Solutions for Education

Today’s rapidly changing educational landscape demands intelligent, easy-to-use technology that inspires new ways of thinking. At Epson, we have 40 years of experience developing groundbreaking education tools to help engage students, promote collaboration, and support faculty and administrators. From the classroom to the administrative office, our cost-effective, reliable and versatile Brighter Futures® solutions will help you shape your curriculum and drive the future of education at your institution.

Designed for the Classroom and Beyond
Enhance every student’s learning experience with dynamic, user-friendly imaging technology that invites participation and engages viewers in any environment, whether it’s a classroom, lab or gymnasium. From advanced displays, projectors, printers and scanners all the way to our innovative Moverio® smart glasses, Epson’s comprehensive suite of education solutions will meet any need.

Budget-friendly Solutions
We understand budgets can be tight, so we make solutions accessible through our Brighter Futures program with special pricing for schools, districts and other agencies. Our products offer outstanding value, solid reliability, and easy integration with existing curriculum software and systems to help schools achieve a better bottom line. Find the latest pricing information online at www.epson.com/edguide

Reliability You Can Count On
Our products are designed to work day in and day out, so teachers and staff can focus on the classroom. Offering decades of road-tested reliability, Epson® education solutions are backed by unsurpassed customer service and support that goes the extra mile.

Displays and Projectors

Whether you’re searching for state-of-the-art laser displays, networked classroom projectors, or visual solutions for larger rooms and venues, Epson offers a comprehensive lineup of displays and projectors that are designed to connect students and teachers in ways never before imagined.

We understand that — just like no two students are alike — each classroom and learning environment offers a unique space for exploration and understanding. From interactive whiteboarding solutions that make collaborative, personalized learning a regular part of instruction to high-brightness, large-venue products for well-lit spaces, Epson is education’s #1 choice for projection technology.

Interactive Displays

Short-throw Projectors

Advanced Networking Projectors

Large-venue Projectors
Display Size Makes a Difference in the Classroom

A recent study shows that 58 percent of students can’t read content on a 70” flat panel! That’s why it’s important that a classroom display is large enough for every student to clearly see it in an average-sized classroom — and read what’s on it from anywhere in the room. For many classrooms, flat-panel displays are simply too small to give students optimum readability. In contrast, Epson offers the flexibility to maximize readability for all students. To understand the connection between display size and viewing distance, and for help in making sure your display image size meets your goals, visit www.epson.com/classroomdisplaysize

Visibility in different rooms and seating arrangements

For detailed information on why “Display Size Matters” for classrooms, including the 4/6/8 rule, visit www.epson.com/classroomdisplaysize
Epson Technology Advantages

Offering up to 3x Higher Color Brightness compared to 1-chip DLP projectors: Epson visual solutions are an ideal fit for any learning space, with large, easy-to-see images and the latest in connectivity and support for Chromebooks, tablets and smartphones.

Wirelessly share content from multiple devices, including Chromebooks

Designed for today’s BYOD and 1:1 classrooms, Epson iProjection™ is a robust wireless solution offering true multi-platform support for Chromebooks, PCs and Mac® computers, as well as iOS® and Android™ devices. Students and teachers alike can wirelessly display documents, images, webpages and more from their devices for the entire classroom to see on the big screen. Advanced functionality includes two-way content sharing — available with select Epson models — annotation, real-time mobile camera display and more.

Plus, Epson iProjection’s built-in Moderator feature — available for both mobile devices and computers — allows teachers to connect up to 50 devices, then manage and display content from up to four students at a time. It’s the perfect tool for sharing a variety of content at once, or for comparing students’ work side by side.

And, Epson iProjection for Chromebook makes it easy for students to wirelessly share their Chromebook screens with the rest of the class. With full mirroring capabilities, the app allows students to display content from Google Docs, Google Slides and Google Sheets, as well as Web content from their Chrome browser (audio support not available for mirroring).

Epson Laser Projection Technology

**Virtually maintenance-free operation**

As a world leader in digital 3LCD projection solutions, Epson continues to drive the future of classroom and projection technology with its full suite of laser displays and projectors. Featuring lamp-free, long-life, laser light engines, Epson laser solutions achieve new levels of performance and reliability — including up to 20,000 hours of virtually maintenance-free operation.5

**Why choose laser?**

- **Breakthrough laser technology** — long-life laser light engine provides up to 20,000 hours of virtually maintenance-free operation.5

- **Outstanding color performance and contrast** — get exceptional, true-to-life color reproduction and deep, dark blacks for stunning visuals you can count on for an array of applications

- **Instant ON/OFF** — displays and projectors reach maximum brightness and turn off almost immediately, with no warmup or cool-down period required

- **Reliable 24/7 operation** — ideal for applications requiring continuous projection

Engage the entire classroom with these bright, dynamic and easy-to-use interactive displays, available in laser and lamp-based models. Offering dual-user pen-based and/or touch-enabled interactivity for up to six users at a time (on select models), these displays are designed to maximize classroom collaboration and allow you to share lessons — or students’ work — from Chromebooks, computers, iOS and Android devices, or annotate PC-free with no device at all.

**BRIGHTLINK® AND BRIGHTLINK PRO SERIES**

**Interactive Displays**

**FEATURES**
- Fully integrated, pen- and finger-based interactivity — turns almost any existing dry-erase board or plain wall into an interactive workspace (finger-based interactivity available on select models)
- Easy content sharing — share images between the big screen and wirelessly connected mobile devices, for individualized learning³
- Brilliant image quality up to Full HD WUXGA — with up to 4,400 lumens of color brightness and 4,400 lumens of white brightness⁶
- Laser models available — up to 20,000 hours of virtually maintenance-free operation⁵

**RECOMMENDED ACCESSORIES**
- Short-throw Wall Mount for BrightLink 536Wi
- Ultra Short-throw Wall Mount
- Wireless LAN Module V12H731P02 (ELPAP10)
- 100" Whiteboard
- Replacement Pen — Orange
- Replacement Pen — Blue
- Replacement Air Filter for Laser Displays V13H134A43 (ELPAF43)

See pages 24–26 for product codes and more information.
Ultra Short-throw Displays

Share engaging lessons with these bright, versatile displays, which feature built-in ultra short-throw lenses for images up to 100" from as little as 11" away with minimal shadows and glare. The lamp-based PowerLite 600 Series and 700U laser signage display feature advanced wireless capabilities and connectivity, including Chromebook support.

FEATURES

- Manage your display and send announcements remotely — easy network connectivity; software included
- Wireless support — display Chromebook, iOS, Android, Mac and PC screens
- Up to 3x HDMI® ports — supports high-definition A/V devices including the latest laptops, Blu-ray Disc® and media players
- Long-life displays — lamp-based models last up to 10,000 hours in ECO Mode; PowerLite 700U offers up to 20,000 hours of virtually maintenance-free operation

RECOMMENDED ACCESSORIES

- Ultra Short-throw Wall Mount
- PowerLite Pilot™ 2 Connection and Control Box
- Wireless LAN Module V12H731P02 (ELPAP10)

Large-venue Projectors

Designed for exceptional performance, Epson large-venue installation projectors are powerful performers for virtually all large spaces, including auditoriums, gymnasiums, cafeterias, stadiums and more. Available in laser and lamp-based models, these large-venue projectors feature high lumens for bright, colorful images and utilize advanced display technologies to create immersive experiences that will captivate any audience.

Visit www.epson.com/largevenue for more information and to compare models.

Why choose Epson for your large-venue projection needs?

- **3-chip, 3LCD technology** — for higher color brightness compared to 1-chip DLP projectors
- **Industry-leading service and support** — limited warranty of 3 years or 20,000 hours, whichever comes first, plus free Next-Business-Day replacement with postage-paid returns
- **Epson 4K Enhancement Technology** — a revolutionary technology that accepts 4K signal and enhances the native resolution for output that surpasses Full HD image quality
- **Wide selection of powered lenses with lens memory** — including zero- and negative-offset lenses for shallow spaces
- **Diverse connectivity options** — including HDBaseT, DVI-D, HDMI, 5-BNC and wireless
- **Emulation Mode** — saves time and money when replacing other manufacturers’ projectors
- **Compatible with leading control systems** — such as Crestron, AMX, Extron XTP, Control4 and Art-Net

Large-venue Installation Projectors

These large-venue installation projectors offer optional interchangeable powered lenses for extraordinary installation flexibility, plus advanced projection technologies, including Edge Blending, for a range of applications. Select models offer revolutionary Epson 4K Enhancement Technology for output that surpasses Full HD.

### FEATURES

- **Installation made easy** — interchangeable lens options, lens shift capability, HDBaseT inputs, 360-degree installation
- **Dynamic projection capabilities** — advanced built-in Edge Blending, image warping and curved-surface correction technologies for a variety of applications
- **Web-based remote management** — control and monitor projector status via a Web browser
- **Epson 4K Enhancement Technology** — a revolutionary technology that accepts 4K signal and enhances the native resolution for output that surpasses Full HD image quality

### RECOMMENDED ACCESSORIES

- Custom Micro-adjustable Mount
- HDBaseT Transmitter
- Low Ceiling Mount
- High Ceiling Mount

See pages 24–26 for product codes and more information.

### CONNECTIVITY

Product shown is Pro G7905U. Visit [www.epson.com/support](http://www.epson.com/support) to see the connectivity options for all models listed.

*Specifications vary by model.
These laser large-venue installation projectors feature a laser light engine for uncompromising image quality and virtually maintenance-free operation up to 20,000 hours. The projectors also deliver up to native Full HD WUXGA performance with Epson 4K Enhancement Technology and exceptional integration capabilities.

**FEATURES**

- **Up to 15,000 lumens color and white brightness** — Epson is the first projector manufacturer to combine inorganic 3LCD panels with an inorganic phosphor wheel to achieve higher brightness and reliability.
- **Industry-leading service and support** — limited warranty of 3 years or 20,000 hours, whichever comes first, plus free Next-Business-Day replacement with postage-paid returns.
- **Wide selection of powered lenses with lens memory** — including zero- and negative-offset 0.35 ultra short-throw lenses for shallow spaces.
- **Versatile connectivity** — supports the full range of inputs, including HDBaseT, HDMI, DVI-D, 3G-SDI, VGA and 5-BNC, for easy integration with any system.

**RECOMMENDED ACCESSORIES**

- HDBaseT Transmitter
- Low Ceiling Mount
- High Ceiling Mount

See pages 24–26 for product codes and more information.

**PRODUCT SHOWN**

Product shown is Pro L1755UNL.

Visit [www.epson.com/support](http://www.epson.com/support) to see the connectivity options for all models listed.

*Specifications vary by model.
**Lens compatibility varies by model. See page 22–23 for details.
Optional Ultra Short-throw Lenses

Transform your Pro G or Pro L Series projector into an ultra short-throw display for ultimate installation flexibility. Install the projector just inches from the screen or wall — away from foot traffic — and still get huge, bright, crisp projection. Featuring a 0.35 throw ratio — plus zero offset on the ELPLX01 and negative offset on the ELPLX02 — these lenses are ideal for installation in narrow or tight spaces. And, wide lens shift gives you even more flexibility when you need it.

*Lens compatibility varies by model. See pages 22–23 for details.

Epson offers an array of projector lenses to fit all types of applications and requirements.
Display and Projector Accessories

Connectivity

HDBaseT Transmitter  |  V12H547020 (ELPHD01)
Maximize convenience with this optional HDBaseT transmitter box, a great companion piece to select models in the PowerLite 2000 and 5000 Series, as well as the Pro G and L Series. Three inputs are featured for easy installation: HDMI, LAN and RS-232 to output into a CAT-5/6 cable.

Wireless LAN Module  |  V12H731P02 (ELPAP10) / V12H418P12 (ELPAP07)
These high-speed, wireless network adapters plug directly into select Epson projectors and displays, allowing quick and easy access to the LAN or peer-to-peer networks without wires or cables. When used with Epson EasyMP® Monitor, Network Projection and Multi-PC Projection software, they allow users to remotely access and control projectors over the wireless LAN.
- Compliant with 802.11 b/g/n standards
- Uses USB Type A connector
- Compatible with PC or Mac
- Able to transmit audio

Sound Enhancement

Active Speakers  |  V12H467020 (ELPSP02)
Enhance the learning experience with 30 W of rich, powerful sound. This active speaker set (with built-in amplifiers) lets students clearly hear lessons. The ELPSP02 speakers can be easily mounted on the wall and can be used with any Epson projector or display, with or without the PowerLite Pilot.

Audio/Visual Control Systems

PixiePlus™  |  ELPSP10
Featuring a sleek, space-saving design, PixiePlus is an affordable, easy-to-use projector control system designed for in-wall installation.
- Easy installation — installs in any standard wall box
- Save both money and energy — automatic projector shutdown timer feature

PowerLite Pilot 2 Connection and Control Box  |  V12H614020 (ELPCB02)
A convenient wall-mounted A/V control box for Epson short-throw and ultra short-throw displays, the PowerLite Pilot 2 supports an array of devices. It’s now easier than ever to operate your audio/video source, computer, mobile device and more — even the latest high-definition and MHL-enabled mobile devices. Get greater flexibility, consolidated cable management and streamlined control of classroom multimedia devices.

Whiteboards and Screens

100“ Whiteboard (16:10)  |  V12H831000
A combined projection and dry-erase surface, this 100“ Whiteboard is the ultimate projection partner for classrooms. Featuring a matte-white, low-gloss surface, this Whiteboard enables high-quality projection with minimal glare or reflection. Ideal for use with widescreen projectors.

ES1000 Ultra Portable Tabletop Projection Screen  |  V12H002S4Y
This lightweight, compact screen is the perfect partner for on-the-go lessons. When you’re ready to present, the ES1000’s unique one-piece design allows you to set up quickly and easily on any tabletop in less than 30 seconds. It conveniently accommodates up to a 50“ (diagonal) image. And, when it’s time to shut down, the ES1000 stores quickly and easily in just seconds.
ES3000 Ultra Portable Projector Screen | V12H002S3Y

An easy-to-use, portable projection screen, the ES3000 is designed to expand to the size that best meets your needs: standard 4:3, widescreen 16:9 or widescreen 16:10. Plus, you can take it anywhere — with the included wheeled case, it’s easy to transport. Its unique, one-piece design means there’s no need to assemble various components. And, when it’s time to shut down, the ES3000 stores quickly and easily.

Interactive Pens

Replacement Pens | Orange V12H773010 (ELPPN05A) / Blue V11H774010 (ELPPN05B)

These two pens offer interactive drawing and mouse capabilities and simultaneous operation with BrightLink 500 Series, 600 Series and 710Ui interactive displays. Powered by a single AA battery, the pens include a convenient on/off power button with Sleep Mode to prolong battery life.

Mounting Accessories

Short-throw Wall Mount | V12H706020 (ELPMB45)

Designed exclusively for use with Epson’s PowerLite 500 Series short-throw displays, as well as the PowerLite 530 for SMART and BrightLink 536Wi, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation, while the vertical and horizontal adjustments provide easy image alignment. And, when your short-throw display is attached to the wall mount, there is less shadow interference and glare, which ensures a more optimal presenting and viewing experience.

Ultra Short-throw Wall Mount | V12H777020 (ELPMB46)

Designed exclusively for use with Epson’s PowerLite 600 Series and BrightLink 600 Series ultra short-throw displays, as well as the PowerLite 680 for SMART and PowerLite 685W for SMART, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation from 53” – 100”, while the vertical and horizontal adjustments provide easy image alignment. And, when your ultra short-throw display is attached to the wall mount, there is less shadow interference and glare, which ensures a more optimal presenting and viewing experience.

Ultra Short-throw Wall Mount for Laser Displays | V12H902020 (ELPMB53)

Designed exclusively for use with Epson’s PowerLite, BrightLink and BrightLink Pro ultra short-throw laser displays, this wall mount offers an easy, affordable solution for wall-mounted displays. The wide mounting plate and telescopic extension arm offer convenient and flexible installation from 70” – 100” for BrightLink 710Ui and BrightLink Pro 1470Ui, and up to 130” for the PowerLite 700U. And, when your ultra short-throw display is attached to the wall mount, there is less shadow interference and glare, which ensures a more optimal presenting and viewing experience.

Low Ceiling Mount / High Ceiling Mount | V12H802010 (ELPMB47) / V12H803010 (ELPMB48)

Specifically designed for use with Epson Pro G and L Series projectors, these heavy-duty mounts support up to 165 lb and offer independent adjustments for vertical tilt, horizontal roll, and rotation. The Low Ceiling Mount offers a low-profile, aesthetic design, while the High Ceiling Mount features MicroZone adjustments for fast, precise projector registration. And, their sleek, silver finish blends in with ceilings.

Adapter Plate for SMART UF55/65/70/75 Series Mount | V12H870001

A cost-effective solution for extending the life of previous interactive investments, this easy-to-install bracket enables a quick retrofit solution for SMART Board interactive systems using select Epson projectors.
Display and Projector Accessories

Universal Projector Kit | V12H808001 (ELPMBPJG)
Includes a Universal Projector Mount, 3" (76 mm) Fixed Extension Column and Speed-Connect Ceiling Plate.

Custom Micro-adjustable Projector Mount | V12H809001 (ELPMBPRH)
Specifically designed for use with the Epson Pro G and PowerLite 2000 and 5000 Series.

Speed-Connect Above-tile Suspended Ceiling Kit | V12H804001 (ELPMBP04)
Provides a host of features that ensure a faster, more secure installation of most lightweight, front-projection models.

Suspended Ceiling Tile Replacement Kit | V12H805001 (ELPMBP05)
Designed to replace one 2’ x 2’ ceiling tile or to sit above a suspended ceiling.

Speed-Connect Suspended Ceiling Tile Replacement Kit | V12H806001 (ELPMBP06)
Provides features that ensure a faster, more secure installation of most lightweight, front-projection models.

6" Speed-Connect Ceiling Plate | V12H807001 (ELPMBP07)
Offers a clean look and time-saving cable management features while focusing on the speed of installation.

9" – 12” Adjustable Extension Column | V12H810001 (ELPMBC02)
Saves installation time and maximizes security.

6” Fixed Extension Column | V12H811001 (ELPMBC03)
Lowers projectors to the desired height.

3” Fixed Extension Column | V12H812001 (ELPMBC04)
Lowers projectors to the desired height.

Projector Disclaimers
1. Leading 70” class 4K resolution flat panel in a 22’ (width) by 27’ (depth) classroom-style arrangement. When asked to copy down six short items of information from slides being displayed, 58 percent of students ages 12 – 22 copied at least one item incorrectly. Based on U.S. research conducted by Radius Research.
2. Color brightness (color light output) in brightest mode, measured by a third-party lab in accordance with IDMS 15.4. Color brightness will vary depending on usage conditions. Top-selling Epson 3LCD projectors versus top-selling 1-chip DLP projectors based on PMA Research sales data for Dec. 2015 through Nov. 2016.
3. For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details.
4. Moderator control, Connecting via QR code and Projector Remote are not available on Epson iProjection for Chromebooks.
5. 20,000 hours is the estimated projector life when used in Normal Mode. Actual hours may vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.
6. Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.
7. Full HD WXGA (1920 x 1200), SXGA+ (1400 x 1050), WXGA (1280 x 800), XGA (1024 x 768), SVGA (800 x 600).
8. Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.
9. Certain functionality is only available through Epson Interactive Tools (EIT) software. For a list of supported operating systems, visit www.epson.com
10. Includes one Mobile High-Definition Link® (MHL) HDMI port.
11. Works only with Epson projectors that support presentation over the network capability.
12. Expedited shipping not available in all areas. Road Service orders must be in by 3 p.m. Eastern Time for Next-Business-Day delivery.
13. 4K Enhancement Technology shifts each pixel diagonally by 0.5 pixels to double the resolution and surpass Full HD image quality.
14. Emulation Mode is limited to certain code sets and may not support all codes. Contact Epson Support for the latest supported sets.

Printers

Bring color printing back to school with Epson printers and all-in-ones. Ideal for educators, administrators and students alike, this innovative lineup — including our groundbreaking EcoTank® Supertank printers and Replaceable Ink Pack System (RIPS) printers — makes color printing affordable again.
Epson’s EcoTank line of Supertank all-in-one printers features Cartridge-Free Printing and revolutionary ink replacement technology. They offer an unbeatable combination of value* and convenience, with super-high-capacity, easy-to-fill ink tanks. These all-in-one printers come with enough ink in the box to print for up to 2 years*, so you can print thousands of pages black/color** before replacing ink.

Maximize convenience, savings, quality and reliability, all in one incredible printer. EcoTank printers offer the freedom to print in color, with less impact on your supplies budget — you’ll save up to 80 percent on ink with low-cost replacement bottles*** (ET-3750, ET-4750 and ET-16500 only). It’s the smart choice for high-volume, high-quality, hassle-free printing.

### ECOTANK SUPERTANK ALL-IN-ONE PRINTERS

**Cartridge-Free Printing for Classrooms**

Epson’s EcoTank line of Supertank all-in-one printers features Cartridge-Free Printing and revolutionary ink replacement technology. They offer an unbeatable combination of value* and convenience, with super-high-capacity, easy-to-fill ink tanks. These all-in-one printers come with enough ink in the box to print for up to 2 years*, so you can print thousands of pages black/color** before replacing ink.

Maximize convenience, savings, quality and reliability, all in one incredible printer. EcoTank printers offer the freedom to print in color, with less impact on your supplies budget — you’ll save up to 80 percent on ink with low-cost replacement bottles*** (ET-3750, ET-4750 and ET-16500 only). It’s the smart choice for high-volume, high-quality, hassle-free printing.

### FEATURES

- **Cartridge-Free Printing** — comes with up to 2 years of ink in the box*
- **Save up to 80 percent on ink with low-cost replacement bottles*** — features easy-to-fill, supersized ink tanks (ET-3750, ET-4750, and ET-16500 only)
- **Chromebook printing right out of the box** — no additional software is required
- **Ultimate wireless solution plus Ethernet** — easy iPad®, iPhone®, Android tablet and smartphone printing²; includes Wi-Fi Direct† for network-free printing

---

*Based on average monthly document print volumes of about 300 pages (ET-3750, ET-4750, ET-16500) and 800 pages (WF-R4640).

**ET-3750/4750/16500 included ink bottle yields based on the ISO/IEC 24712 pattern with Epson’s methodology, WF-R4640 included ink pack yields are estimated based on ISO/IEC 24711 test in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors must be available for printing. For more information, visit www.epson.com/inkinfo

***Savings comparison based on the purchase cost of replacement ink bottles and the cost of enough cartridges to achieve the total page yields of the bottles using the manufacturers’ online prices and yields for the highest-capacity cartridges for the best-selling similarly featured consumer inkjet printers priced at $499 USD or less per NPD, July 2016. Actual savings will vary based on print tasks, print volumes and usage conditions.

****Designed for use exclusively with Epson ink packs.

---

www.epson.com/edguide
Classrooms are evolving towards 1:1 learning and mobile device usage is on the rise. Epson printers have evolved, too, with a full portfolio of desktop all-in-ones and mobile printers that come equipped with wireless connectivity and mobile device printing.

**FEATURES**

- **Performance you can count on** — amazing quality, fast speeds and exceptional reliability to meet your classroom printing needs
- **Chromebook printing right out of the box** — no additional software is required
- **Ultimate wireless solution** — easy iPad, iPhone, Android tablet and smartphone printing; includes Wi-Fi Direct for network-free printing
- **Print on the go** — lightweight, small printer for out-of-town teachers' conferences or class field trips (WF-100 only)

---

*Designed for use exclusively with Epson cartridges.*

**Replacement cartridge yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer/all-in-one maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer startup and a variable amount of ink remains in the cartridges after the "replace cartridge" signal. For details, see www.epson.com/inkinfo
Ideal for fast, high-volume, low-cost, letter-size black-and-white and/or color printing for administrative offices and teacher prep, Epson WorkForce Pro printers and all-in-ones offer heavy-duty, reliable performance, plus easy, secure and cost-effective print management for your entire education network.

**FEATURES**

- Low total cost of ownership — select models use up to 70 percent less power than laser printers; and up to 80 percent lower printing costs with the WF-R5190 and WF-R5690.

- Versatile paper handling — auto 2-sided printing with multiple trays for uninterrupted printing with different paper types.

- PaperCut™ ready — customizable print management option; manage and track prints from touchscreen via user login or ID card.

- Security features — PIN number certification for job release; user control access, printer and network settings via Web Config with printer's IP address; SSL/TLS security; IPsec.

**RECOMMENDED ACCESSORIES**

WorkForce Pro WF-5000 Series
- Optional 250-sheet Paper Cassette Tray (C12C817011)
- WorkForce Pro WF-6000 Series
- Optional 500-sheet Paper Cassette Tray (C12C932011)
- Optional Cabinet (C12C932681)
- Maintenance Box (C13T671200)

**WHAT IS THE REPLACEABLE INK PACK SYSTEM (RIPS)?**

WorkForce Pro printers featuring Epson’s Replaceable Ink Pack System use high-capacity ink packs that reduce total operating costs, providing amazingly affordable, low-cost printing plus versatile media handling for budget-minded schools. The replacement ink packs for the WF-R5190 and WF-R5690 deliver enough ink to print up to 50,000 pages black/50,000 color** — equivalent to 100 reams of paper or up to 35 toner cartridges.***

*Designed for use exclusively with Epson cartridges or ink packs (ink delivery varies by model).** Replacement cartridge and ink pack yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer/all-in-one maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges or packs is used for printer startup and a variable amount of ink remains in the cartridges or packs after the “replace cartridge” or “replace ink pack” signal. For more information, see www.epson.com/inkinfo.

***About 35 toner cartridges estimate based on print yields of the replacement Black and color ink packs as compared to highest-capacity toner cartridges for similarly featured color laser printers based on NPD data, Sept. 2016.
Epson’s WorkForce and WorkForce Pro wide-format printers and all-in-ones offer fast tabloid printing and scanning for pages as large as 13” x 19”. Their versatility is ideal for printing posters, flyers and worksheets by both students and staff.

**FEATURES**

- **Versatile paper handling** — print letter-sized documents all the way up to 13” x 19”, with auto 2-sided printing and high-capacity paper trays for uninterrupted printing
- **Low total cost of ownership** — significant savings and dramatically reduced energy usage vs. color laser printers
- **PaperCut ready** — customizable print management option; manage and track prints from touchscreen via user login or ID card**
- **Security features** — PIN number certification for job release; user control access, printer and network settings via Web Config with printer’s IP address; SSL/TLS security; IPsec***

**RECOMMENDED ACCESSORIES**

**WorkForce Pro WF-8000 Series**
- Optional 500-sheet Paper Cassette (C12C817061)
- Optional Cabinet (C12C847261)
- Maintenance Box (C13T671200)

**WorkForce Pro WF-C869R**
- Optional 500-sheet Paper Cassette (C12C932611)
- Optional Cabinet (C12C932891)
- Maintenance Box (T671400)

The WorkForce Pro WF-C869R is fitted with an economical, large-capacity Replaceable Ink Pack System so you can print substantially more pages before replacing inks. The replacement ink packs for the WF-C869R deliver enough ink to print up to 86,000 pages black/84,000 color.**
Ultra High-speed Multifunction Network Printer

Epson’s flagship color multifunction network printer speeds through prints at 100 ISO ppm\(^{†}\), the fastest in its class\(^{8}\). Powered by PrecisionCore\(^{®}\) Line Head Technology, it delivers brilliant-quality output. A powerful but efficient printer, it utilizes up to 50 percent less power than color lasers\(^{8}\), to keep operating costs in check, and can be installed with any 110 V outlet.

FEATURES

- **Breakthrough print speed** — 100 ISO ppm\(^{†}\), the fastest in its class\(^{8}\)
- **Quality without compromise** — advanced PrecisionCore technology and a stationary line head deliver both speed and professional-quality output
- **PaperCut ready** — customizable print management option; manage and track prints from touchscreen via user login or ID card
- **Conserve energy** — up to 50 percent lower power consumption than color lasers\(^{8}\), works with any 110 V outlet

RECOMMENDED ACCESSORIES

- Optional Professional Finisher with Bridge Unit (C12C933261BU)
- Optional High-capacity Input Tray (C12C933331)
- Optional Paper Cassette Lock (C12C933231)

This intuitive 9” interface makes it easy to do more — print, copy, scan — with just a touch.
Large-format Single and Multifunction Graphics Printers

Produce professional-quality graphics and signs for a fraction of the cost of outsourcing printing. Whether you’re looking to print posters for a fundraiser or student performance, backlit film for a lighted display, or simple plain-paper flyers, it’s all in a day’s work with Epson SureColor T-Series printers.

FEATURES

- No need to laminate — prints are water resistant and smudge resistant with UltraChrome XD pigment ink
- Low cost of operation — high-capacity ink cartridges up to 700 mL for low printing costs
- Versatile — print a variety of media, including rigid posterboard up to 1.5 mm thick
- Optional 320GB internal print server — remotely manage print queues and save and reprint jobs (sold separately)

RECOMMENDED ACCESSORIES

- Multifunction Scanner Module for 36” (SCT36SCAN)
- Multifunction Scanner Module for 44” (SCT44SCAN)
- 320GB Internal Print Server (C12C848031)

Printer Disclaimers

1. This product uses only genuine Epson-brand cartridges or ink packs (ink delivery varies by model). Other brands of ink supplies are not compatible and, even if described as compatible, may not function properly.
2. Black and color print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed
3. Black print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed
4. Wi-Fi CERTIFIED™; level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software.
5. Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect™ enabled printers and compatible devices and apps, visit www.epson.com/connect
6. NFC requires use of a device that includes NFC, and may require additional software.
7. Not all media types are supported for PCL printing.
8. Compared to best-selling A3 color MFPs with MSRP of $41,000 or less. Competitive data gathered from manufacturer websites and third-party industry sources as of Nov. 2016.
Scanners

Maximize productivity and simplify file management. Our wide array of mobile, desktop, flatbed, photo and large-format scanners makes it easy to capture important student documents, artwork, photos and more.
MOBILE SCANNERS

Document Scanners for Staff on the Go

These lightweight mobile document scanners let educators and administrators scan documents, ID cards and more, whether working on campus or remotely. For even more flexibility, this versatile lineup includes a wireless model and ADF model for easy, efficient organization in virtually any setting.
