturesque scene lends the watches a poetic atmosphere.

The sporty Modern Skeleton and Semi Skeleton models from the Contemporary Collection feature distinctive open work dials, the Roman numerals XII in a rose-gold colour evoking the floating moon, as well as small-seconds, second, and power reserve hands, also in the same colour, providing a contrast to the blue grey dial. Grey hour and minute hands blend into the calm, snow-lit landscape. The small Classic Semi Skeleton from the Classic Collection features an understated blue dial, with rose gold-coloured hands and crown adding a subtle flourish.

The three Keshiki models, available in a limited edition of 1,000 pieces for the Modern Skeleton, 900 pieces for the Semi Skeleton and 600 pieces for the Classic Semi Skeleton, are each powered by an automatic (with hand winding) in-house movement and stainless steel case back engraved with limited edition and serial number.

About Orient Star

Capture your gaze. Reflecting the wondrous beauty of shining stars. Orient Star are superb timepieces, crafted by Japanese artisans since 1951. Orient Star continues to shine and innovate its technology as well as the design of its beautiful timepieces. Traditional skills to achieve intricate craftsmanship, in-house production system to create high-quality mechanical movements, and original designs, are all incorporated for these unique, made-in-Japan watches. Orient Star will continue to deliver these creations in Japan and throughout the world.

A Short History

- 1951 Orient Star is created.
- 1957 Orient Star Dynamic* is launched with hour, minute, and second hands on the central axis of the watch.
- 1971 The 46 series movement is created, combining both practicality and high accuracy. This formed the base movement of the Orient Star and Orient brand for 50 years.
- 1991 Mon Bijou* is launched, a skeleton model of high-quality and aesthetic appeal.
- 1996 The power reserve indicator, now an iconic feature of the brand, is integrated into the design.
- 2017 Orient Watch Co. Ltd. merges with [Seiko Epson Corporation](#), a company with a strong watchmaking heritage and focus on precision engineering. Both organisations share a vision for innovation and high-quality design and craftsmanship creating a strong foundation for the future growth of Orient Star.

- 2017 The Mechanical Moon Phase, a cosmic timekeeper is launched as a symbol of this new collaboration. This marks a new era of watchmaking for Orient Star brand.
- 2021 Orient Star celebrates its 70th anniversary. The Skeleton models are mounted with the latest movement with in-house developed silicon escape wheel for longer power reserve and beauty, incorporating design inspired by the vast universe.
