HEALTHCARE

EPSON[®] BUSINESS SOLUTIONS

WHERE THERE'S HEALTHCARE THERE'S EPSON

Accurate, Reliable and Precise

Today's demanding healthcare environments require technology solutions that reduce operating costs, simplify training and improve patient care and safety. Epson can help. From managing patient records and labeling medicines to archiving and displaying data, our technology helps you cut costs and frees up your time to focus on what really matters — patient care.

Epson has over 40 years of experience developing innovative technology solutions that are reliable, accurate and cost-effective. And, as a leader in imaging technologies, we offer a range of future-ready products, backed by world-class service and support.

Improved Productivity

Advanced technology that's versatile, mobile and easy to use frees up staff so they can focus on patient care.

Cost-effective Solutions

Products that offer outstanding value, easy integration and solid reliability help medical facilities achieve a better bottom line.

Reliability You Can Count On

Partner with Epson and get innovative, reliable technology solutions backed by world-class service and support.

Environmental Commitment

With a strong commitment to the environment, we create products that are recyclable and energy efficient.

1

Dynamic displays

Project content in stunning color and bring medical information to life with dynamic displays and digital signage. Our projectors are extremely versatile, enabling you to project onto walls, ceilings and floors.

2

Cost-effective document processing

Epson's high-speed, reliable document scanners can be shared on your network, reducing hardware costs. Quickly scan, share and save medical records, prescriptions, insurance documents, IDs and more.

3

High-speed receipt printing and check processing

Process payments for patient visits with our compact, industry-leading check scanners — also available with built-in receipt printing.

4

Easy data storage and sharing

Quickly archive, store and share medical data with colleagues, clinicians and patients using the Epson Discproducer™ disc publisher/printer.

5

Communicate with color

Improve patient safety by printing detailed color labels on demand. Highlight important information with fast-drying, solvent-resistant, smudge-proof labels for prescriptions and patient wristbands.

6

Portable productivity

Mobilink™ wireless thermal printers deliver high-speed, on-the-go label and barcode printing for bedside and medical mobility applications.

7

Collaborative meetings

Our interactive whiteboard solution, BrightLink® Pro, makes it easy for staff, both locally and remotely, to share and edit documents in real time, transforming training sessions and consultations into collaborative events.

8

Secure, high-performance workgroup printing

Our award-winning WorkForce® Pro Series workgroup printers are fast and affordable, providing high-quality results. And, PIN-restricted printer access ensures confidential information is secure.

9

Results that make a big impression

Our large-format printers produce photographic-quality prints on demand, delivering eye-catching signage, posters and more up to 44" wide.

Why Epson

Successful organizations know that smart investments in technology deliver real results. Epson is a leading provider of technology solutions for document management, collaboration, transactions and commercial printing. We stand apart from the competition because of our leading-edge technologies that deliver powerful productivity, outstanding results and cost-effective solutions.

Our partners choose Epson because of our commitment to:

- Solutions that deliver performance
- Leading-edge research and development
- Value and world-class service and support
- Sustainable manufacturing practices

Improved Productivity

Fast and reliable document management — Network-ready document scanners make medical document management more efficient.

Improve your workflow — ColorWorks® printers deliver economical, color-on-demand labeling for prescriptions, charts and more to improve patient care.

Convenient collaboration — BrightLink Pro transforms walls, tables and more into interactive displays that combine the benefits of whiteboards, flipcharts and displays into one.

Cost-effective Solutions

Print more with less hassle — WorkForce Pro printers with the Replaceable Ink Pack System print up to 50,000 pages without having to change the ink¹.

Cut paper costs — With the Mobilink wireless printer's paper-saving options, you can reduce paper usage by up to 23 percent with no loss in print quality.

Reduce storage costs — Store patient records more efficiently with the Discproducer printer, which can create more than 1,000 fully printed discs with one set of ink cartridges.

Reliability You Can Count On

We understand healthcare — Epson partners with you, delivering industry-specific knowledge that helps you keep costs down, and patient satisfaction high.

Products designed with healthcare in mind — Epson's ongoing investment in new technology delivers products that save time, improve processes and encourage collaboration.

Proven performance — Epson projectors have over 20 years of road-tested reliability.

Environmental Commitment

Energy savings — The WorkForce Pro WF-R5690 color workgroup printer requires no warmup time, unlike lasers, and uses up to 70 percent less power than comparable lasers².

Greater control — Our 3LCD projectors feature an ECO Mode, which reduces lamp wattage, and a scheduling function to turn the projector off, remotely, at a predetermined time.

ENERGY STAR® qualified — The Epson TM-T88 Series features the world's first ENERGY STAR qualified POS thermal receipt printers.

- 1 Ink pack yields are estimated based on ISO/IEC 24711 test in Default Mode printing continuously. Ink pack yields vary considerably for reasons including printed images, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included ink packs is used for printer startup and a variable amount of ink remains in the ink pack after the "replace ink pack" signal. For details, see www.epson.com/cartridgeinfo
- 2 Compared to best-selling color single and multifunction laser printers priced at \$699 (USD) or less as of December 2013. Actual power savings will vary by product model and usage.
