The SureColor® P-Series is designed exclusively for use with our Epson UltraChrome Ink and not for use with any other brands of inks or cartridges.

<sup>1</sup> Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect enabled printers and compatible devices and apps, visit [www.epson.com/connect](http://www.epson.com/connect)

<sup>2</sup> Epson UltraChrome ink sets are expected to create prints that have WIR display permanence ratings of up to 200 years for color and 400 years for black-and-white. WIR lightfastness ratings are based on accelerated testing of prints on specified media, displayed indoors, under glass. Actual print stability will vary according to media, printed image, display conditions, light intensity, humidity and atmospheric conditions. Epson does not guarantee longevity of prints. For maximum print life, display all prints under glass or UV-absorbing acrylic and protect them from prolonged high-humidity environments.
