Today’s rapidly changing educational landscape demands intelligent, easy-to-use technology that inspires new ways of thinking. At Epson, we have over 40 years of experience developing groundbreaking education tools to help engage students, promote collaboration and support faculty and administrators. From the classroom to the administrative office, our cost-effective and versatile Brighter Futures® solutions will help you shape your curriculum and drive the future of education at your institution.

**Designed for the Classroom and Beyond**
Enhance every student’s learning experience with dynamic, user-friendly imaging technology that invites participation and engages viewers in any environment, whether it’s a classroom, study space, lecture hall, lab, athletic facility or gymnasium. From advanced displays to projectors, printers to scanners, Epson’s comprehensive suite of education solutions will meet any need.

**Budget-Friendly Solutions**
We understand the strategic planning that goes into budget initiatives—that’s why our Brighter Futures program goes beyond special pricing. Our products deliver outstanding ROI, tremendous scalability and easy integration with existing infrastructures and systems to help institutions achieve a better bottom line. Find the latest pricing information online at [www.epson.com/edguide](http://www.epson.com/edguide)

**Reliability You Can Count On**
Our products are designed to work day in and day out to serve students, faculty, staff and guests at your institution. Offering decades of road-tested reliability, Epson® education solutions are backed by one of the world’s finest customer care programs, with service and support that go the extra mile.

Projectors and Displays

Whether you’re searching for state-of-the-art laser displays, networked classroom projectors or visual solutions for larger rooms and venues, Epson offers a comprehensive lineup of displays and projectors that is designed to connect students and teachers in ways never before imagined.

We understand that—just as no two students are alike—each classroom and learning environment offers a unique space for exploration and understanding. From interactive whiteboarding solutions that make collaborative, personalized learning a regular part of instruction to high-brightness, large venue products for well-lit spaces, Epson is education’s ideal choice for projection technology.

Display Size Makes a Difference in the Classroom

Now more than ever, display size is an essential feature for socially distanced learning spaces. A study shows that 55 percent of viewers cannot read content on a 70" display in an average-sized room. That’s why it’s important that a classroom display is large enough for every student to clearly see it in an average-sized classroom—and read what’s on it from anywhere in the room. For many classrooms, flat panel displays are simply too small to give students optimum readability. In contrast, Epson offers the flexibility to maximize readability for all students. To understand the connection between display size and viewing distance, and for help in making sure your display image size meets your goals, visit www.epson.com/displaysize

Visibility in different rooms and seating arrangements

For detailed information on why “Display Size Matters” for classrooms, including the 4x/6x/8x Rule, visit www.epson.com/classroomdisplaysize

1 Leading 70" class 4K resolution flat panel in a 22' (width) by 27' (depth) training room arrangement. Participants were seated 8' to 27' from the display. When asked to copy down six short items of information from slides being displayed, 55 percent of respondents ages 18+ copied at least one item incorrectly. Based on U.S. research conducted by Radius Research 2016.
Determining Optimal Display Sizes for Different Rooms

To optimize visibility, productivity and interaction, consider both room size and use.

<table>
<thead>
<tr>
<th>General Rule of Thumb</th>
</tr>
</thead>
<tbody>
<tr>
<td>Study Spaces/Seminar Rooms/Medium-Sized Rooms</td>
</tr>
<tr>
<td>Large Rooms</td>
</tr>
<tr>
<td>Lecture Halls</td>
</tr>
</tbody>
</table>

Study Spaces, Seminar Rooms and Medium-Sized Rooms

Use the Desktop Equivalent Visibility (DEV) method. The DEV method uses the OSHA standard that sizes monitors for individuals sitting at their desks and transfers this standard to the group meeting space. The key point is that the content being shared needs to migrate over from an individual’s viewing experience to a group’s active collaboration experience. Chart 1 provides recommended display sizes based on the DEV standard to optimize the environment for group collaboration.

Large Rooms

Use the 4x portion of the 4x/6x/8x Rule. A room of this size can probably accommodate 15 or more participants, which means it will typically be used for presentations/reviews (passive participation). Chart 2 shows acceptable display sizes based on four times (4x) the display height, as noted in the 4x/6x/8x Rule, which is the best standard to use for larger rooms. This enables analytical viewing and critical decision-making, as anticipated by 4x/6x/8x Rule recommendations.

Lecture Halls

Use the 6x portion of the 4x/6x/8x Rule. Lecture halls feature visual displays that are used to share materials developed specifically for large audiences. The ideal viewing in this space, per the 4x/6x/8x Rule, is six times (6x) the display height, which applies to basic viewing/decision-making. Chart 3 illustrates the applicability of different display sizes in lecture halls at the 6x height parameter.

For more information, visit www.epson.com/displaysize
Epson Technology Advantages

Epson 3-chip, 3LCD technology delivers high color brightness, uncompromising image quality and road-tested reliability, making our visual solutions an ideal fit for any learning space. Plus, they offer large, easy-to-see images and the latest in connectivity and support for Chromebooks, tablets and smartphones.¹

Wirelessly share content from multiple devices, including Chromebooks

Designed for today’s BYOD and 1:1 classrooms, Epson iProjection™ is a robust wireless solution offering true multi-platform support for Chromebooks, PCs and Mac® computers, as well as iOS® and Android™ devices. Students and teachers alike can wirelessly display documents, images, webpages and more from their devices for the entire classroom to see on the big screen. Advanced functionality includes two-way content sharing—available with select Epson models—annotation, real-time mobile camera display and more.

Plus, Epson iProjection’s built-in Moderator feature—available for both mobile devices and computers—allows teachers to connect up to 50 devices, then manage and display content from up to four students at a time. It’s the perfect tool for sharing a variety of content at once, or for comparing students’ work side by side.

And Epson iProjection for Chromebook™ makes it easy for students to wirelessly share their Chromebook screens with the rest of the class. With full mirroring capabilities, the app allows students to display content from Google Docs™, Google Slides™ and Google Sheets™, as well as Web content from their Google Chrome™ browser (audio support not available for mirroring).

Find out more, including device compatibility, at www.epson.com/projectorapp

¹ For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details.

² Moderator control, connecting via QR code and projector remote are not available on Epson iProjection for Chromebooks.
Virtually maintenance-free laser light source

As a world leader in digital 3LCD projection solutions, Epson continues to drive the future of classroom and projection technology with its full suite of laser displays and projectors. Featuring lamp-free, long-life, laser light engines, Epson laser solutions achieve new levels of performance.

Why choose laser?

- **Breakthrough laser technology** — long-life laser light engine provides a 20,000-hour virtually maintenance-free light source

- **Outstanding color performance** — advanced 3LCD technology consistently delivers exceptional, true-to-life color and amazing brightness you can count on for an array of applications

- **Instant Off®/On** — displays and projectors reach maximum brightness and turn off almost immediately without having to warm up or cool down

- **Engineered for reliable operation** — ideal for applications requiring continuous projection

Large Venue Projectors

Designed for exceptional performance, Epson Pro Series large venue installation projectors are powerful solutions for virtually all large spaces, including auditoriums, lecture halls, event centers, cafeterias, stadiums and more. These large venue laser projectors feature high lumens for bright, colorful images and utilize advanced display technologies to create immersive experiences that will captivate any audience.

Visit [www.epson.com/largevenue](http://www.epson.com/largevenue) for more information and to compare models.

Why choose Epson for your large venue projection needs?

- **3-chip, 3LCD technology** — for high color brightness
- **Industry-leading service and support** — 3-year limited warranty
- **Epson 4K Enhancement Technology** — a revolutionary technology that enhances the native resolution, for output that surpasses Full HD image quality; also accepts a 4K signal
- **Wide selection of powered lenses with lens memory** — including zero- and negative-offset 0.35 ultra short throw lenses for shallow spaces
- **Diverse connectivity options** — including 3G-SDI, HDBaseT®, HDMI®, DVI-D and wireless
- **Emulation Mode** — saves time and money when replacing other manufacturers’ projectors
- **Compatible with leading control systems** — such as Crestron®, AMX®, Extron® XTP® and DMX/Art-Net®

* Specifications vary by model.
** Lens compatibility varies by model. See page 13 for details.

1 Actual hours may vary depending on mode and usage environment. For the EB-PU Series, 20,000 hours is the estimated life when the projector is used in Normal Mode in an ordinary environment. The projector has a standard 3-year limited warranty. For BrightLink®, PowerLite® 200S and PowerLite 720/750/800 Series ultra short throw projectors, no required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m³ of particulate matter. Time varies depending on usage conditions and environment. These projectors have a standard 3-year limited warranty. For the PowerLite L200/L400/L600 Series, no required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m³ of particulate matter. Time varies depending on usage conditions and environment. The projector has a standard 3-year limited warranty.

2 4K Enhancement Technology shifts each pixel to surpass Full HD resolution on screen.

3 Emulation Mode is limited to certain code sets and may not support all codes. Contact Epson Support for the latest supported sets.

4 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.
Delivering up to 20,000 lumens¹ and extraordinary brightness and performance, the EB-PU2100/2200 Series offers lightweight, space-saving, large venue installation laser projectors that feature native Full HD WUXGA* with Epson 4K Enhancement Technology².*

### Features
- **Wide selection of powered lenses with lens memory** — including a negative-offset 0.35 ultra short throw lens for shallow spaces***
- **Epson 4K Enhancement Technology².*** — a revolutionary technology that enhances the native resolution, for output that surpasses Full HD image quality; also accepts a 4K signal
- **Versatile connectivity** — supports the full range of inputs, including HDBaseT, HDMI and 3G-SDI* for easy integration with any system
- **Optional attachable PixAlign camera** — provides access to powerful features, including projector stacking assist¹ function, tiling assist¹ for edge blends, color calibration¹¹ and screen matching¹¹

# EB-PU1000/2000 Series

## Large Venue Projectors

Epson’s most compact interchangeable-lens laser projectors, offering 6,000 – 10,000 lumens\(^1\), the EB-PU1000/2000 Series is compatible with a wide selection of optional lenses for extraordinary installation flexibility*. Models include revolutionary Epson 4K Enhancement Technology\(^2\)**, for output that surpasses Full HD. The EB-PU2010 is the world’s lightest and smallest 10,000-lumen projector\(^4\).

### Features

- **Installation made easy** — interchangeable-lens options, powered lens shift, HDBaseT inputs, 360-degree installation
- **Optional attachable PixAlign camera** — provides access to powerful features, including projector stacking assist\(^1\) function, tiling assist\(^1\) for edge blends, color calibration\(^2\)\(^2\) and screen matching\(^2\)\(^2\)
- **Epson 4K Enhancement Technology\(^2\)** — a revolutionary technology that enhances the native resolution, for output that surpasses Full HD image quality; also accepts a 4K signal
- **Wide selection of powered lenses with lens memory** — including a zero-offset 0.35 ultra short throw lens for shallow spaces\(^*\)
- **Web-based remote management** — control and monitor projector status via a Web browser
- **Industry-leading service and support** — 3-year limited warranty plus free Next-Business-Day Replacement\(^6\) with postage-paid returns

### Connectivity

1. Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

2. 4K Enhancement Technology shifts each pixel to surpass Full HD resolution on screen.

3. No required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m\(^2\) of particulate matter. Time varies depending on usage conditions and environment. Replacement of parts other than the light source may be required in a shorter period.

4. Comparison based on projectors rated at 10,000 lumens. Lumens, size and weight based on the manufacturers’ online specifications and industry-available data as of February, 2021.
Optional Ultra Short Throw Lenses

Project supersized images using Epson’s ultra short throw lenses. Install the projector just inches from the screen or wall and get huge, bright, crisp projection. Featuring a 0.35 throw ratio and zero offset, the ELPLX01S and ELPLX02S are ideal for installation in narrow or tight spaces. And a wide lens shift gives you even more flexibility when you need it. Both lenses are available in black or white.
Epson offers an array of projector lenses to fit all types of applications and requirements.

† Not compatible with EB-PU2100 and 2200 Series projectors.
Interactive Display Solutions

Epson’s BrightLink collaborative display solutions connect people, technology and ideas into one seamless digital experience, facilitating better communication by turning any flat surface into an interactive area. BrightLink is the perfect display solution for classrooms, study spaces, administrative offices and more. Built for today’s learning environments, these displays offer whiteboard sharing for local, on-campus collaboration as well as engagement with remote participants anywhere in the world. Epson also offers high-performance, network-ready BrightLink Series interactive displays, available in laser models. The budget-friendly BrightLink offers the lowest-cost image per square inch vs. interactive flat panel displays*. Designed for classrooms, seminar rooms, study spaces and more, these displays provide a fully integrated system that eliminates the need for a dedicated electronic whiteboard. Turn existing dry-erase whiteboards, plain walls and tables into interactive display areas measuring from 60" up to 100" with no extra cost. For more information, visit www.epson.com/brightlink

BrightLink displays also include a free trial offer for BrightLink GoBoard™ Collaborative Whiteboarding Software. With BrightLink GoBoard, students can actively participate—both remotely and in the classroom—as they collaborate on a shared interactive space. BrightLink GoBoard works alongside popular video communication tools, such as Google Meet™, Zoom and Microsoft Teams®, and supports a variety of file types, including Microsoft® Office documents, PDFs, photos, videos and SMART Notebook® files. Additionally, BrightLink GoBoard allows users to display fully mirrored content from up to four devices simultaneously—including Windows® PCs, Chromebooks, and iOS and Android devices—making it easier than ever for participants to share their work. For more information, visit www.epson.com/goboard

---

* Versus comparable interactive flat panel displays measuring 65-inches and above. PMA Research data for 2021 4Q, North America.
** Standard limited warranty is 3 years for laser models and 2 years for lamp models. Brighter Futures pricing includes 2-year limited warranty extension for laser models and 1-year for lamp models.
*** NBD = Next Business Day.
**** Pixel-shifting technology achieves Full HD resolution on screen.
***** Specifications vary by model.
****** Expedited shipping not available in all areas. Orders must be placed and processed by 1 p.m. Pacific Time for Next-Business-Day delivery. See limited warranty or service plan for details.
# BrightLink Series

## Interactive Displays

With images up to 120”, these flexible displays breathe new life into ordinary walls and dry-erase boards, eliminating the need for dedicated electronic boards or space-consuming flat panels.

Bright, dynamic and easy to use, BrightLink interactive displays are designed to maximize student collaboration and engagement. Instructors can share presentations—or students’ work—from laptops, notebooks, tablets, and iOS and Android mobile devices¹.

### Features

- **Fully integrated, pen- and finger-based interactivity** — turns almost any existing dry-erase board or plain wall into an interactive workspace (finger-based interactivity available on select models)
- **Easy content sharing with Epson iProjection¹** — share images between the big screen and wirelessly connected mobile devices for individualized learning
- **Brilliant image quality up to 1080p HD** — with up to 5,000 lumens of color brightness and 5,000 lumens of white brightness³
- **Wireless support** — display Chromebook, iOS, Android, Mac and PC screens¹

- 16:10 V12H831000
- Interactive Pen (Orange) V12H773010
- Interactive Pen (Blue) V12H774010

### Connectivity

Product shown is BrightLink 1485Fi. Visit [www.epson.com/support](http://www.epson.com/support) to see the connectivity options for all models listed.

---

¹For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson Projection App does not support all files and formats. See www.epson.com for details.

²Actual hours may vary depending on mode and usage environment. 20,000 hours is the estimated life when the projector is used in Normal Mode in an ordinary environment. 30,000 hours is the estimated life when the projector is used in ECO Mode in a normal environment. The projectors have a 3-year limited warranty. No required maintenance for the light source for up to 20,000/30,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m³ of particulate matter.

³Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

⁴Moderator control, connecting via QR code and projector remote are not available on Epson iProjection for Chromebooks.
PowerLite 600/700/800 Series

Ultra Short Throw Displays

These bright, versatile displays feature built-in ultra short throw lenses for images up to 160” (diagonal) from as little as 14” away, with minimal shadows and glare. The lamp-based PowerLite 600 Series and laser-based 700/800 Series feature advanced wireless capabilities and connectivity, including laptop, notebook, tablet and mobile device support.¹

---

**Features**

- **Manage your display and send announcements remotely** — easy network connectivity; software included
- **Wireless support** — display Chromebook, iOS, Android, Mac and PC screens²
- **Up to three HDMI ports** — supports high-definition A/V devices, including the latest laptops and Blu-ray Disc™ and media players
- **Long-life displays** — lamp-based models last up to 10,000 hours in ECO Mode³; laser models offer up to 30,000 hours of light source⁴ life

---

**Recommended Accessories**

- Extreme Short Throw Mount V12HB12010 (ELPMB75) (for PowerLite 810E)
- Ultra Short Throw Wall Mount V12HA06A05
- PowerLite Pilot™ 3 V12H27020
- Wireless LAN Module V12H005A02 (ELPAP11)

See pages 27–29 for product codes and more information.

---

**Connectivity**

- Crestron, AMX, Extron, Control4, PJLink

---

¹ For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details.

² Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

³ 4K Enhancement Technology shifts each pixel to surpass Full HD resolution on screen.
Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.

Actual hours may vary depending on mode and usage environment. 20,000 hours is the estimated life when the projector is used in Normal Mode in an ordinary environment. 30,000 hours is the estimated life when the projector is used in ECO Mode in a normal environment. The projectors have a 3-year limited warranty. No required maintenance for the light source for up to 20,000/30,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m³ of particulate matter.

Moderator control, connecting via QR code and projector remote are not available on Epson iProjection for Chromebooks.
PowerLite 2250U

Projector for Large Rooms and Rooms with High Ambient Light

The portable PowerLite 2250U brings stunning, high-definition images to medium- and large-sized classrooms and lecture spaces. It offers easy installation and optional enterprise-level wireless networking, along with optional Miracast for screen mirroring from mobile devices.

Features

- **Extraordinary versatility** — small enough for moving from room to room; features a full array of connectivity options, including 2x HDMI, MHL®, VGA, RJ-45 and more
- **Robust networking with optional wireless** — enterprise-level security for peace of mind; compatible with WPA, WPA2-PSK and WPA2-EAP security protocols
- **Simultaneously display and control multiple device screens** — wirelessly share content from up to four devices with Epson iProjection’s built-in Moderator feature
- **Easy wireless content sharing** — share images between the screen and wirelessly connected laptops, notebooks, tablets and iOS and Android devices

Recommended Accessories

- Universal Projector Mount Kit V12H808001 (ELPMBPJG)
- Wireless LAN Module V12H00SA02 (ELPAP11)
- Replacement Air Filter for PowerLite 2250U V13H134A41 (ELPAF41)

Connectivity

Product shown is PowerLite 2250U. Visit www.epson.com/support to see the connectivity options for all models listed.

**MODEL** | **PowerLite 2250U**
--- | ---
Product Code | V11H871020

Light Source Life (Normal/ECO Hours)4 | Up to 5,000/10,000
Built-In Speaker | 16 W
Epson iProjection Suite5 (Moderator®, Multi-PC, Device Management) | Yes
Wired Connectivity | RJ-45 (Content over IP)
Compatible Control Systems | Crestron, AMX, Extron, Control4

Epson iProjection Suite includes Moderator, Multi-PC, and Device Management.

**NOTE**

1The projector supports direct peer-to-peer wireless casting of local content from Miracast-enabled devices or via the Epson iProjection app. For best performance when using Epson iProjection, it is recommended that the projector and connected devices be configured on a network, either through the Ethernet port on the projector or via a wireless connection. The Epson iProjection app does not support all files and formats. See www.epson.com/iProjection for details.

2Color brightness (color light output) and white brightness (white light output) will vary depending upon usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

3Full HD WUXGA (1920 x 1200), SXGA+ (1400 x 1050), WXGA (1280 x 800), XGA (1024 x 768), SVGA (800 x 600).

4Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.

5For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details.
PowerLite L-Series

Laser Projectors for Large Rooms and Rooms with High Ambient Light

Featuring a lamp-free, virtually maintenance-free laser light source for up to 20,000 hours. Ideal for medium- and large-sized classrooms and training halls, all models feature HDBaseT for easy installation. Enterprise-level wireless security is also available on select models, or by purchasing an optional wireless LAN module.

**Connectivity**

- **Breakthrough laser technology** — features a laser light source of up to 30,000 hours, plus Instant Off/On
- **4.6 million pixels on screen** — WUXGA with 4K Enhancement Technology provides a visibly smoother and sharper display, even at close viewing distances; accepts 4K content
- **Short throw projection option** — 6,000-lumen projector models with 0.8:1 throw ratio for added installation flexibility
- **Wireless networking with enterprise-level security** — plus wireless content sharing with Epson iProjection; available on select models or with optional LAN module where indicated

**Recommended Accessories**

- Universal Projector Kit V12H908001 (ELPMBPJG)
- Wireless LAN Module V12H005A02 (ELPAP11)
- Replacement Air Filter V13H134A56 (ELPAF56)
- PixAlign Camera (ELPEC01) — available on L570U, L770U and L775U models only.

See pages 27–29 for product codes and more information.

**Features**

- Breakthrough laser technology
- 4.6 million pixels on screen
- Short throw projection option
- Wireless networking with enterprise-level security

**Epson Preferred Plus Extended Service Plans**

We offer a variety of plans to:
- Maximize uptime
- Ensure predictable costs
- Provide peace of mind

See page 51 for product codes and more information.

---

6 Moderator control, connecting via QR code and projector remote are not available on Epson iProjection for Chromebooks.
7 Includes one Mobile High-Definition Link® (MHL) HDMI port.
8 Actual hours may vary depending on mode and usage environment. For the PowerLite 500/600/700 Series, no required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m³ of particulate matter. Time varies depending on usage conditions and environment. The projector has a standard 3-year limited warranty.
9 4K Enhancement Technology shifts each pixel to surpass Full HD resolution on screen.

---

See individual service plan for details. Other plans may be available. Check with your reseller for more information.
PowerLite 900 Series

Advanced Networking Classroom Projectors with 1.6x Optical Zoom

These advanced standard throw projectors include 1.6x optical zoom lenses for flexible placement, plus premium audio and networking features. They also include two HDMI inputs to support multiple high-definition A/V devices and a microphone input.

### Features

- **Premium quality and installation flexibility** — up to Full HD WUXGA resolution and up to 1.6x optical zoom for great images, wherever you choose to install the projector
- **Manage projectors and send announcements remotely** — easy network connectivity; software included
- **Simultaneously display and control multiple device screens** — wirelessly share content from up to four devices with Epson iProjection’s built-in Moderator feature
- **Wireless support** — display Chromebook, iOS, Android, Mac and PC screens

### Recommended Accessories

### Connectivity

See page 51 for product codes and more information.

For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details.

Moderator control, connecting via QR code and projector remote are not available on Epson iProjection for Chromebooks.

Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.

3For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details.

5Moderator control, connecting via QR code and projector remote are not available on Epson iProjection for Chromebooks.

PowerLite L200 and L260 Series

Standard Throw Lamp-Free Laser Projectors

Laser focused on education and offering an eye-catching display size up to 16 times larger than a 75” flat panel, these innovative laser displays make it easy to share bright, easy-to-read images that keep students engaged from nearly anywhere in the room.

**Features**

- **Low maintenance** — virtually maintenance-free 20,000-hour laser light source\(^3\) with no lamps to replace

- **Built-in 5 GHz wireless** — supports Miracast and wireless displays via Epson iProjection software to connect, display and share content simultaneously from up to 50 connected devices\(^4\)

- **Versatile display** — widescreen aspect ratio up to 16:6 and large image size up to 310” diagonal on select models, with split screen\(^6\) capability for side-by-side viewing

**Recommended Accessories**

- Ceiling Mount (ELPMB60W)
- Document Cameras:

1Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

2Full HD WUXGA (1920 x 1200), SXGA+ (1400 x 1050), WXGA (1280 x 800), XGA (1024 x 768), SVGA (800 x 600).
PowerLite 210S Series

Short Throw Projectors

These bright, budget-friendly projectors feature built-in short throw lenses for images up to 116” from as little as 4’ away with reduced glare and shadows. Offering affordable, long-lasting lamps or a virtually maintenance-free 20,000-hour laser light source, the PowerLite 210S Series helps deliver a low total cost of ownership.

Features

• Large, engaging presentations, even in small spaces — short throw distance saves space; project a 116” image from just 4’ away with minimal shadows and glare
• Flexible placement — install using a wall mount (optional), or place on a tabletop or cart
• Wireless support — display Chromebook, iOS, Android, Mac and PC screens
• Manage your display and send announcements remotely — easy network connectivity; software included

Recommended Accessories

• Short Throw Wall Mount V12HA39010 (ELPMB64)
• PowerLite Pilot 3 Connection and Control Box V12H927020
• Wireless LAN Module V12H005A02 (ELPAP11)
• Ceiling Mount (ELPMB60W)

See pages 27–29 for product codes and more information.

3 Actual hours may vary depending on mode and usage environment. 20,000 hours is the estimated life when the projector is used in Normal Mode in an ordinary environment. 30,000 hours is the estimated life when the projector is used in ECO Mode in a normal environment. The projectors have a 3-year limited warranty. No required maintenance for the light source for up to 20,000/30,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m³ of particulate matter.

4 For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details.

5 Moderator control, connecting via QR code and projector remote are not available on Epson iProjection for Chromebooks.

PowerLite E, X and W Series

Budget-Friendly Classroom Projectors

These budget-friendly classroom projectors include built-in tools for quick and simple setup. With built-in Moderator functionality, instructors can simultaneously display and control screens from up to four devices. Specifications vary by model.

Projector and Display Accessories

Connectivity

**Wireless LAN Module | V12H005A02 (ELPAP11)**

This high-speed, wireless network adapter plugs directly into select Epson projectors and displays, allowing quick and easy access to the LAN or peer-to-peer networks without wires or cables. When used with Epson Projector Management Software, Network Projection and Multi-PC Projection Software, it allows users to remotely access and control projectors over the wireless LAN.

- Compliant with 802.11 b/g/n standards
- Compatible with PC or Mac
- Uses USB Type-A connector
- Able to transmit audio

---

**Sound Enhancement**

**Active Speakers | V12H467020 (ELPSP02)**

Enhance the learning experience with 30 W of rich, powerful sound. This active speaker set (with built-in amplifiers) lets students clearly hear lessons. The ELPSP02 speakers can be easily mounted on the wall and used with any Epson projector or display, with or without the PowerLite Pilot.

---

**Audio/Visual Control Systems**

**PixiePlus | ELPSP10**

Featuring a sleek, space-saving design, PixiePlus is an affordable, easy-to-use projector control system designed for in-wall installation.

- Easy installation — installs in any standard wall box
- Save both money and energy — automatic projector shutdown timer feature

**PowerLite Pilot 3 Connection and Control Box | V12H927020 (ELPCB03)**

Maximize cable management and control for your classroom projector with the PowerLite Pilot 3, a convenient wall-mounted A/V connection and control box for Epson short throw and ultra short throw projectors. Designed to support an array of devices, the PowerLite Pilot 3 streamlines source switching and volume control. With three HDMI control buttons (including one MHL4), you can select from a variety of connected classroom devices—and even display two sources side-by-side onscreen at once using your projector's Split Screen feature5. You can also use it as an extension box to expand the range of your cables and increase flexibility.

---

**Whiteboards**

**100” Whiteboard for Projection and Dry-Erase (16:10) | V12H831000**

A combined projection and dry-erase surface, this 100” whiteboard is the ultimate projection partner for classrooms. Ideal for use with your widescreen WXGA projector.

**100” Whiteboard for Projection and Dry Erase (16:9) | V12H006A02**

This 100” 16:9 whiteboard features a low-gloss surface for superior erasability while minimizing glare. Designed for use with BrightLink 1080p/16:9 interactive projectors, this whiteboard features an extra 3” space at the top for quick and easy mounting of the BrightLink Touch Module.

---

1 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.
2 Full HD WXGA (1920 x 1200), SXGA+ (1400 x 1050), WXGA (1280 x 800), XGA (1024 x 768), SVGA (800 x 600).
3 No required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m² of particulate matter. Time varies depending on usage conditions and environment. Replacement of parts other than the light source may be required in a shorter period.
4 Includes one Mobile High-Definition Link (MHL) HDMI port.
5 Split Screen feature requires remote control. Consult your user manual for input combinations.
Interactive Pens

**Replacement Pens** | Orange V12H773010 (ELPPN05A) / Blue V12H774010 (ELPPN05B)

These two pens offer interactive drawing and mouse capabilities and simultaneous operation with BrightLink 600 and 700 Series interactive displays. Powered by a single AA battery, the pens include a convenient on/off power button with Sleep Mode to prolong battery life.

Mounting Accessories

**Ultra Short Throw Wall Mount** | V12HA06A05 (ELPMB62)

Designed exclusively for use with Epson’s PowerLite 600/700/1480 Series ultra short throw displays, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation for displays ranging from 53” to 100”, while the vertical and horizontal adjustments provide easy image alignment. And, when your ultra short throw display is attached to the wall mount, there is less shadow interference and glare, which ensures a more optimal presentation and viewing experience.

**Ceiling Mount** | V12H963210 (ELPMB60W) / V12H963110 (ELPMB60B)

Easily project high-quality images from ceilings with the ELPMB60 Ceiling Mount. Designed with durability in mind, this state-of-the-art mount provides optimal stability for ceiling and wall-mounted applications. The sleek mount integrates into a variety of settings and features a rotating ball joint, plus image tilt\(^1\), for convenient projection onto whiteboards, screens and more.

**Lighting Track Mount** | V12H964220 (ELPMB61W) / V12H964120 (ELPMB61B)

Control the distance and orientation of your projector displays with the sleek ELPMB61 Lighting Track Mount. Designed with ease of use in mind, the ELPMB61 Lighting Track Mount quickly and efficiently connects Epson projectors to compatible lighting tracks\(^2\) for hassle-free integration and enhanced mobility. Featuring a ball joint for 360-degree horizontal and 90-degree vertical movement, plus image tilt\(^1\), this mount is a convenient, flexible solution for projecting onto screens, walls and more.

**Adjustable Ceiling Mount** | V12HA54010 (ELPMB67)

Simplify projector installations with the versatile ELPMB67 projector ceiling mount. Designed with flexibility in mind, this convenient ceiling mount easily supports a variety of projector adjustments—including vertical, horizontal and rotational tilt—to accommodate a range of applications.

**Suspension Adapter for Epson Adjustable Ceiling Mount** | V12HA55010 (ELPFP15)

Install projectors in high-ceiling spaces with the ELPFP15 suspension adapter. Designed for use with the ELPMB67 ceiling mount, this convenient suspension adapter features an adjustable pole length up to 8.7” (220 mm) and a durable mounting plate for added ease of use.

**Adapter Plate for SMART UF55/65/70/75 Series Mount** | V12H870001

A cost-effective solution for extending the life of previous interactive investments, this easy-to-install bracket enables a quick retrofit solution for SMART Board\(^\text{®}\) interactive systems using select Epson projectors.

**Universal Projector Kit** | V12H808001 (ELPMBPJG)

Includes a Universal Projector Mount, 3” (76 mm) Fixed Extension Column and Speed-Connect Ceiling Plate.

---

1 +/− 30 degrees on select models.
2 Track not included.
Custom Micro-Adjustable Projector Mount  |  V12H809001 (ELPMBPRH)
Makes image registration fast and precise. Fits a variety of Epson projector patterns.

Speed-Connect Above-Tile Suspended Ceiling Kit  |  V12H804001 (ELPMBP04)
Provides a host of features that support a fast, secure installation of most lightweight, front-projection models.

Suspended Ceiling Tile Replacement Kit  |  V12H805001 (ELPMBP05)
Designed to replace one 2’ x 2’ ceiling tile or sit above a suspended ceiling.

Speed-Connect Suspended Ceiling Tile Replacement Kit  |  V12H806001 (ELPMBP06)
Provides features that ensure a fast, secure installation of most lightweight, front-projection models.

9” – 12” Adjustable Extension Column  |  V12H810001 (ELPMBC02)
Saves installation time and maximizes security.

6” Fixed Extension Column  |  V12H811001 (ELPMBC03)
Lowers projectors to the desired height.

3” Fixed Extension Column  |  V12H812001 (ELPMBC04)
Lowers projectors to the desired height.

Replacement Lamps

For as low as $65
Epson offers user-replaceable lamps for our education customers. Designed to last, these lamps support a low overall total cost of ownership with your Epson projector.

Bring color printing back to school with Epson printers and all-in-ones. Ideal for educators, administrators and students alike, this innovative lineup—including our groundbreaking Supertank printers and WorkForce® Pro HC printers—makes color printing affordable again.
Epson’s line of WorkForce and WorkForce Pro Supertank printers features revolutionary ink replacement technology. They offer an outstanding combination of value and convenience with super-high-capacity ink bottles and packs. These printers come with 2 years of ink guaranteed. Print thousands of black and color pages before replacing ink.

These incredible printers are engineered to provide convenience, savings, quality and reliability. Supertank printers offer the freedom to print in color, with less impact on your supplies budget—plus, you’ll save up to 90 percent on ink with low-cost replacement ink bottles vs. ink cartridges (ST-C2100 and ST-C4100 only). They’re the ideal choice for high-volume, high-quality, hassle-free printing.

### Features

- **Supertank monochrome MFPs** — come with up to 2 years of ink guaranteed.
- **Save up to 90 percent with low-cost replacement ink bottles vs. ink cartridges** — features easy-to-fill, supersized ink tanks (ST-C2100 and ST-C4100 only).
- **Chromebook printing right out of the box** — no additional software is required.
- **Ultimate wireless solution, plus Ethernet** — easy iPad®, iPhone®, Android, tablet and smartphone printing; includes Wi-Fi Direct® for network-free printing.
- **Epson Solutions Suite Ready**

* NBD = Next Business Day, WUE = Whole Unit Exchange, RFR = Return for Repair.
1. Black and color print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed.
2. Expedited shipping not available in all areas. Orders must be placed and processed by 1 p.m. Pacific Time for Next-Business-Day delivery. See limited warranty or service plan for details.
3. Limitations apply. Promo valid for ST-C2100, ST-C4100, ST-M1000, ST-M3000, ST-C8000, ST-C8090 and WF-M5799 Supertank (C11CG04201-LB) printers through authorized Epson resellers only from 04/01/23 to 03/31/24. Product must be registered before 04/30/24. Limit 2 additional bottles of 532 inks or M02XL120 packs per printer. Limit one bottle per claim. Based on average monthly document print volumes of about 150 pages (ST-C2100), 200 pages (ST-C4100), 300 pages (ST-M1000/ST-M3000/ST-C8000/ST-C8090) and 750 pages (WF-M5799 Supertank). Promo applies to ink only. Printer covered by Epson 2-year limited warranty. For promo participation, you must register your product.
4. Actual savings and costs will vary considerably based on print tasks, print volumes and usage conditions. Savings and cost per ISO page are based on the cost of replacement ink bottles and the cost of enough standard cartridges to achieve the total page yields of the bottles using the MSRP (USD) and yields for Epson standard-capacity ink cartridges for similarly featured Epson consumer inkjet printers as of May 2022.
5. With optional paper trays. Number of optional trays varies by model.
6. Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect enabled printers and compatible devices and apps, visit www.epson.com/connect.

WorkForce and WorkForce Pro Series

Classroom and Workgroup Printers

Classrooms evolving toward 1:1 learning and mobile device usage are on the rise. Epson printers have evolved, too, with a full portfolio of desktop and mobile printers that come equipped with wireless connectivity and mobile device printing.

Ideal for fast, high-volume, low-cost printing, Epson WorkForce and WorkForce Pro printers offer heavy-duty, reliable performance, plus easy, cost-effective print management for your entire education network.

### Features

- **Performance you can count on** — amazing quality, fast speeds and exceptional reliability to meet your classroom printing needs
- **Chromebook printing right out of the box** — no additional software is required
- **Ultimate wireless solution** — easy iPad, iPhone, Android, tablet and smartphone printing; includes Wi-Fi Direct for network-free printing

### Extended Service Plans

- **Upgrade to NBD**:
  - (1 Yr. Stackable) EPDSK1CU, EPDSK1KA
  - (Yr. Stackable) EPDSK1KC, EPDSK1KD
- **RFR Extension**:
  - (Yr. Stackable) EPDSK1CR

---

### Features

- **Print on the go** — lightweight, small printer for out-of-town teachers’ conferences or class field trips (EC-C110 only)
- **Epson Solutions Suite Ready**

---

### Epson Preferred Plus Extended Service Plans

We offer a variety of plans to:

- Maximize uptime
- Ensure predictable costs
- Provide peace of mind

See back cover for product codes and more information.
## Features

- **Low total cost of ownership** — save up to 25 percent on low-cost replacement ink packs vs. color laser toner (WF-C5390, WF-C5890)\(^4\)
- **Versatile paper handling** — auto 2-sided printing with multiple trays for uninterrupted printing with different paper types
- **PaperCut® ready (WF-C5890 only)** — customizable print management option; manage and track prints from the touchscreen via user login or ID card
- **Security features** — PIN number certification for job release; user control access, printer and network settings via Web Config with printer's IP address; SSL/TLS security; IPsec

### Epson Solutions Suite Ready

- Workforce Pro WF-C879R
  - Optional Manual Stapler (C12C934361)
  - Staple Cartridge (C12C934911)

What Is the Replaceable Ink Pack System (RIPS)?

WorkForce Pro printers, featuring Epson’s Replaceable Ink Pack System, use high-capacity ink packs to help reduce total operating costs, providing amazingly affordable, low-cost printing plus versatile media handling for budget-minded schools.

The replacement ink packs for the WF-C529R and WF-C579R deliver enough ink to print up to 50,000 ISO pages black/20,000 color**—equivalent to about 100 reams of paper.

---

*Designed for use exclusively with Epson ink packs.

**Replacement cartridge and ink pack yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer/all-in-one maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges or packs is used for printer startup and a variable amount of ink remains in the cartridges or packs after the “replace cartridge” or “replace ink pack” signal. For more information, see www.epson.com/inkinfo

***Touchscreen not available for WF-C529R.

****Epson Print Serverless is only available for WF-C879R.

1 With optional paper tray(s). Number of optional trays varies by model.

2 Wi-Fi CERTIFIED; level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software.

3 Not all media types are supported for PCL printing.

4 Most features require an internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect enabled printers and compatible devices and apps, visit www.epson.com/connect
WorkForce Enterprise

Departmental Multifunction Printers

The WorkForce Enterprise AM Series features three multifunction color printer models designed to offer reliability, fast printing, intuitive operation and impressive image quality—all in a compact, space-saving design. Boasting the lowest power consumption in their respective classes\(^1\)\(^-\)\(^3\), the WorkForce Enterprise AM-C4000, WorkForce Enterprise AM-C5000 and WorkForce Enterprise AM-C6000 are engineered for efficiency, helping administrators and educators maximize their productivity, so they can take on virtually any task with confidence.

*This product uses only genuine Epson-brand cartridges or ink packs (ink delivery varies by model). Other brands of ink supplies are not compatible and, even if described as compatible, may not function properly or at all.

**Cartridge yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer startup and a variable amount of ink remains in the cartridges after the “replace cartridge” signal. For details, visit www.epson.com/inkinfo

\(^1\)Black and color print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed

\(^3\)AM-C4000 as compared to similarly featured A3 color laser printers and copiers at 31–40 ppm based on manufacturers’ specifications and industry available data as of March 2022. Actual power savings will vary by product model and usage.

\(^4\)AM-C5000 as compared to similarly featured A3 color laser printers and copiers at 41–50 ppm based on manufacturers’ specifications and industry available data as of March 2022. Actual power savings will vary by product model and usage.

This intuitive 10.1" interface makes it easy to do more—print, copy, scan—with just a touch.
Ultra High-Speed Multifunction Network Printers

Epson’s flagship multifunction network printers speed through prints at up to 100 ISO ppm† (WF-C21000/WF-M21000), the fastest in their respective classes10,11. Powered by PrecisionCore Heat-Free technology, they deliver brilliant-quality output. Powerful but efficient printers, they feature the lowest power consumption in their class12 to keep operating costs in check, and can be installed with any 110 V outlet.

**Features**

- **Breakthrough print speed** — 100 ISO ppm† on the WF-C21000, the fastest in its class10
- **Quality without compromise** — advanced PrecisionCore Heat-Free technology and a stationary linehead deliver both speed and professional-quality output
- **Solution-ready** — customizable print management option; manage and track prints from the touchscreen via user login or ID card; available solutions sold separately
  - **Epson Solutions Suite**: Epson Print Admin, Epson Print Admin Serverless
  - **Partner solutions**: Kofax Equitrac, Kofax eCopy, PaperCut, MyQ and YSoft
- **Conserve energy** — lowest power consumption in their class12; work with any 110 V outlet

**Recommended Accessories**

- High-Capacity Input Tray (C12C933331)
- Paper Cassette Lock (C12C933231)
- Professional Staple Finisher (C12C935031BU)
- Professional Booklet Finisher (C12C935061BU)
- Compact Staple Finisher (C12C937931)

**Mobile Device/Chromebook Printing**

3 AM-C6000 as compared to similarly featured A3 color laser printers and copiers at 51–60 ppm based on manufacturers’ specifications and industry available data as of March 2022. Actual power savings will vary by product model and usage.

4 With optional paper tray(s). Number of optional trays varies by model.

5 Wi-Fi CERTIFIED; level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software.

6 Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect enabled printers and compatible devices and apps, visit www.epson.com/connect.

7 For AM-C4000, floor space defined as width x depth of main unit base, compared to similarly featured A3 color laser printers and copiers at 31–40 ppm based on manufacturers’ specifications and industry available data as of March 2022.

8 For AM-C5000, floor space defined as width x depth of main unit base, compared to similarly featured A3 color laser printers and copiers at 41–50 ppm based on manufacturers’ specifications and industry available data as of March 2022.

9 For AM-C6000, floor space defined as width x depth of main unit base, compared to similarly featured A3 color laser printers and copiers at 51–60 ppm based on manufacturers’ specifications and industry available data as of March 2022.

10 Compared to similarly featured A3 color laser printers and copiers at 45 ppm or higher based on industry available data as of October 2021. Actual print times will vary based on system configuration, software and page complexity. For more information, visit www.epson.com/printspeed.

11 WF-M21000 as compared to similarly featured A3 mono MFPs and copiers at 70 ppm or higher based on industry available data as of June 2022. Actual print times will vary based on system configuration, software and page complexity. For more information, visit www.epson.com/printspeed.

12 WF-C21000 and WF-C20750 only. Compared to similarly featured A3 color laser printers and copiers at 45 ppm or higher based on industry available data as of June 2022. Actual power savings will vary by product model and usage.
SureColor® T-Series Printers

Large-Format Single-Function and Multifunction Graphics Printers

Our most versatile wide-format printers. Produce professional-quality graphics and signs for a fraction of the cost of outsourcing printing. Whether you’re looking to print posters for a fundraiser or student performance, graphics on backlit film for a lighted display, or a simple plain-paper flyer, it’s all in a day’s work with the Epson SureColor T-Series printers.

### Features
- **No need to laminate** — prints are water- and smudge-resistant with UltraChrome all-pigment inks
- **Low cost of operation** — high-capacity ink cartridges up to 700 mL and Supertank/Large Ink Pack options to help keep print cost low
- **Versatile** — print on a variety of aqueous-coated media, including rigid posterboard up to 1.5 mm thick
- **Optional internal print server** — remotely manage print queues and save and reprint jobs (available for select models; sold separately)

### Recommended Accessories
- Optional Stand (C12C933151) – T2170/T3170/T3170M only
- 320GB Adobe® PostScript 3™ Module (C12C936671) – Tx270 Series only
- 320GB Internal Print Server (C12C848031) – Tx270 Series only
- 960GB Internal Print Server (C12C036671) – T7770D, T3770 and T7770 Series class products only

SureColor P8570D shown.
## SureColor P-Series Printers

### Large-Format Photo and Graphics Printers

Our most versatile photographic wide-format printers. Produce professional-quality photos and graphics for a fraction of the cost of outsourcing printing. Whether you’re looking to print photos or graphics in a classroom, on canvas for fine-art prints or on backlit film for a lighted display, it's easy with Epson SureColor P-Series printers.

### Features

- **No need to laminate** — prints are water- and smudge-resistant and have industry-leading image permanence with UltraChrome HDX and UltraChrome HD, PRO, PRO10 and PRO12 aqueous pigment inks.

- **Low cost of operation** — high-capacity ink cartridges up to 700 mL and Large Ink Pack options to help keep print cost low.

- **Versatile** — print on a variety of aqueous-coated media, including rigid posterboard up to 1.5 mm thick

### Popular Ink and Accessories

**SureColor P700** — UltraChrome PRO10 Ink Cartridges (25 mL)
- Photo Black Ink Cartridge T770120
- Cyan Ink Cartridge T770220

3. Expedited shipping not available in all areas. Orders must be placed and processed by 1 p.m. Pacific Time for Next-Business-Day Delivery. See limited warranty or service plan for details.
4. WP lightfastness ratings are based on accelerated testing of prints on specified media, displayed indoors, under glass. Actual print stability will vary according to media, printed image, display conditions, light intensity, humidity and atmospheric conditions. Epson does not guarantee longevity of prints. For maximum print life, display all prints under glass or UV-absorbing acrylic and protect them from prolonged high-humidity environments. Visit www.wilhelm-research.com for the latest information.
Maximize productivity and simplify file management. Our wide array of mobile, desktop, flatbed, photo and large-format scanners makes it easy to capture important student documents, artwork, photos and more.
Mobile Scanners

Document Scanners for Staff on the Go

These lightweight mobile document scanners let educators and administrators scan documents, ID cards and more, whether working on campus or remotely. For even more flexibility, this versatile lineup includes wireless and Auto Document Feeder (ADF) models for easy, efficient organization in virtually any setting.

Features

- **Organization on the go** — scanners easily fit in a shoulder bag or briefcase
- **Scan to online storage accounts** — intuitively scan to Dropbox®, SharePoint®, Evernote®, Google Drive™ and more
- **Generate searchable and editable files** — scan to editable Word and Excel® files or searchable PDF files
- **Powerful software included** — Epson Scan 2, Epson Document Capture and more

Desktop/Workgroup Scanners

Document Scanners for Records, Grading, Forms and More

These fast, efficient and compact desktop/workgroup scanners breeze through stacks of 2-sided documents—plus rigid ID cards, folded pages up to 11" x 17** and more. Designed for situations where speed is critical and dependability is paramount, these workgroup scanners offer world-class performance at a significant value.

### Features

- **Seamless compatibility with document management systems** — TWAIN and ISIS drivers available for easy integration with existing software.
- **World-class performance** — advanced paper feed technology includes Dynamic Skew Correction and Double-Feed Detection.
- **Scan to online storage accounts** — intuitively scan to Dropbox, Google Drive, SharePoint, Evernote and more.
- **Generate searchable and editable files** — scan to editable Word and Excel files or searchable PDF files; OCR software included.

#### Epson Preferred Plus Extended Service Plans

We offer a variety of plans to:
- Maximize uptime
- Ensure predictable costs
- Provide peace of mind
