

Epson India launches 24-inch dye-sub InkTank printer

Coverage highlights:

- Designed for producing custom T Shirts, mugs, personalised awards and more, the SC-F531 is suitable for photo labs, photo studios, textile screen printers and corporate gifting suppliers for an ad-hoc workflow and low production volumes.
- The SC-F531 is also equipped with unique Fluorescent Yellow & Pink inks, for the customer to create a unique color gamut which is not possible with just the normal inks. These fluorescent inks also illuminate when under UV light.
- Commenting on the launch, **Vasudevan LK, General Manager - LFP/IE, Epson India** said, “At Epson, we are committed to driving the digital textile market and excited to expand our award-winning product line with the addition of the latest SC-F531. This printer meets a market need for small size businesses wanting to enter the textile printer business with a low investment, easy-to-use dye-sublimation printer that will allow them to create personalized promotional products, fashion apparel and home décor and furnishing. The SC-F531 delivers these small businesses high image quality in one of the most compact, feature-rich dye-sublimation printers in the market that will even easily fit on a desktop for convenient use. Moreover, **the Fluorescent Pink and Yellow inks is another added benefit of this printer.**”
