

AUTOMATION

How can automated features impact your business?

Automation can help you save time and reduce waste. The SurePress L-6534 features robotics that provide precise control of mechanical and electronic components. This provides consistent and reliable operation, which is monitored and verified by the Epson Remote Management System (ERMS). A half-toning module embedded in the press can potentially increase productivity, create happy operators, and allow for a faster return on your investment.

Common Problems + Epson Solutions

Problems

- Web breaks.
- Maintenance downtime.

Solutions

- Sensors automatically monitor web tension.
- Automated inkjet nozzle cleaning and verification, along with automated print-head flushing and wiping.
- You only need to perform manual maintenance once every 24 hours.
- Required manual maintenance: Clean six flexible wipers and several “caps” with industrial swabs. Lint-free wipes and isopropyl alcohol are used to remove stray adhesives from the web path.

Benefits

- Reduces the potential for a major web break.
- Frees operators to perform other tasks.
- Reduces downtime.
- Simplifies maintenance.

Problems

- Low productivity from substrate changes and adjustments.

- Delays between multiple jobs.

Solutions

- No registration adjustments are necessary when changing substrates.
- Web automatically feeds from unwind splice table to rewind wheel with the touch of a button.
- Presets allow the computer to remember the pertinent details for each substrate and job.

- Job grouping function.
- The ability to print multiple jobs on the same roll.

Benefits

- Improves productivity.
- Minimizes delays and reduces substrate waste while switching between multiple jobs.
- Maximizes productivity.

Key Takeaways

By automating manual tasks and implementing preventative features, downtime can be significantly reduced. The result? Greater output. Automation paired with engineering allows your output to reach up to 27,000 feet per shift and up to 2 million feet per month.*

Is the UV inkjet SurePress L6534 right for you? What is your ideal output? Do you have an ideal output per shift per month?

*Single installed printer, print volume verified via Epson Remote Management System.
