ORIENT adds new his and hers simple date models to its Contemporary Collection

ORIENT adds ten new his and hers simple date models, each featuring a simple design with a thin bezel, a three-hand time display, a date window, and a wide and highly legible dial encased in sapphire crystal glass. The three-dimensional indices at 3, 6, 9 and 12 o'clock positions add accents to the simple layout on the sunburst pattern dial with metallic luster. The wearer can adjust the metal strap's short pitch links and buckle for optimum comfort.

Available in both men's and ladies' models, the new timepieces expand ORIENT's pair watch lineup.
