Solutions for Education

Today's rapidly changing educational landscape demands intelligent, easy-to-use technology that inspires new ways of thinking. At Epson, we have 40 years of experience developing groundbreaking education tools to help engage students, promote collaboration, and support faculty and administrators. From the classroom to the administrative office, our cost-effective, reliable and versatile technology solutions will help you shape your curriculum and drive the future of education at your institution.

Designed for the Classroom and Beyond

Enhance every student's learning experience with dynamic, user-friendly imaging technology that invites participation and engages viewers in any environment, whether it's a classroom, lab or gymnasium. From advanced displays, projectors, printers and scanners all the way to our innovative Moverio® smart glasses, Epson's comprehensive suite of education solutions will meet any need.

Budget-friendly Solutions

We understand budgets can be tight, so we make solutions accessible with special pricing for schools, districts and other agencies.

Our products offer outstanding value, solid reliability, and easy integration with existing curriculum software and systems to help schools achieve a better bottom line.

Find the latest pricing information online at www.epson.com/edguide

Reliability You Can Count On

Our products are designed to work day in and day out, so teachers and staff can focus on the classroom. Offering decades of road-tested reliability, Epson® education solutions are backed by unsurpassed customer service and support that goes the extra mile.

Short-throw Projectors

Advanced Networking

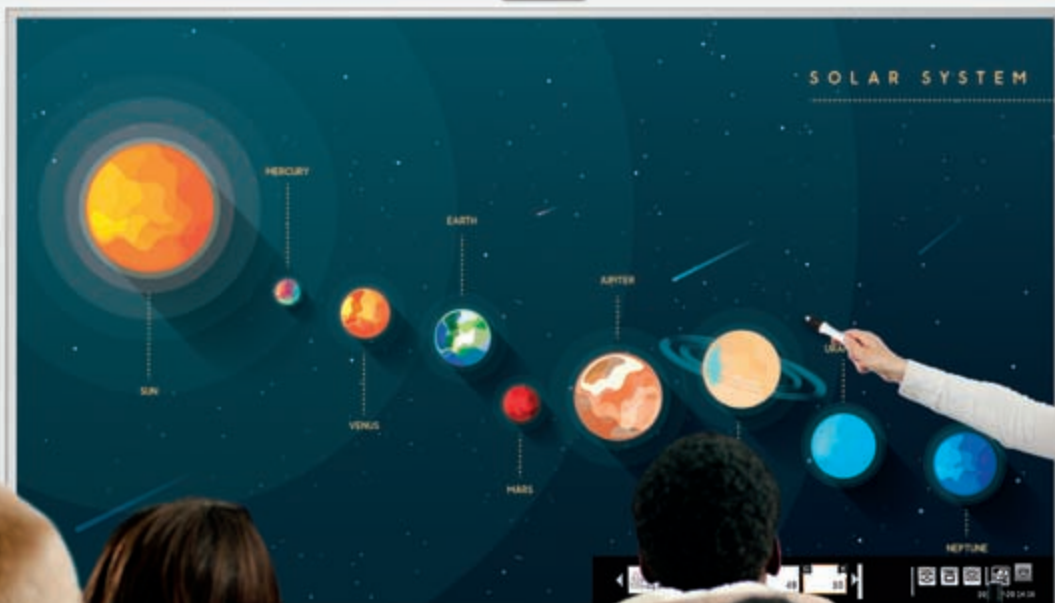

Large-venue

Whether you're searching for state-of-the-art interactive displays, classroom projectors, or visual solutions for larger rooms and venues, Epson offers a comprehensive lineup of displays and projectors that are designed to connect students and teachers in ways never before imagined.

We understand that — just like no two students are alike — each classroom and learning environment offers a unique space for exploration and understanding. From interactive whiteboarding solutions that make collaborative, personalized learning a regular part of instruction to high-brightness, large-venue products for well-lit spaces, Epson is education's #1 choice for projection technology.

All projected images in this catalog are simulated.

Epson Technology Advantages

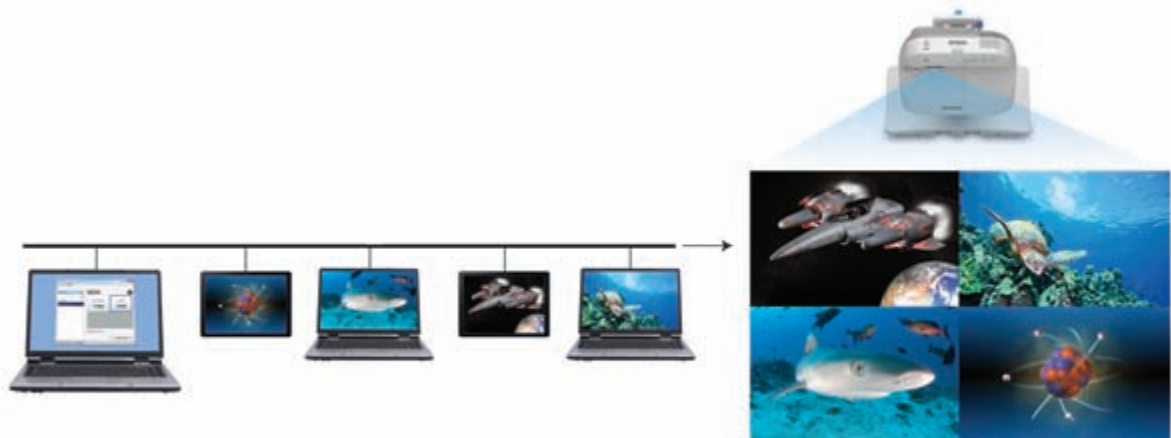

Offering 3x Higher Color Brightness compared to 1-chip DLP projectors¹, plus large, easy-to-see images and the latest in connectivity and support for Chromebooks, tablets and smartphones, Epson visual solutions are an ideal fit for any learning space.

Share content from multiple devices, including Chromebooks

The Epson iProjection™ App² is the wireless display solution for today's BYOD and 1:1 classrooms. With true multi-platform support, students and teachers can share images between the big screen and wirelessly connected devices — including Chromebooks, PCs and Mac® computers, as well as iOS® and Android™ devices.

With built-in Moderator functionality, available for mobile devices and computers³, up to 50 users can connect simultaneously, sharing content from as many as four students at a time. It's the perfect tool for sharing a variety of content at once, or for comparing students' work side by side.

And, Epson iProjection for Chromebook™ makes it easy for students to wirelessly share their Chromebook screens with the rest of the class. With full mirroring capabilities, students can display everything from their Chromebook, including content from Google Docs™, Google Slides and Google Sheets™, as well as Web content from their Chrome™ browser.

Find out how to set up the app and learn more about device compatibility at www.epson.com/projectorapp

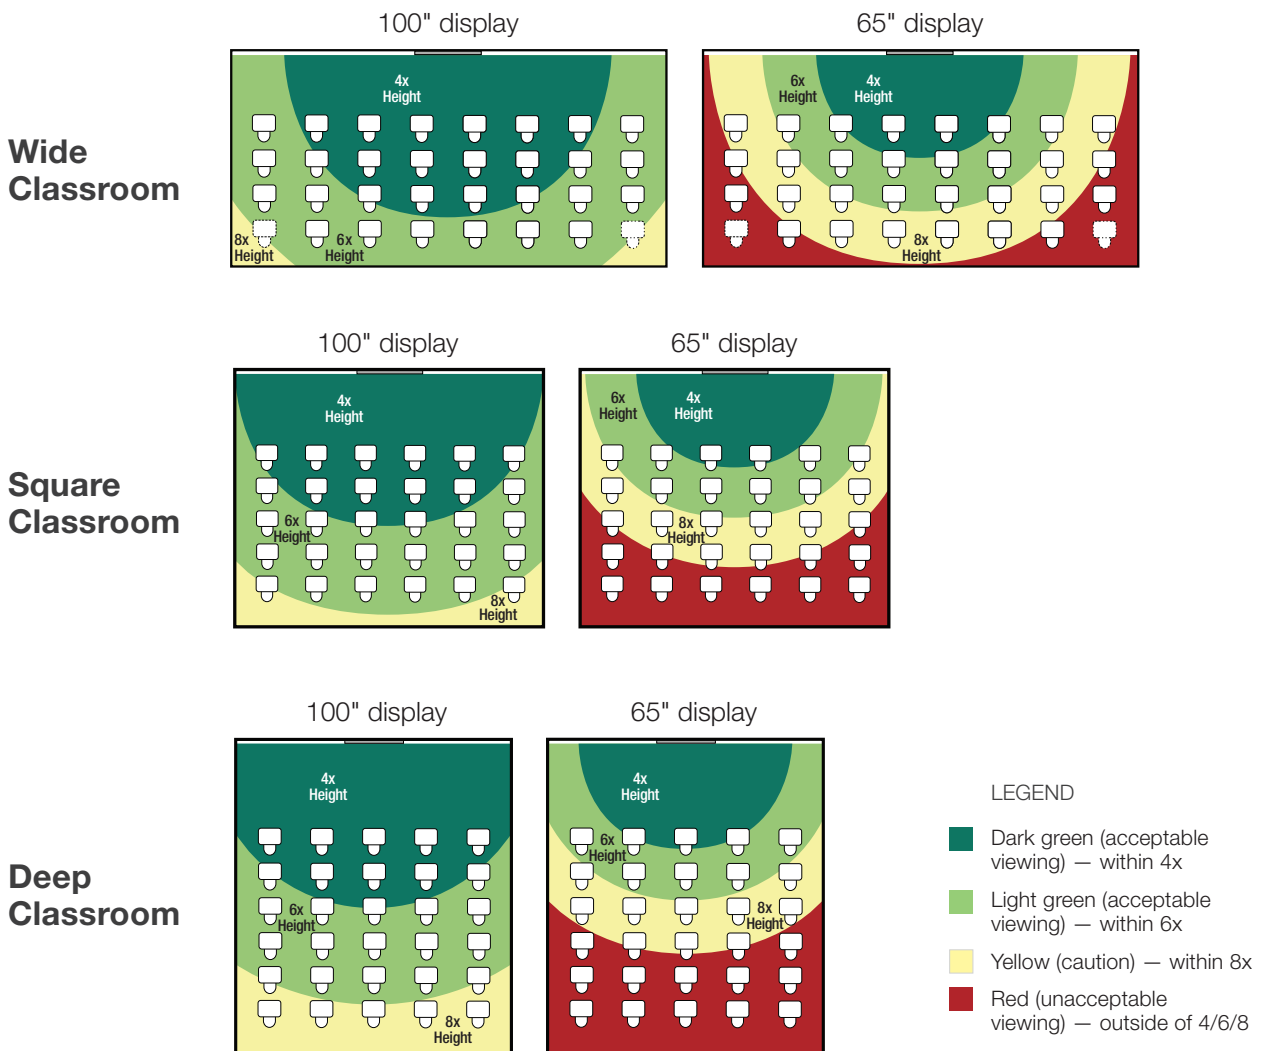

Display Size Makes a Difference in the Classroom

A recent study shows that 58 percent of students can't read content on a 70" flat panel!⁴

That's why it's important that a classroom display is large enough for every student to clearly see it in an average-sized classroom — and read what's on it from anywhere in the room. For many classrooms, flat-panel displays are simply too small to give students optimum readability. In contrast, Epson offers the flexibility to maximize readability for all students. To understand the connection between display size and viewing distance, and for help in making sure your display image size meets your goals, visit www.epson.com/classroomdisplaysize

Visibility in different rooms and seating arrangements

For detailed information on why "Display Size Matters" for classrooms, including the 4/6/8 rule, visit www.epson.com/classroomdisplaysize

Interactive Displays

Engage the entire classroom with these bright, dynamic and easy-to-use interactive displays. Offering dual-user pen-based and/or touch-enabled interactivity for up to six users at a time (available on select models), these displays are designed to maximize classroom collaboration and allow you to share lessons — or students' work — from Chromebooks, computers, iOS and Android devices, or no device at all.

- **Robust integrated wireless networking** — enterprise-level security for peace of mind; compatible with WPA, WPA2-PSK and WPA2-EAP security protocols (optional on some models)
- **Simultaneously display and control multiple device screens** — wirelessly share content from up to four devices, including Chromebooks, with Moderator software³
- **Wireless support** — display Chromebook, iOS, Android, Mac and PC screens²

RECOMMENDED ACCESSORIES

- Custom Micro-adjustable Mount V12H809001 (ELPMBPRH)
- Wireless LAN Module V12H731P02 (ELPAP10)
- Replacement Air Filter V13H134A41 (ELPAF41)
- HDBaseT Transmitter V12H547020 (ELPHD01)

CONNECTIVITY

Product shown is PowerLite 2265U. Please visit www.epson.com/support to see the connectivity options for all models listed.

* Standard limited warranty is 2 years. Brighter Futures pricing includes 1-year warranty extension.

Large-venue Projectors

Designed for exceptional performance, Epson large-venue installation projectors are powerful performers for virtually all large spaces, including auditoriums, gymnasiums, cafeterias, stadiums and more. Featuring laser and lamp-based models, these large-venue projectors feature high lumens for bright, colorful images and utilize advanced display technologies to create immersive experiences that will captivate any audience.

Visit www.epson.com/largevenue for more information and to compare models.

Why choose Epson for your large-venue projection needs?

- Diverse connectivity options including HDBaseT*, SDI*, HDMI and wireless
- Compatible with leading control systems such as Crestron®, AMX®, Extron® XTP®, Control4®* and Art-Net*
- Emulation Mode*¹⁰ saves time and money when replacing other manufacturers' projectors
- Industry-leading service and support, with Next-Business-Day replacement¹¹ and postage-paid returns

PowerLite 5000 Series	Pro G Series	Pro Z Series	Pro L Series

Up to 5,500 lumens ⁵	Up to 8,000 lumens ⁵	Up to 11,000 lumens ⁵	Up to 12,000 lumens ⁵
Fixed lens	10 optional powered lenses	7 optional powered lenses	10 optional powered lenses
			Up to 20,000 hours virtually maintenance-free operation ¹²

* Varies by model.

Laser Projectors vs. Lamp Projectors

Get virtually maintenance-free operation with a laser light source. Featuring a lamp-free, long-life laser light engine, Epson Pro L Series projectors offer numerous advantages, including up to 20,000 hours of virtually maintenance-free operation.¹² And, there's no waiting for the projectors to warm up or cool down — they reach maximum brightness and turn off almost immediately. Plus, these projectors offer high-speed contrast control, an AbsoluteBlack™ contrast ratio and a wide color gamut for stunning, color-rich performance you can count on for an array of applications.

What makes Epson laser projectors different?

- **3-chip 3LCD technology** — for higher color brightness compared to 1-chip DLP laser projectors
- **Industry-leading service and support** — limited warranty of 3 years or 20,000 hours, whichever comes first, plus free Next-Business-Day replacement¹¹ with postage-paid returns
- **Epson 4K Enhancement (4KE) Technology¹³** — a revolutionary technology that accepts 4K signal and enhances 1080p for output that surpasses Full HD image quality
- **Wide selection of powered lenses with lens memory** — including a zero-offset 0.35 ultra short-throw lens for shallow spaces*
- **Reliable 24/7 operation** — ideal for applications requiring continuous projection

Key Differences Between Laser and Lamp Projectors

Laser Projectors	Lamp Projectors
<p>Benefits</p> <ul style="list-style-type: none"> • Virtually maintenance-free operation • Instant On and Instant Off® • AbsoluteBlack — higher contrast ratio 	<p>Benefits</p> <ul style="list-style-type: none"> • Low initial investment • Low total cost of ownership, even at similar total number of hours vs. laser • Restored brightness after lamp replacement
<p>Considerations</p> <ul style="list-style-type: none"> • Higher initial investment • Constant brightness reduction • Costly light engine replacement 	<p>Considerations</p> <ul style="list-style-type: none"> • Requires more maintenance • Labor cost for replacement lamp • Potential downtime due to maintenance

* Varies by model. See page 22 and 23 for details.

Large-venue Installation Projectors: Fixed Lens

Designed for medium and large rooms with high ambient light, these installation projectors offer powerful brightness, super-wide lens shift and robust digital connectivity. Select models offer native Full HD support.

Zero-offset Ultra Short-throw Lens

Transform your Pro G or Pro L Series projector into an ultra short-throw projector. Featuring a 0.35 throw ratio and zero offset, this lens allows you to install the projector just inches from the screen or wall and still get large, clear, crisp projection. It's an ideal solution for installation in narrow spaces and rear-projection applications. Plus, the lens shift gives you even more flexibility when you need it.

Using this lens, you can project from above or below for a dynamic screen or wall display.

Display and Projector Accessories

Wall Mounts

Short-throw Wall Mount

V12H706020 (ELPMB45)

Designed exclusively for use with Epson's PowerLite 500 Series short-throw displays, as well as the PowerLite 530 for SMART and BrightLink 536Wi, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation, while the vertical and horizontal adjustments provide easy image alignment. And, when your short-throw projector is attached to the wall mount, there is less shadow interference and glare, which ensures a more optimal presenting and viewing experience.

Ultra Short-throw Wall Mount

V12H777020 (ELPMB46)

Designed exclusively for use with Epson's PowerLite 600 Series and BrightLink 600 Series ultra short-throw displays, as well as the PowerLite 580 for SMART and PowerLite 585W for SMART, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation from 53" – 100", while the vertical and horizontal adjustments provide easy image alignment. And, when your ultra short-throw projector is attached to the wall mount, there is less shadow interference and glare, which ensures a more optimal presenting and viewing experience.

HDBaseT

HDBaseT Transmitter

V12H547020 (ELPHD01)

For your convenience, Epson offers an optional HDBaseT transmitter box as a companion piece to the PowerLite 2000 and 5000 Series, as well as the Pro G, Z and L Series. Three inputs are featured for easy installation: HDMI, LAN and RS-232 to output into a CAT-5/6 cable.

Wireless Module

Wireless LAN Module

V12H731P02 (ELPAP10)

This high-speed, wireless network adapter plugs directly into select Epson projectors and displays, allowing quick and easy access to the LAN or peer-to-peer networks without wires or cables. When used with Epson EasyMP® Monitor and Network Projection software, users can remotely access and control projectors over the wireless LAN.

- Compliant with 802.11 b/g/n standards
- Uses USB Type A connector
- Compatible with PC or Mac
- Able to transmit audio

Sound Enhancement

Active Speakers

V12H467020 (ELPSP02)

Enhance the learning experience with 30 W of rich, powerful sound. This active speaker set (with built-in amplifiers) lets students clearly hear lessons. The ELPSP02 speakers can be easily mounted on the wall and can be used with any Epson projector or display, with or without the PowerLite Pilot.

Display and Projector Accessories

Audio/Visual Control Systems

PixiePlus™ ELPSP10

Featuring a sleek, space-saving design, PixiePlus is an affordable, easy-to-use projector control system designed for in-wall installation.

- Easy installation — installs in any standard wall box
- Save both money and energy — automatic projector shutdown timer feature

PowerLite Pilot 2 Connection and Control Box

V12H614020 (ELPCB02)

A convenient wall-mounted A/V control box for Epson short-throw and ultra short-throw displays, the PowerLite Pilot 2 supports an array of devices. It's now easier than ever to operate your audio/video source, computer, mobile device and more — even the latest high-definition and MHL-enabled mobile devices. Get greater flexibility, consolidated cable management and streamlined control of classroom multimedia devices.

Whiteboard

100" Whiteboard (16:10) V12H831000

A combined projection and dry-erase surface, this 100" Whiteboard is the ultimate projection partner for classrooms. Featuring a matte-white, low-gloss surface, this Whiteboard enables high-quality projection with minimal glare or reflection. Ideal for use with widescreen WXGA projectors.

Mounting Accessories

Universal Projector Kit ELPMBPJG

Includes a universal projector mount, 3" (76 mm) extension column and Speed-Connect ceiling plate.

Custom Micro-adjustable Projector Mount ELPMBPRH

Specifically designed for use with Epson Pro G models.

Speed-Connect Above-tile Suspended Ceiling Kit ELPMBP04

Provides a host of features that ensure a faster, more secure installation of most lightweight, front-projection models.

Suspended Ceiling Tile Replacement Kit ELPMBP05

Designed to replace one 2' x 2' ceiling tile or to sit above a suspended ceiling.

Speed-Connect Suspended Ceiling Tile Replacement Kit ELPMBP06

Provides features that ensure a faster, more secure installation of most lightweight, front-projection models.

6" Speed-Connect Ceiling Plate ELPMBP07

Offers a clean look and time-saving cable management features while focusing on the speed of installation.

9" – 12" Adjustable Extension Column ELPMBC02

Saves installation time and maximizes security.

6" Fixed Extension Column ELPMBC03

Lowers projectors to the desired height.

3" Fixed Extension Column ELPMBC04

Lowers projectors to the desired height.

Projector Disclaimers

- 1 Color brightness (color light output) measured in accordance with IDMS 15.4. Color brightness will vary depending on usage conditions. The projectors used by a third-party lab for measuring color brightness were leading Epson 3LCD business and education projectors and leading 1-chip DLP projectors, based on NPD sales data for June 2013 through May 2014 and PMA Research sales data for Q1 through Q3 2013.
- 2 For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner's manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details.
- 3 Moderator feature is part of EasyMP Multi-PC Projection software.
- 4 Leading 70" class 4K resolution flat panel in a 22" (width) by 27" (depth) classroom-style arrangement. When asked to copy down six short items of information from slides being displayed, 58 percent of students ages 12–22 copied at least one item incorrectly. Based on U.S. research conducted by Radius Research.
- 5 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

Document Cameras

Epson DC-21
Document Camera

Journey to the intersection of discovery and understanding with Epson document cameras, which allow students and teachers to explore content, objects and complex concepts in real time. With features like one-touch auto focus, digital zoom, HDMI connectivity and microscope adapters, these essential instructional tools elevate math, science, technology and arts lessons into engaging and dynamic learning experiences.

Easy-to-Use Document Camera

Engage students like never before with Epson's easy-to-use DC-21 document camera. Capture and display books, 3D objects and experiments with amazing HD 1080p resolution. Display content from your tablet, PC or Mac computer, record lessons for viewing at a later time, and give students a more interactive learning experience.

MODEL	DC-21
Product Code	V12H758020
Zoom	12x Optical, 10x Digital
Pixel Count	2MP
Output Resolution (Max.)	HD 1080p
Frame Rate	30 fps
Connectivity (Output)	USB, VGA, HDMI
Capture Area	11.7" x 20.7"
A/V Recording	Yes
Built-in Microphone	Yes
Microscope Adapter	Yes
SD Card Slot*	Yes
Software Included	Yes

FEATURES

- **Deliver powerful lessons with extraordinary close-up detail** — 10x digital zoom plus 12x optical zoom
- **Astounding clarity and remarkable detail** — with one-touch auto focus
- **Share magnified images** — microscope adapter included; supports many standard microscopes
- **Record and share audio/video lessons** — built-in microphone and included software; one-touch A/V recording

CONNECTIVITY

* SD card not included. Not all SD cards are supported.

Printers

Bring color printing back to school with Epson printers and all-in-ones. Ideal for educators, administrators and students alike, this innovative lineup — including our groundbreaking EcoTank® Supertank printers and Replaceable Ink Tank System (RIPS) printers — makes color printing affordable again.

Cartridge-Free

Distributed Printing

Multifunction Graphics Printers

Cartridge-Free Printing for Classrooms

Epson's EcoTank line of Supertank all-in-one printers features Cartridge-Free Printing and revolutionary ink replacement technology. They offer an unbeatable combination of value* and convenience, with super-high-capacity, easy-to-fill ink tanks. These all-in-one printers come with enough ink in the box to print for up to 2 years*, so you can print thousands of black and color pages** before replacing ink.

Maximize convenience, savings, quality and reliability, all in one incredible printer. EcoTank printers offer the freedom to print in color, with less impact on your supply budget — you'll save up to 80 percent on ink with low-cost replacement bottles*** (ET-4500, ET-4550 and ET-16500 only). It's the right choice for high-volume, high-quality, hassle-free printing.

Easy-to-fill, supersized ink tanks for cartridge-free printing

Included Ink Yield**	~4,000 pgs. bk/ ~6,500 clr	~11,000 pgs. bk/ ~8,500 clr	~10,500 pgs. bk/ ~11,000 clr	~20,000 pgs. bk/ ~20,000 clr
ISO Print Speed 1-sided†	9.0/4.5 ISO ppm (bk/clr)	13/7.3 ISO ppm (bk/clr)	18/10 ISO ppm (bk/clr)	20 ISO ppm (bk/clr)
ISO Print Speed 2-sided†	–	6.5/4.5 ISO ppm (bk/clr)	8.7/6.0 ISO ppm (bk/clr)	11 ISO ppm (bk/clr)
Paper Capacity	100 sheets	150 sheets	500 sheets	580 sheets
Connectivity	Ethernet, USB, Wireless, Wi-Fi Direct®¹			
Mobile Device/Chromebook Printing²	Yes	Yes	Yes	Yes
Max. Print Size	Legal	Legal	13" x 19" borderless	Legal

FEATURES

- **Cartridge-Free Printing** — comes with up to 2 years of ink in the box*
- **Save up to 80 percent on ink with low-cost replacement bottles***** — features easy-to-fill supersized ink tanks (ET-4500, ET-4550 and ET-16500 only)
- **Chromebook printing right out of the box** — no additional software is required
- **Ultimate wireless solution plus Ethernet** — easy iPad®, iPhone®, Android tablet and smartphone printing²; includes Wi-Fi Direct¹ for network-free printing

* Based on average monthly print volumes of about 150 pages (ET-4500), 300 pages (ET-4550, ET-16500), and 800 pages (WF-R4640).

** ET-4500/4550/16500 included ink bottle yields based on the ISO/IEC 24712 pattern with Epson's methodology. WF-R4640 included ink pack yields are estimated based on ISO/IEC 24711 test in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors must be available for printing. For more information, visit www.epson.com/inkinfo

*** Savings comparison based on the purchase cost of replacement ink bottles and the cost of enough cartridges to achieve the total page yields of the bottles using the manufacturers' online prices and yields for the highest-capacity cartridges for the best-selling similarly featured consumer inkjet printers priced at \$499 or less per NPD, July 2016. Actual savings will vary based on print tasks, print volumes and usage conditions.

**** Designed for use exclusively with Epson ink packs³.

High-volume, Letter-size Distributed Printing for Administrative Offices

Ideal for fast, high-volume, low-cost letter-size black-and-white and/or color printing for administrative offices and teacher prep, Epson WorkForce Pro printers and all-in-ones offer heavy-duty, reliable performance, plus easy, secure and cost-effective print management for your entire education network.

FEATURES

- **Low total cost of ownership** — significant savings; select models use up to 70 percent less power than laser printers⁷
- **Versatile paper handling** — auto 2-sided printing with multiple trays for uninterrupted printing with different paper types
- **Easy networking and administration** — network setup and security features for wired and wireless connections; supports PCL⁵ and Adobe® PostScript® 3™
- **Security features** — PIN number certification for job release; user control access, printer and network settings via Web Config with printer's IP address; SSL/TLS security; IPsec

RECOMMENDED ACCESSORIES

WorkForce Pro 5000 Series

- Optional 250-sheet paper cassette tray (C12C817011)

WorkForce Pro 6000 Series

- Optional 500-sheet paper cassette tray (C12C932011)
- Optional cabinet (C12C932681)
- Maintenance box (C13T671200)

WHAT IS THE REPLACEABLE INK PACK SYSTEM (RIPS)?

WorkForce Pro printers featuring Epson's Replacement Ink Pack System use high-capacity ink packs that reduce total operating costs, providing amazingly affordable, low-cost printing plus versatile media handling for budget-minded schools.

The replacement ink packs for the WF-R5190 and WF-R5690 deliver enough ink to print up to 50,000 pages black/50,000 color** — equivalent to 100 reams of paper or up to 35 toner cartridges.***

* Designed for use exclusively with Epson cartridges or ink packs (ink delivery varies by model)‡

** Replacement cartridge and ink pack yields are estimated based on ISO/IEC 24711 tests in Default Mode printing continuously. Yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer/all-in-one maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges or packs is used for printer startup and a variable amount of ink remains in the cartridges or packs after the "replace cartridge" or "replace ink pack" signal. For details, see www.epson.com/inkinfo

*** About 35 toner cartridges estimate based on print yields of the replacement Black and color ink packs as compared to highest-capacity toner cartridges for similarly-featured color laser printers based on NPD data, Sept. 2016.

Wide-format Distributed Printing for Libraries and Media Centers

Epson's WorkForce and WorkForce Pro wide-format printers and all-in-ones offer fast tabloid printing and scanning for pages as large as 13" x 19". Their versatility is ideal for printing posters, flyers and worksheets by both students and staff.

- 5 Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Color Mode.
- 6 Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Color Mode, using the USB interface.
- 7 Scan speed based on letter-size paper; 300 dpi from when page scan begins.
- 8 Maximum scan size for Mac is 8.5" x 14"; maximum scan size for Windows is 8.5" x 40".
- 9 Based on 200 dpi, letter-size, in Black-and-White or color.
- 10 Optical resolution is the maximum scan resolution of the image sensor, using the definition of ISO 14473.

Augmented Reality Smart Glasses

Augmented Reality

Ideal for computer programming classes and STEM applications, Moverio augmented reality (AR) glasses provide a new way of seeing the world. A highly transparent display maintains the line of sight, with a heads-up experience that blends digital content seamlessly into your world.

Smart Glasses for Classroom Applications

Moverio smart eyewear is designed to change how you experience the world around you. Continuing to set the standard in augmented reality, Epson offers an innovative and affordable solution with this lightweight, comfortable eyewear, plus a growing ecosystem of partners and hardware.

	Moverio BT-300 (Developer Edition)	Moverio BT-300FPV (Drone Edition)
Product Code	V11H756020	V11H756020F
Binocular Display Resolution	720p (1280 x 720)	
Camera	Front-facing; high-resolution (1080p at 30 fps)	
Connectivity	Dual-band wireless connectivity; Bluetooth Smart (BLE)	
Internal Memory	16GB	
Memory Card Support	Supports microSDHC cards up to 32GB	
Platform	Touchpad control unit runs Android OS 5.1 and features an Intel® Atom chipset	
Weight	2.5 oz/69 g (glasses only)	
Battery	Rechargeable with up to 6 hours of battery life*	
Accessories Included	–	Dark lens shade, mounting clips for DJI™ remote

FEATURES

- **Built on an Android platform** — familiar and open development environment, plus access to the Moverio SDK with developer tools and resources
- **Ideal for computer programming students** — students can learn how to program Android applications to support a wearable display, versus traditional mobile devices
- **From the world leader in projection technology** — revolutionary Si-OLED micro-projection technology for superior transparency and amazing color and contrast
- **Integration with Dino-Lite handheld digital microscopes** — connecting the BT-300 to a Dino-Lite microscope allows students to view the output directly in their field of view
- **FPV Edition** — compatible with DJI Go App, providing drone enthusiasts with First-Person View (FPV) piloting to maintain line-of-sight control

* Battery life may vary considerably depending on applications used, device settings (for example, wireless on or off, brightness setting), and temperature.
