EB-536Wi

|			
WXGA	16 W		Wi-Fi®
	HDMI		
3-in-1 USB display	16,000:1	29dB ECO	

This versatile interactive projector is ideal for delivering high-quality presentations in classrooms and small meeting rooms

The EB-536Wi delivers superior-quality images and a host of additional features as standard to give users more for their money. Ideal for classrooms or small meeting rooms, this projector can be wall or ceiling mounted. It also includes a range of interactive features, including a fast-syncing pen for precise writing, which are available to use straight out of the box.

High-quality image
Complete with our 3LCD technology, the EB-536Wi displays superior-quality, bright images with more accurate colours. The image can be seen even in brightly-lit rooms thanks to an equally high white and colour light output. Image detail is clear thanks to a high contrast ratio and our new short throw lens means sharper images and improved focus.

More value for your money
The lamp in the EB-536Wi now lasts up to 10,000 hours in eco mode. The projector even conserves power during presentations by automatically adjusting the light output depending on the content. The A/V mute function pauses the presentation and dims the lamp by 70% to conserve energy while the projector is not in use. The projectors' built-in 16w speaker means audio content can be played directly through the projector, without the need for additional external speakers. The microphone input transforms the projector into a PA system, meaning presenters can be easily heard in a classroom environment.

Easy to use interactivity
Driverless installation and auto calibration makes setting up the EB-536Wi quick and easy. The EB-536Wi features dual pen capability, meaning two users can annotate across the entire screen area simultaneously using separate attributes[1]. The interactive pens are now also faster-syncing and more accurate for smooth, precise writing. Easy Interactive Tools software provides users with a wide-range of interactive features.

KEY FEATURES

- **Exceptional image quality**
  Epson's 3LCD technology displays brighter images and more accurate colours
- **Equally high white and colour light output**
  Screen can be seen clearly even in brightly-lit rooms
- **Clearer detail**
  Increased contrast ratio of 16,000:1
- **Short throw ratio frees up workspace**
  Projects a larger image in a shorter distance
- **Longer lamp life means low TCO**
  10,000 hours in eco mode / 5,000 hours in normal mode

PRODUCT SPECIFICATIONS

GENERAL

Power consumption	298 Watt, 221 Watt (economy), 0.28 Watt (standby)
Supply Voltage	AC 100 V - 240 V, 50 Hz - 60 Hz
Product dimensions	345 x 315 x 94 mm (Width x Depth x Height)
Product weight	3.9 kg
Noise Level	Normal: 37 dB (A) - Economy: 29 dB (A)
Supported Temperature	Operation 5° C - 35° C, Storage -10° C - 60° C
Supported Humidity	Operation 20% - 80%, Storage 10% - 90%
	If the projector is suspended from a ceiling or wall mount and installed in an environment with heavy oil smoke or places where oils or chemicals are volatilized, places where a lot of smoke or bubbles are used for event staging, or where aroma oils are frequently burned, it can make certain parts of our products susceptible to a material degradation which over time could break and cause the projector to drop from the ceiling.
	If you are concerned about the environment in which your projector is installed, or if you have any other questions, please contact our support department and they can provide additional assistance.
Included Software	Easy Interactive Tools, iProjection, Epson Projector Management
Options	Connection and control box, Document camera, Quick wireless USB key, Short throw wall mount, Soft carry case, Wireless LAN unit
Loudspeaker	16 Watt
Colour	White / Grey
