

Epson SureColor P700 | P900

Photography and Graphic Design

reddot winner 2021

Be Inspired

The photographic print defines the true art of photography. As the canvas is to a painter, the print allows you to clearly portray every detail of your creative vision and for all to experience what you felt at the moment of capture.

Drawing from over 20 years of experience, the SureColor P700 and SureColor P900 incorporate the same large-format printing technology used by the world's leading photographers into a sleek, compact design, allowing for the creation of exhibition quality prints from the convenience of a desktop.

Software and Service

SureColor P700 | P900

Advanced Black-and-White Driver Dialog
Complete Control of Grayscale Toning

Apple macOS 10.15.7 screen capture shown

■ Professional Photographic Printer Drivers

- Apple® macOS 10.7® - through the latest MAC OS® operating systems
- Microsoft® Windows® 10 - through Windows 7 (32-bit & 64-bit)

■ Unique Dot Screening

- Advanced algorithm to determine color mixing and variable dot size usage
- Fixed and three-level variable-sized droplet technology for outstanding print quality

■ Advanced Black and White Printing Technology

- Unique screening algorithm utilizes our three-level Black inks to produce professional level black-and-white prints
- Ability to Tone or adjust the B&W (sepia, neutral or other).

■ High Quality ICC Profiles

- Professional ICC profiles installed automatically with the driver
- Additional profiles offered as new media are introduced; can be easily added and used

Epson Media Installer Software

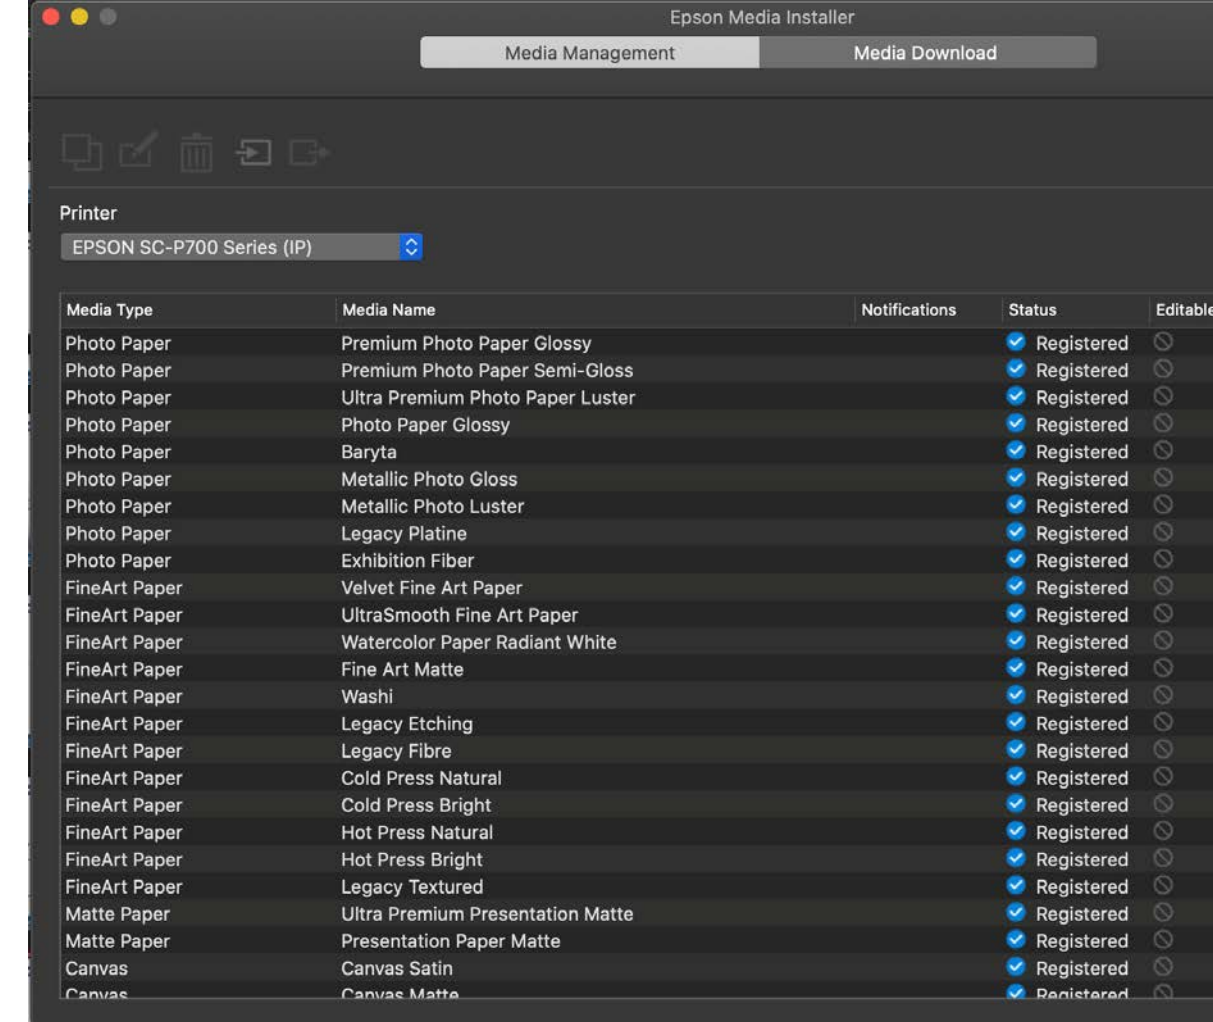

SureColor P700 | P900

■ One Step media installation process

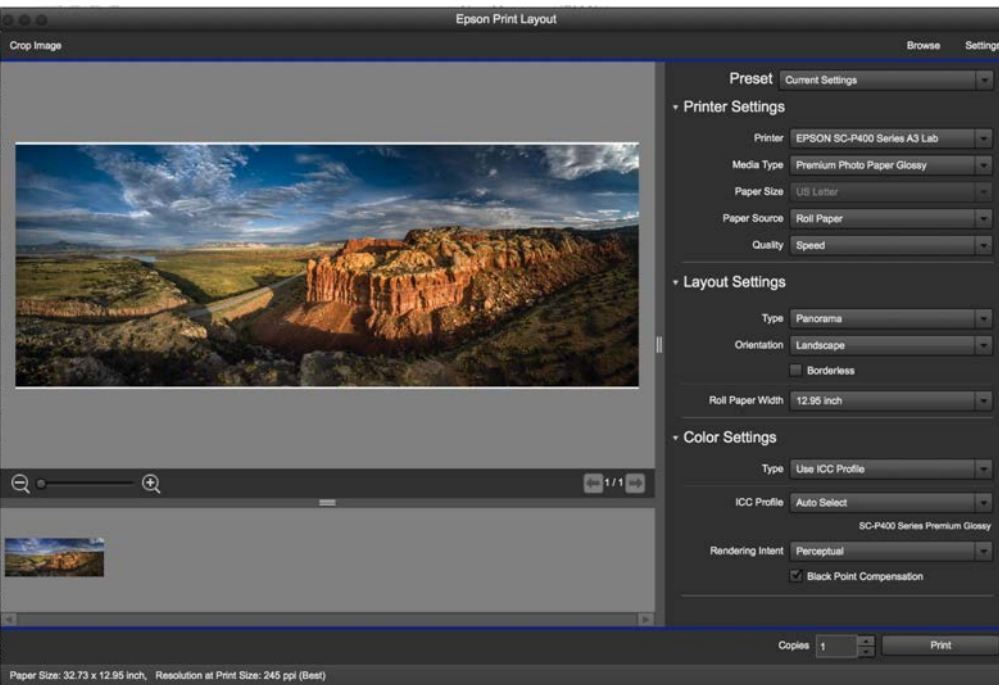

- Download new & additional media Epson Professional Media
- Configure printer mechanical parameters
- Install ICC Color Profiles

■ Epson Media Installer Simplifies Media Management

- Single, customized, media list on printer driver and control panel
- Unified Settings: Print Driver, Printer Control Panel, and ICC Profiles
- Updates available from a central server – Accessed from the driver (PC) or included Utility (MAC)

Loading Epson Professional Media is now easier than ever and is integrated into the driver

■ Simple WYSIWYG (what you see is what you get) Print Process

- Puts the application, operating system, and printer driver settings in a top to bottom flow within a single window
- Bypasses complicated operating system dialog boxes and options
- Choose printer settings, layout, and color settings from top to bottom, then print
- Works as an Adobe® Photoshop® plug-in or as a standalone application
- macOS and Windows versions

■ Gallery Wrap

- Control stretcher bar width, frame size, and overprint
- Full wrap, mirror, soft focus, and solid color options built-in

■ Full Color Management

- Complete color management including auto selecting color profiles based on media selection

■ Advanced Black-and-White Photo Mode Preview

- Applies settings from the driver and displays them using the monitor profile
- Fine tune black-and-white images with live preview

Professional iPhone / iPad Application

SureColor P700 | P900

Professional
Imaging

■ Simple, Professional, Mobile Print Process from a tablet or phone

First iPhone/ iPad application that allows professional, color managed printing- No Computer needed

Puts all complex settings in a top to bottom flow within a single window- Similar interface design as the Epson Print Layout software

■ Full, Professional, Color Management

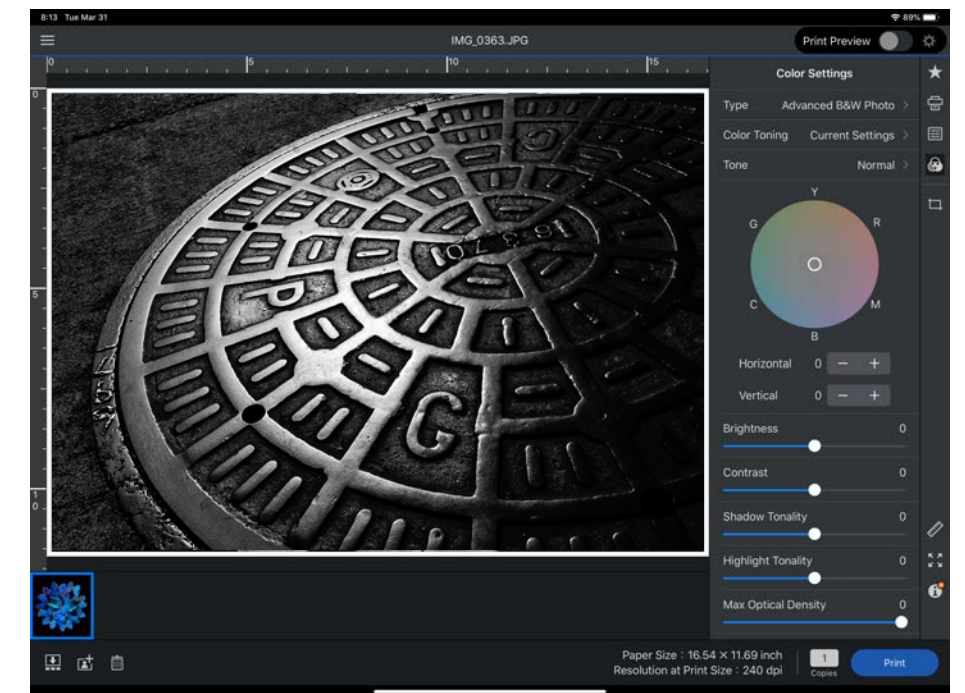

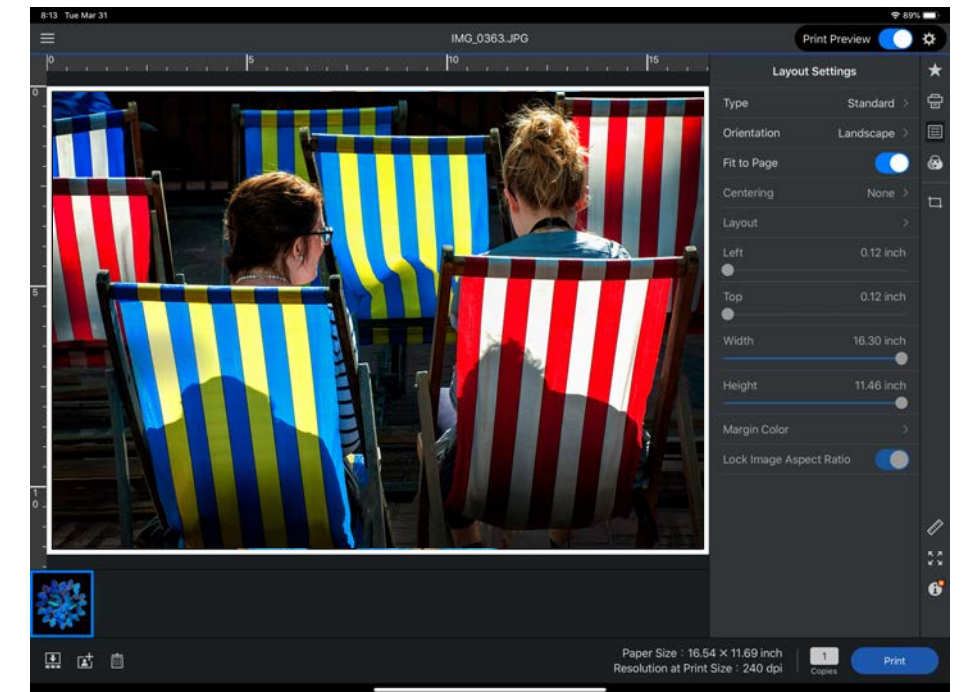

Complete color management including auto selecting color profiles

Support for all Epson Professional Media directly

■ Advanced Black-and-White Photo Mode Preview

Applies settings from the driver and displays them using the screen profile

Fine tune black-and-white images and realize their full potential

Specifications are Subject to Change Without Notice

1. Additional replacement Maintenance Box included at no additional charge
2. The SureColor P700 and P900 products use only genuine Epson-brand cartridges. Other brands of ink cartridges and ink supplies are not compatible and, even if described as compatible, may not function properly or at all. The included initial cartridges are designed for reliable printer setup and cannot be used as replacement cartridges or resold. The ink supplied with your printer is used during initial setup. In order to produce the highest quality prints, the printer needs to be and will be fully charged with ink. After setup is complete, the ink remaining in the cartridges, and the service life of the maintenance box will be limited. Even if ink levels are low, or the service life of the maintenance box is nearing an end, you can continue to print until the printer displays replacement instructions. However, we recommend being prepared with replacement ink cartridges.
3. Print Permanence in testing. WIR lightfastness ratings are based on accelerated testing of prints on specified media, displayed indoors, under glass. Actual print stability will vary according to media, printed image, display conditions, light intensity, humidity and atmospheric conditions. Epson does not guarantee longevity of prints. For maximum print life, display all prints under glass or UV-absorbing acrylic and protect them from prolonged high-humidity environments. Visit www.wilhelm-research.com for the latest information.
4. Vs. 17-inch professional photo printers available as of April 2020.
5. P700 Preferred Plus Service Plan Purchase Direct Only through www.epson.com/p700
6. The included initial cartridges are designed for reliable printer setup and cannot be used as replacement cartridges or resold. The ink supplied with your printer is used during initial setup. In order to produce the highest quality prints, the printer needs to be and will be fully charged with ink. After setup is complete, the ink remaining in the cartridges, and the service life of the maintenance box will be limited. Even if ink levels are low, or the service life of the maintenance box is nearing an end, you can continue to print until the printer displays replacement instructions. However, we recommend being prepared with replacement ink cartridges. An additional maintenance box is included with the printer.
