

| Information for treatment facilities  |             |             |
|---|-------------|-------------|
| Company Name  | SEIKO EPSON |             |
| Products Name   | DS-50000    |             |
| Type of equipment   | SCN         |             |
| Component or Material<br>[EICTA,CECED and EERA Joint Position Guidance September 26,2005]   | Judgment    | Location No |
| Battery (internal*) containing Mercury (Hg)/ NiCad/ Lithium/ Other  | no          |             |
| Backlighting Lamps of LCD/TFT or similar screens containing Mercury (Hg)  | no          |             |
| Mercury (Hg) in other applications**  | no          |             |
| Cadmium**   | no          |             |
| Gas discharge Lamps   | no          |             |
| Plastic containing brominated flame retardants other than in Printed Circuit Assemblies***  | no          |             |
| Liquid Crystal Displays with surface greater than 100 cm <sup>2</sup>   | no          |             |
| Capacitors with PCB's   | no          |             |
| Capacitors with substances of concern**** + height >25 mm, diameter >25mm or proportionately similar volume   | no          |             |
| Asbestos  | no          |             |
| Refractory ceramic fibers   | no          |             |
| Radio-active substances   | no          |             |
| Beryllium Oxide   | no          |             |
| Other forms of Beryllium  | no          |             |
| Gasses-which fall under Regulation(EC)2037/2000 and all hydrocarbons (HC).  | no          |             |
| Components with pressurized gas which need special attention Pressure >1.5 bar*****   | no          |             |
| Liquids***** if volume > 10cl ( or equivalence in weight,e.g. for PCB,oil...)   | no          |             |
| Mechanical components that store mechanical energy ( i.e. springs) or equivalent parts which need special attention***** ( diameter > 10mm and height > 25mm or proportionally similar volume and expanding ) | no          |             |

Blue area = Blue area the need for the location of the compartment/ substances within the product. When the location of a substance/ components is requested, it is at part level, e.g. main board, housing, etc.

\* Internal means that batteries can only be removed by opening the product by means of (a) tool(s).

\*\* Substances are considered to be in the product if present above the levels specified in Commission Decision 2005/618/EC related to Directive 2002/95/(EC) (RoHS Directive) or if their use is permitted through exemptions in the Annex of Directive 2002/

\*\*\* To be coherent with industry current standards and practices on tracking of plastic parts, Directive 2002/96 (EC) Annex II requirement is understood to focus on plastic parts that weight more than 25 g.

\*\*\*\* Substance of concern other than PCB, to be specified/ addressed further in the context of Directive 2002/96 (EC) Annex II national requirements and European developments.

\*\*\*\*\* Needs of equivalent nature as those for maintenance, service manuals and installation for safety purposes.
