Solutions for Education

Today's rapidly changing educational landscape demands intelligent, easy-to-use technology that inspires new ways of thinking. At Epson, we have over 40 years of experience developing groundbreaking education tools to help engage students, promote collaboration, and support faculty and administrators. From the classroom to the administrative office, our cost-effective, reliable and versatile Brighter Futures® solutions will help you shape your curriculum and drive the future of education at your institution.

Designed for the Classroom and Beyond

Enhance every student's learning experience with dynamic, user-friendly imaging technology that invites participation and engages viewers in any environment, whether it's a classroom, lab or gymnasium. From advanced displays, projectors, printers and scanners all the way to our innovative Moverio® smart glasses, Epson's comprehensive suite of education solutions will meet any need.

Budget-friendly Solutions

We understand budgets can be tight, so we make solutions accessible through our Brighter Futures program with special pricing

for schools, districts and other agencies.

Our products offer outstanding value, solid reliability and easy integration with existing curriculum software and systems to help schools with their bottom line.

Find the latest pricing information online at

www.epson.com/edguide

Reliability You Can Count On

Our products are designed to work day in and day out, so teachers and staff can focus on the classroom. Offering decades of road-tested reliability, Epson® education solutions are backed by unsurpassed customer service and support that goes the extra mile.

Short-throw Displays

Advanced Networking Projectors

Large-venue Projectors

Whether you're searching for state-of-the-art laser displays, networked classroom projectors, or visual solutions for larger rooms and venues, Epson offers a comprehensive lineup of displays and projectors that are designed to connect students and teachers in ways never before imagined.

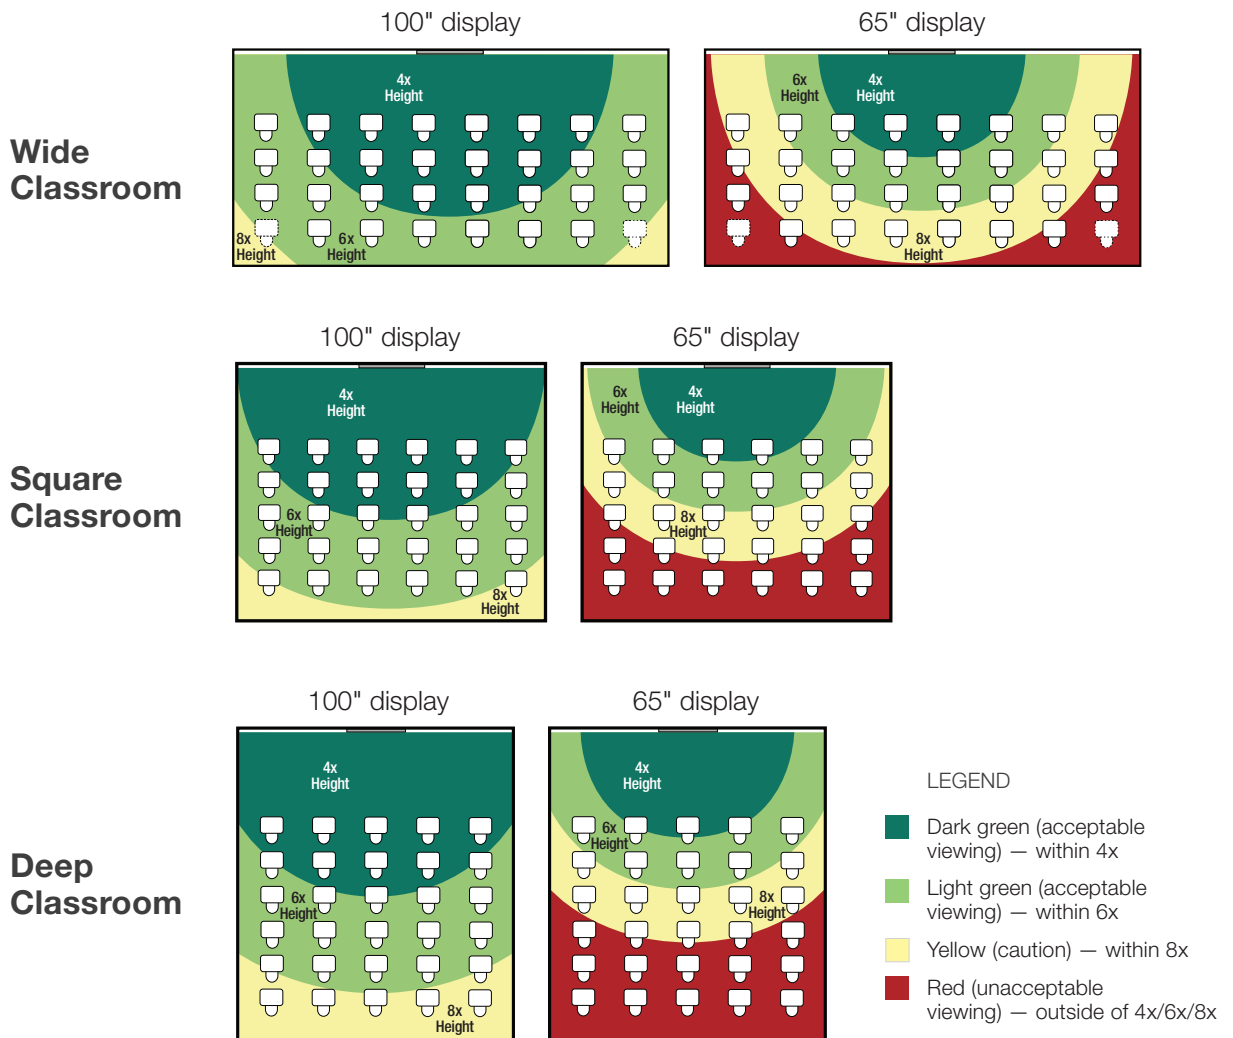

We understand that — just like no two students are alike — each classroom and learning environment offers a unique space for exploration and understanding. From interactive whiteboarding solutions that make collaborative, personalized learning a regular part of instruction to high-brightness, large-venue products for well-lit spaces, Epson is education's #1 choice for projection technology.

Display Size Makes a Difference in the Classroom

A recent study shows that 58 percent of students can't read content on a 70" flat panel! That's why it's important that a classroom display is large enough for every student to clearly see it in an average-sized classroom — and read what's on it from anywhere in the room. For many classrooms, flat-panel displays are simply too small to give students optimum readability. In contrast, Epson offers the flexibility to maximize readability for all students. To understand the connection between display size and viewing distance, and for help in making sure your display image size meets your goals, visit www.epson.com/classroomdisplaysize

Visibility in different rooms and seating arrangements

For detailed information on why "Display Size Matters" for classrooms, including the 4x/6x/8x rule, visit www.epson.com/classroomdisplaysize

Epson Technology Advantages

Epson 3-chip, 3LCD technology delivers high color brightness, uncompromising image quality and road-tested reliability, making our visual solutions an ideal fit for any learning space. Plus, they offer large, easy-to-see images and the latest in connectivity and support for Chromebooks, tablets and smartphones.

Wirelessly share content from multiple devices, including Chromebooks²

Designed for today's BYOD and 1:1 classrooms, Epson iProjection™ is a robust wireless solution offering true multi-platform support for Chromebooks, PCs and Mac® computers, as well as iOS® and Android™ devices². Students and teachers alike can wirelessly display documents, images, webpages and more from their devices for the entire classroom to see on the big screen. Advanced functionality includes two-way content sharing — available with select Epson models — annotation, real-time mobile camera display and more³.

Plus, Epson iProjection's built-in Moderator feature — available for both mobile devices and computers³ — allows teachers to connect up to 50 devices, then manage and display content from up to four students at a time. It's the perfect tool for sharing a variety of content at once, or for comparing students' work side by side.

And, Epson iProjection for Chromebook™ makes it easy for students to wirelessly share their Chromebook screens with the rest of the class. With full mirroring capabilities, the app allows students to display content from Google Docs™, Google Slides™ and Google Sheets™, as well as web content from their Chrome™ browser (audio support not available for mirroring).

Epson Laser Projection Technology

Virtually maintenance-free laser life source⁴

As a world leader in digital 3LCD projection solutions, Epson continues to drive the future of classroom and projection technology with its full suite of laser displays and projectors. Featuring lamp-free, long-life, laser light engines, Epson laser solutions achieve new levels of performance and reliability.

Why choose laser?

- **Breakthrough laser technology** — long-life laser light engine provides up to 20,000 hours of virtually maintenance free light source life⁴
- **Outstanding color performance and contrast** — get exceptional, true-to-life color reproduction and deep, dark blacks for stunning visuals you can count on for an array of applications
- **Instant Off®/On** — displays and projectors reach maximum brightness and turn off almost immediately, without having to warm up or cool down
- **Reliable operation** — ideal for applications requiring continuous projection

Explore Epson Laser Displays and Projectors

Laser Interactive Displays	Laser Digital Signage Displays	Classroom Laser Projectors	Large-venue Laser Projectors	Accent Lighting Laser Projectors
				
Full HD, ultra short-throw interactive laser displays for collaborative learning experiences	Bold, rich Full HD laser displays for virtually any signage or presentation need	High-performance laser projectors offering a variety of brightness, connectivity and resolution	High-lumen laser projectors designed for exceptional performance in auditoriums, gymnasiums and more	Project dynamic, experiential content for signage, wayfinding, branding and promotions

Interactive Displays

Engage the entire classroom with these bright, dynamic and easy-to-use interactive displays, available in laser and lamp-based models. Offering dual-users pen-based and/or touch-enabled interactivity for up to eight users at a time (on select models), these displays are designed to maximize classroom collaboration and allow you to share lessons — or students' work — from Chromebooks***, computers, iOS*** and Android*** devices, or annotate PC-free with no device at all.

Optional Ultra Short-throw Lenses*

Project supersized images using Epson's ultra short-throw lens. Install the projector just inches from the screen or wall and still get huge, bright, crisp projection. Featuring a 0.35 throw ratio and zero offset, the ELPLX01 and ELPLX02 are ideal for installation in narrow or tight spaces. And, wide lens shift gives you even more flexibility when you need it.

Using this lens, you can project from above or below for a dynamic screen or wall display.

*Lens compatibility varies by model. See page 23 for details.

Display and Projector Accessories

Connectivity

HDBaseT Transmitter | V12H547020 (ELPHD01)

Maximize convenience with this optional HDBaseT transmitter box, a great companion piece to select models in the PowerLite L Series, 2000 and 5000 Series, as well as the Pro G. Three inputs are featured for easy installation: HDMI, LAN and RS-232 to output into a CAT-5/6 cable.

Wireless LAN Module | V12H731P02 (ELPAP10) and V12H005A01 (ELPAP11)

These high-speed, wireless network adapters plug directly into select Epson projectors and displays, allowing quick and easy access to the LAN or peer-to-peer networks without wires or cables. When used with Epson Projector Management Software, Network Projection and Multi-PC Projection software, they allow users to remotely access and control projectors over the wireless LAN.

- Compliant with 802.11 b/g/n standards
- Compatible with PC or Mac
- Uses USB Type-A connector
- Able to transmit audio

Sound Enhancement

Active Speakers | V12H467020 (ELPSP02)

Enhance the learning experience with 30 W of rich, powerful sound. This active speaker set (with built-in amplifiers) lets students clearly hear lessons. The ELPSP02 speakers can be easily mounted on the wall and used with any Epson projector or display, with or without the PowerLite Pilot.

Audio/Visual Control Systems

PixiePlus™ | ELPSP10

Featuring a sleek, space-saving design, PixiePlus is an affordable, easy-to-use projector control system designed for in-wall installation.

- Easy installation — installs in any standard wall box
- Save both money and energy — automatic projector shutdown timer feature

PowerLite Pilot 3 Connection and Control Box | V12H927020 (ELPCB03)

Maximize cable management and control for your classroom projector with the PowerLite Pilot 3, a convenient wall-mounted A/V connection and control box for Epson short-throw and ultra short-throw projectors. Designed to support an array of devices, the PowerLite Pilot 3 streamlines source switching and volume control. With 3x HDMI control buttons (including 1 MHL), you can select from an array of connected classroom devices — and even display two sources side-by-side onscreen at once using your projector's Split Screen feature¹⁵ You can also use it as an extension box to expand the range of your cables and increase flexibility.

Whiteboards and Screens

100" Whiteboard for Projection and Dry-erase | V12H83100

A combined projection and dry-erase surface, this 100" Whiteboard is the ultimate projection partner for classrooms. Ideal for use with your widescreen WXGA projector.

100" Whiteboard (16:9) | V12H006A01

Designed for Epson PowerLite and BrightLink ultra short-throw displays, the 100" Da-Lite® IDEA™ Screen offers a matte-finish, magnetic surface with 2.5 gain, which enables high-quality projection with minimal glare or reflection on a dry-erase surface.

100" Whiteboard (16:10) | V12H831001

This 100" Whiteboard features a matte-white, low-gloss surface. This whiteboard enables high-quality projection with minimal glare or reflection and is ideal for use with widescreen projectors.

Display and Projector Accessories

Interactive Pens

Replacement Pens | Orange V12H773010 (ELPPN05A) / Blue V11H774010 (ELPPN05B)

These two pens offer interactive drawing and mouse capabilities and simultaneous operation with BrightLink 500 Series, 600 Series and 710Ui interactive displays. Powered by a single AA battery, the pens include a convenient on/off power button with Sleep Mode to prolong battery life.

Mounting Accessories

Short-throw Wall Mount | V12H706020 (ELPMB45)

Designed exclusively for use with Epson's PowerLite 500 Series short-throw displays, as well as the BrightLink 536Wi, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation, while the vertical and horizontal adjustments provide easy image alignment. And, when your short-throw display is attached to the wall mount, there is less shadow interference and glare, for a more optimal presenting and viewing experience.

Ultra Short-throw Wall Mount | V12H777020 (ELPMB46)

Designed exclusively for use with Epson's PowerLite 600 Series and BrightLink 600 Series ultra short-throw displays, as well as the PowerLite 680 for SMART and PowerLite 685W for SMART, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation from 53" – 100", while the vertical and horizontal adjustments provide easy image alignment. And, when your ultra short-throw display is attached to the wall mount, there is less shadow interference and glare, for a more optimal presenting and viewing experience.

Ceiling Mount | V12H063010 (ELPMB60 W/B)

Easily project high-quality images from classroom ceilings with the ELPMB60 Ceiling Mount*. Designed with durability in mind, this state-of-the-art mount provides optimal stability for ceiling and wall-mounted applications. The sleek mount integrates into a variety of classroom settings and features a rotating ball joint, plus image tilt¹⁷, for convenient projection onto whiteboards, screens and more.

Lighting Track Mount | V12H904020 (ELPMB61 W/B)

Control the distance and orientation of your projector displays with the sleek ELPMB61 Lighting Track Mount*. Designed with ease-of-use in mind, the ELPMB61 Lighting Track Mount quickly and efficiently connects Epson projectors to compatible lighting tracks¹⁶ for hassle-free integration and enhanced mobility. Featuring a ball joint for 360-degree horizontal and 90-degree vertical movement, plus image tilt¹⁷, this mount is a convenient, flexible solution for projecting onto screens, walls and more.

Low Ceiling Mount / High Ceiling Mount | V12H802010 (ELPMB47) / V12H803010 (ELPMB48)

Specifically designed for use with Epson Pro G and L Series projectors, these heavy-duty mounts support up to 165 lb and offer independent adjustments for vertical tilt, horizontal roll, and rotation. The Low Ceiling Mount offers a low-profile, aesthetic design, while the High Ceiling Mount features MicroZone adjustments for fast, precise projector registration. And, their sleek, silver finish blends in with ceilings.

Adapter Plate for SMART UF55/65/70/75 Series Mount | V12H870001

A cost-effective solution, this easy-to-install bracket enables a quick retrofit solution for SMART Board interactive systems using select Epson projectors.

Universal Projector Kit | V12H808001 (ELPMBPJG)

Includes a Universal Projector Mount*, 3" (76 mm) Fixed Extension Column and Speed-Connect Ceiling Plate.

* Projector not included.

Custom Micro-adjustable Projector Mount | V12H809001 (ELPMBPRH)

Specifically designed for use with the Epson Pro G and PowerLite 2000 and 5000 Series.

Speed-Connect Above-tile Suspended Ceiling Kit | V12H804001 (ELPMBP04)

Provides a host of features for fast, secure installation of most Epson lightweight, front-projection models.

Suspended Ceiling Tile Replacement Kit | V12H805001 (ELPMBP05)

Designed to replace one 2' x 2' ceiling tile or sit above a suspended ceiling.

Speed-Connect Suspended Ceiling Tile Replacement Kit | V12H806001 (ELPMBP06)

Provides features for fast, secure installation of most Epson lightweight, front-projection models.

6" Speed-Connect Ceiling Plate | V12H807001 (ELPMBP07)

Offers a clean look and time-saving cable management features while focusing on the speed of installation.

9" – 12" Adjustable Extension Column | V12H810001 (ELPMBC02)

Saves installation time and maximizes security.

6" Fixed Extension Column | V12H811001 (ELPMBC03)

Lowers projectors to the desired height.

3" Fixed Extension Column | V12H812001 (ELPMBC04)

Lowers projectors to the desired height.

Projector Disclaimers

- 1 Leading 70" class 4K resolution flat panel in a 22' (width) by 27' (depth) classroom-style arrangement. Participants were seated 8' to 27' from the display. When asked to copy down six short items of information from slides being displayed, 58 percent of students ages 12 – 22 copied at least one item incorrectly. Based on U.S. research conducted by Radius Research 2016.
- 2 For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner's manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details.
- 3 Moderator control, Image sharing, Annotation tools, Connecting via QR code and Projector Remote are not available on Epson iProjection for Chromebooks.
- 4 Actual hours may vary depending on mode and usage environment. 20,000 hours is the estimated laser light source life when the projector is used in Normal Mode in an ordinary environment. The projector has a limited warranty of 3 years or 20,000 hours, whichever comes first.
- 5 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.
- 6 Full HD WUXGA (1920 x 1200), SXGA+ (1400 x 1050), WXGA (1280 x 800), XGA (1024 x 768), SVGA (800 x 600).
- 7 Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.
- 8 Requires Easy Interactive Driver. Certain functionality is only available through Epson Interactive Tools (EIT) software. For a list of supported operating systems, visit www.epson.com
- 9 Includes one Mobile High-Definition Link® (MHL) HDMI port.
- 10 Life of the optical engine may vary depending on mode and usage environment. The projector has a standard limited warranty of 3 years.
- 11 Works only with Epson projectors that support presentation over the network capability.
- 12 Expedited shipping not available in all areas. Road Service orders must be in by 3 p.m. Eastern Time for Next-Business-Day delivery.
- 13 4K Enhancement Technology shifts each pixel diagonally to surpass full HD resolution on screen.
- 14 Emulation Mode is limited to certain code sets and may not support all codes. Contact Epson Support for the latest supported sets.
- 15 Split Screen feature requires remote control. Consult your user manual for input combinations.
- 16 Track not included.
- 17 +/- 30 degrees on select models.

Document Cameras

Document Camera

Journey to the intersection of discovery and understanding with Epson document cameras, which allow students and teachers to explore content, objects and complex concepts in real time. With features like one-touch auto focus, digital zoom, HDMI connectivity and a microscope adapter, these essential instructional tools elevate math, science, technology and art lessons into engaging and dynamic learning experiences.

Easy-to-use Document Cameras

Engage students like never before with Epson's easy-to-use document cameras. Capture and display books, 3D objects and experiments with amazing HD 1080p resolution. Display content from your tablet, PC or Mac computer, record lessons for viewing at a later time, and give students a more interactive learning experience.

Printers

Cartridge-Free Printers

Distributed Printing

Multifunction Graphics Printers

Bring color printing back to school with Epson printers and all-in-ones. Ideal for educators, administrators and students alike, this innovative lineup — including our groundbreaking Supertank printers and Replaceable Ink Pack System (RIPS) printers — makes color printing affordable again.

Cartridge-Free Printing for Classrooms

Two years of ink guaranteed¹ with Epson's line of WorkForce® and WorkForce Pro supertank printers, which feature Cartridge-Free Printing and revolutionary ink replacement technology. They offer an unbeatable combination of value* and convenience with super-high-capacity ink bottles and packs. These printers come with enough ink in the box to print for up to 2 years*, so you can print thousands of pages black/color** before replacing ink.

Maximize convenience, savings, quality and reliability, with this incredible printer. Supertank printers offer the freedom to print in color, with less impact on your supplies budget — plus you'll save up to 80 percent with low-cost replacement ink bottles vs. ink cartridges*** (ST-2000, ST-3000 and ST-4000

- **Chromebook printing right out of the box** — no additional software is required
- **Ultimate wireless solution, plus Ethernet** — easy iPad®, iPhone®, Android tablet and smartphone printing²; includes Wi-Fi Direct¹ for network-free printing

¹ Promo valid for ST-2000, ST-3000, ST-4000 printers and WF-C5790 (C11CG02201-LB) & WF-M5799 (C11CG04201-LB) printer bundles through authorized Epson resellers only from 10/1/19 to 3/31/20. Product must be registered before 4/30/20. Limit 8 additional bottles of 502 inks or 902 packs per printer. Max 8 claims per printer. Each claim cannot contain multiple bottles of the same color. Limit 2 additional bottles of 532 inks or M02XL120 packs per printer. Limit one bottle per claim. — Based on average monthly document print volumes of about 150 pages (ST-2000), 300 pages (ST-3000/ST-4000/ST-M1000/ST-M3000), 500 pages (WF-C5790) and 750 pages (WF-M5799) — Promo applies to ink only. Printer covered by Epson 2-year ltd warranty. For promo participation you must register your product. See Epson.com/support for details.

* Based on average monthly document print volumes of about 150 pages (ST-2000), 300 pages (ST-3000, ST-4000), 500 pages (WF-C5790), and 750 pages (WF-M5799).

** ST-2000/3000/4000 included ink bottle yields based on the ISO/IEC 24711 test in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors must be available for printing. For more information, visit www.epson.com/inkinfo

*** Savings comparison based on the purchase cost of replacement ink bottles and the cost of enough cartridges to achieve the total page yields of the bottles using the manufacturers' online prices and yields for the highest-capacity cartridges for the best-selling similarly featured consumer inkjet printers priced at \$499 USD or less per industry available data, August 2018. Actual savings will vary based on print tasks, print volumes and usage conditions.

**** Designed for use exclusively with Epson ink packs.

Classroom and Workgroup Printers

Classrooms evolving towards 1:1 learning and mobile device usage are on the rise. Epson printers have evolved, too, with a full portfolio of desktop and mobile printers that come equipped with wireless connectivity and mobile device printing².

Ideal for fast, high-volume, low-cost, letter-size black-and-white and/or color printing for administrative offices and teacher prep, Epson WorkForce Pro printers offer heavy-duty, reliable performance, plus easy, cost-effective print management for your entire education network.

WHAT IS THE REPLACEABLE INK PACK SYSTEM (RIPS)?

WorkForce Pro printers featuring Epson's Replaceable Ink Pack System use high-capacity ink packs to help reduce total operating costs, providing amazingly affordable, low-cost printing plus versatile media handling for budget-minded schools.

The replacement ink packs for the WF-C529R and WF-C579R deliver enough ink to print up to 50,000 pages black/20,000 color** — equivalent to 100 reams of paper or up to 35 toner cartridges.***

Ultra High-speed Multifunction Network Printers

Epson's flagship color multifunction network printers speed through prints at up to 100 ISO ppm† (WF-C20590), the fastest in its class⁶. Powered by PrecisionCore® Line Head Technology, they deliver brilliant-quality output. Powerful but efficient printers, they utilize up to 50 percent less power than color lasers⁶, to keep operating costs in check, and can be installed with any 110 V outlet.

FEATURES⁹

- **No need to laminate** — prints are water resistant and smudge resistant with UltraChrome XD and UltraChrome XD2 pigment ink
- **Low cost of operation** — high-capacity ink cartridges up to 700 mL for low printing costs
- **Versatile** — print a wide variety of media, including rigid posterboard up to 1.5 mm thick¹⁰
- **Optional 320GB internal print server** — remotely manage print queues and save and reprint jobs (available for select models; sold separately)
- **Direct copy/enlarge** — from Epson document scanner for PC-free posters¹¹

* This product uses only genuine Epson-brand cartridges or ink packs (ink delivery varies by model). Other brands of ink supplies are not compatible and, even if described as compatible, may not function properly.

RECOMMENDED ACCESSORIES

- Optional Stand (C12C933151) — T3170 only
- Multifunction Scanner Module for 36" (SCT36SCAN) — T5270/D only
- Multifunction Scanner Module for 44" (SCT44SCAN) — T7270/D only
- 320GB Internal Print Server (C12C848031) — T7270D only

Printer Disclaimers

† Black and color print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed

†† Black print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed

1 Wi-Fi CERTIFIED™; level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software.

2 Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect™ enabled printers and compatible devices and apps, visit www.epson.com/connect

3 With optional paper tray(s). Number of optional trays varies by model.

4 Not all media types are supported for PCL printing.

5 Compared to similarly featured monochrome printers under \$500 and under 40 ppm based on industry available data, April 2018. Cartridge prices are based on manufacturer yield and online pricing. Printer prices are average sales prices per industry available data, April 2018. Savings ranges from up to 40% – 75%. Savings will vary based on printers, cartridges and usage conditions (WF-M5299, WF-M5799); compared with best-selling, color laser printers priced at \$499 (USD) or less and 30 ppm or less, as of October 2017. Calculation based on continuous printing with highest-capacity individual cartridges. Actual savings will vary based on print task and use conditions. (WF-C5290, WF-C5790); compared to best-selling color lasers priced at \$600 (USD) or less as of May 2015. Actual power savings will vary by product model and usage (WF-6090, WF-6590); compared with best-selling, single-function and multifunction color laser printers priced at \$2,000 (USD) or less and with speeds of 40 ppm or less per industry available data as of June 2018. Calculation based on continuous printing with highest-capacity individual cartridges sold in retail. Actual savings will vary based on print task and use conditions (WF-C529R, WF-C579R).

6 Compared to best-selling A3 color MFPs with MSRP of \$41,000 or less. Competitive data gathered from manufacturer websites and third-party industry sources as of Nov. 2016.

7 NFC requires use of a device that includes NFC, and may require additional software.

8 Compared with best-selling, single-function and multifunction color laser printers priced at \$2,000 (USD) or less and with speeds of 40 ppm or less per industry available data as of June 2018. Calculation based on continuous printing with highest-capacity individual cartridges sold in retail. Actual savings will vary based on print task and use conditions.

9 Print speeds are based on the print engine speed only. Total throughput time for any print depends on workstation configuration, file size, print resolution, ink coverage, networking, etc. Actual print speeds will vary.

10 Available features on select models.

- Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Color Mode, using the USB or wireless interface.
- Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Color Mode, using the USB interface.
- Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Color Mode, using the USB interface. Scan speed varies depending on network conditions.
- May require Internet access for software download.
- Windows only on some models. See product specifications for more details.
- Scan speed based on letter-size paper; 300 dpi from when page scan begins.
- Maximum scan size for Mac is 8.5" x 14"; maximum scan size for Windows is 8.5" x 40".
- Maximum scan size for Mac is 11.7" x 16.54"; maximum scan size for Windows is 11.7" x 17".
- Based on 200 dpi, letter-size, in Black-and-White or color.
- Maximum scan size for Mac is 11.7" x 16.54" via the ADF or flatbed; maximum scan size for Windows is 11.7" x 100" via the ADF.
- Subject to limited warranty terms and conditions. Expedited shipping not available in all areas. Road Service orders must be in by 3 p.m. Eastern Time for Next-Business-Day delivery.
- Optical resolution is the maximum scan resolution of the image sensor, using the definition of ISO 14473.

Augmented Reality Smart Glasses

Augmented Reality

Ideal for computer programming classes, STEM applications and drone training programs, Moverio augmented reality (AR) glasses provide a new way of seeing the world. Epson's revolutionary Si-OLED micro-projection technology delivers a highly transparent display that blends digital content seamlessly with the real world.

For illustrative purposes only.

Smart Glasses for Classroom Applications

Moverio smart glasses are designed to change how you experience the world around you. Continuing to set the standard in augmented reality, Epson offers an innovative and affordable solution with this lightweight, comfortable eyewear, plus a growing ecosystem of partners and hardware.

MODEL	Moverio BT-300 FPV (FPV/Drone Edition)	Moverio BT-350 (AR Edition)
Product Code	V11H756120	V11H837020
Binocular Display Resolution	720p (1280 x 720)	
Camera	Front-facing; high-resolution (1080p at 30 fps)	
Connectivity	Dual-band wireless connectivity; Bluetooth® Smart (BLE)	
Internal Memory	16GB	
Memory Card Support	Supports microSDHC cards up to 32GB*	Embedded 32GB microSD card
Platform	Touchpad control unit runs Android OS 5.1 and features an Intel® Atom chipset	
Weight	2.5 oz/69 g (glasses only)	4.2 oz/119 g (glasses only)
Battery	Rechargeable with up to 6 hours of battery life**	
Accessories Included	Dark lens shade, mounting clips for DJI™, remote	Flip shade, neck strap, soft storage bag

FEATURES

- **Built on an Android platform** — familiar and open development environment, plus access to the Moverio SDK with developer tools and resources
- **Ideal for computer programming students** — students can learn how to program Android and Unity applications to support a wearable display, versus traditional mobile devices
- **FPV Edition** — compatible with DJI GO and GO 4 App, providing drone enthusiasts with First-person View (FPV) piloting to maintain line-of-sight control
- **From the world leader in projection technology** — revolutionary Si-OLED micro-projection technology for superior transparency and amazing color and contrast
- **Integration with Dino-Lite® handheld digital microscopes** — connecting Moverio smart glasses to a Dino-Lite microscope allows students to view the output directly in their field of view

RECOMMENDED ACCESSORIES

- Quint Controller Dock for BT-350 (V12H882W02)

*SDHC card not included.

**Battery life may vary considerably depending on applications used, device settings (for example, wireless on or off, brightness setting), and temperature.
