Orient Star Launches 2022 Limited-edition Models with the Theme of “Emotional Colours that Connect the World”

Orient Star will launch a series of three limited-edition watches inspired by the colours of the sky and sea that connect the world. The series includes three new models: Modern Skeleton and Semi Skeleton from the Contemporary Collection, and Semi Skeleton for her from the Classic Collection. Each watch features a new design reminiscent of the sea at dawn and is engraved with a limited-edition serial number on the case back.

This series of limited-edition models incorporating dial colours representing the sky and the sea connecting the world, began with the desire of Orient Star to be worn by people around the globe.

Inspired by the seaside at dawn, the three models depict beautiful sea and sky scenes just after the sun has risen. The pink gold colour on the bezel, hands, and indices symbolises the warm light of the sun, while the gradation from green in the center of the dial to navy blue on the outer edges symbolises the emerald green of the lapping waves and the dark blue of the sky.

The Modern Skeleton from the Contemporary Collection combines shades of green enhancing the distinct dial indicators, adding a touch of elegance to the sporty design (limited to 900 pieces worldwide). The combination of green and pink gold colours makes the simple Semi Skeleton look even more stylish (limited to 600 pieces worldwide). The new Semi Skeleton for her from the Classic Collection can be paired with these models (limited to 300 pieces worldwide).

About Orient Star

Established in Japan in 1951, Orient Star originates from a desire to create a mechanical watch that would become a “shining star” in every aspect including design, components, and manufacturing. Orient Star continues to shine and innovate its technology as well as the design of its beautiful timepieces. The Skeleton models, launched in 2021 are mounted with the latest movement with silicon escape wheel for longer power reserve and beauty, incorporating design inspired by the vast universe. The brand continues the theme of “NOWHERE, NOW HERE” (meaning, it was nowhere else to be found, but it's here now). Traditional skills to achieve intricate craftsmanship, in-house production system to create high-quality mechanical movements, and original designs, are all incorporated for these unique, made-in-Japan watches. Orient Star will continue to deliver these creations in Japan and throughout the world.

A Short History

- 1951 Orient Star is created.
- 1957 Orient Star Dynamic[※] is launched with hour, minute, and second hands on the central axis of the watch.
- 1971 The 46 series movement is created, combining both practicality and high accuracy. This formed the base movement of the Orient Star and Orient brand for 50 years.
- 1991 Mon Bijou[※] is launched, a skeleton model of high-quality and aesthetic appeal.
- 1996 The power reserve indicator, now an iconic feature of the brand, is integrated into the design.
- 2017 Orient Watch Co. Ltd. merges with Seiko Epson Corporation, a company with a strong watchmaking heritage and focus on precision engineering. Both organisations share a vision for innovation and high-quality design and craftsmanship creating a strong foundation for the future growth of Orient Star.
- 2017 The Mechanical Moon Phase, a cosmic timekeeper is launched as a symbol of this new collaboration. This marks a new era of watchmaking for Orient Star brand, allowing owners to experience the three joys of owning an Orient Star timepiece: the “pleasure to wear”, the “delight to see”, and the “joy of connecting with others”.
- 2021 Orient Star celebrates its 70th anniversary.
