

EPSON
EXCEED YOUR VISION

WHAT IT RETAILERS ARE SAYING ABOUT EPSON ECOTANK MONOCHROME PRINTERS.

“

Asia Century Supplies Sdn. Bhd. (ACS) specializes in supplying high quality printer consumable products at reasonable prices since 2005. The company serves over 10,000+ customers including schools, SMEs, government, and public listed companies. As a retailer with e-commerce platform, ACS places customer service excellence as its company's top priority. The company is committed to providing friendly and hassle-free services to their customers through various programmes, for example, delivery of printer ink or toner cartridge to customer's doorstep within 2-3 working days.

ACS' business operation requires high volumes of document printing like reports and invoices on a daily basis. "We needed to replace up to 2 laser toner cartridges per month before we switched to Epson EcoTank M-series printers," recalled Edvin Lim, Director of ACS. The company finally made the switch to Epson EcoTank monochrome printers to save on costly laser toners. ACS has been using the Epson EcoTank monochrome printers for about 4 months now and is pleased with its high-yield ink bottles. "We have 5 units of the printers. So far, we have yet to refill the ink tanks since we started using them." Lim noted.

Apart from helping businesses save on printing costs, Epson's inkjet Heat-Free technology increases productivity by helping ACS save time with its high-speed printing.

"WE ALSO MANAGE TO SAVE POWER CONSUMPTION AND IN RETURN, LOWER DOWN OUR BUSINESS RUNNING COSTS,"

explained Lim.
