ORIENT STAR announces the Avant-garde Skeleton, a smart and sophisticated urban watch

ORIENT STAR announces the Avant-garde Skeleton, a new addition to its Sports Collection, featuring a powerful dynamic design. The Avant-garde Skeleton symbolises a new generation for ORIENT STAR, strengthening its appeal with its bold appearance.

ORIENT STAR

The Avant-garde Skeleton, with its modern stylish design is an evolution of the Classic Skeleton, most evident in the model with red aluminum detailing contrasted against the hairline finished black case and bezel. The combination of black base hue and vivid red accents continues on the openwork dial and the perforated leather strap, giving a tough and sharp overall appearance.

The dial consists of two openwork plates superimposed to show depth with a three-dimensional effect. A honeycomb pattern below and a gear motif on top emphasise the mechanical features of the watch. The Avant-garde Skeleton has refined the exhibition of the mechanical movement unique to ORIENT STAR. Each part of the display can be read easily at a glance, not just the hour and minute hands and indices, but also the power reserve indicator at 12 o'clock and the small second hand at 6 o'clock. Even with the skeletonisation, high legibility is achieved due to the complimentary colour scheme used on the calculated open works on the dial.

Two designs come with a perforated leather strap; one has a black case and bezel, while the other exudes a vintage feel with a bronze colour case and black bezel. There are also two designs with a metal bracelet and a choice of either a black or silver dial.

The new Avant-garde Skeleton is powered by the 50-hour power reserve in-house caliber F6F44, an automatic mechanical movement with stable accuracy and reliability. With a screw-down crown and water resistance to 10 bar, ease of wear is also improved by the gentle sloping profile of the case sides. The refined detail is suitable for active outdoor use as well as urban life.

About ORIENT STAR

Established in Japan in 1951, ORIENT STAR originates from a desire to create a mechanical watch that would become a “brightly shining star” in every aspect, from its design and movements to its manufacture and assembly. Drawing on traditional watchmaking skills and the latest in-house integrated design and manufacturing competencies, the brand has continued to create timeless pieces such as the mechanical movements of the 46-F7 series. The delicate details, sophisticated designs and fine intricacies of these high-quality masterpieces attract the attention of watch connoisseurs from all over the world.

— Product Specifications —

Collection	Sports			
Series name	Avant-garde Skeleton			
Reference	RE-AV0A01B	RE-AV0A02S	RE-AV0A03B	RE-AV0A04B
Movement	Automatic (with hand winding) mechanical in-house caliber F6F44 made in Japan			
Power reserve	50 hours			
Accuracy	+ 25 seconds ~ - 15 seconds per day			
Case material (colour)	Stainless steel (black plated bezel)	Stainless steel	Stainless steel (black plated, black plated bezel)	Stainless steel (bronze colour plated, black plated bezel)
Case size	43.2mm / thickness 13.7mm			

Glass	Front: Sapphire crystal (AR (anti-reflective) coating), back: crystal glass			
Strap	Stainless steel (SUS316L) / trifold deployant buckle with push button / width 21mm		Leather / trifold deployant buckle with push button / width 21mm	
Colour of dial	Black	Silver	Black	Stone gray
Other features	Water resistance to 10 bar, power reserve indicator, second hand hacking, 24 jewels, Luminous Light (RE-AV0A01B and RE-AV0A02S), regular luminescence (RE-AV0A03B and RE-AV0A04B), see-through exhibition case back
