

TRANSFORM YOUR WORKPLACE WITH COMPACT, FUSS-FREE SCANNING.

Epson's WorkForce DS-1630 is your perfect companion for easy and effortless digital storage. Its small, unobtrusive size also means a more organised and productive workspace.

ENGINEERED FOR BUSINESS

Clutter-free Workplace

Not only does the compact DS-1630 occupy little desk space, its built-in AC adapter ensures an orderly workplace at all times.

Convenient Scanning

Impressive scan speeds of up to 25ppm and a high ADF paper capacity of up to 50 pages minimise the need to manually replace documents.

Optional Network Connectivity

With the optional Network Interface Unit, the DS-1630 can be shared amongst a work group via Ethernet connectivity.

*Optional Network Interface Unit required for Ethernet connectivity.

Document scanning is simple and effective with the Workforce DS-1630. With fast speeds, fuss-free connectivity and a compact size, it is the workplace essential for easy digital storage.

Clutter-free Workplace

Not only does the compact DS-1630 occupy little desk space, its built-in AC adapter ensures you do not have to deal with messy cables. This allows you to enjoy an orderly workplace at all times.

Convenient Scanning

The DS-1630 reduces the need to manually replace documents with a high ADF capacity of up to 50 pages. Efficiency is achieved with scan speeds of up to 25ppm in simplex and 10ipm in automatic duplex (3-pass) modes. What's more, you can scan odd-sized documents easily.

Optional Network Connectivity

With the optional Network Interface Unit, the DS-1630 can be shared amongst a work group via Ethernet connectivity. Scanned images can be easily pushed to the desired PC within the network based on user's pre-defined scan settings on the Document Capture Pro software.

Ease of Use

A free stop hinge allows the lid to be easily opened and stopped at an angle between 15 to 70 degrees. This increases usability, even with one hand.

Epson Scan 2 Features

Text Enhancement

Improves text recognition when scanning text documents, whether in colour, greyscale or black-and-white. Removes background for better clarity, which is especially useful for double-sided printed documents.

Auto Area Segmentation

This function allows separate scanning of both image and text in a document. It also automatically detects and scans text in black-and-white mode and images in halftone, giving clear text quality while preserving image details.

Document Skew Correction

Automatically adjusts and straightens scanned images.

Misaligned document results in skewed scan

With Document Skew Correction, misaligned document is straightened when scanned

Colour Enhancement & Colour Dropout

Remove or enhance the visibility of ink signatures such as "Confidential" and "Urgent" stamps. Users can pick one of the preset colours (red, green, blue, pink, purple, yellow, orange, or all colours except black), or use the customised settings to dropout or enhance up to 5 colours of your choice with a single scan.

PDF Features for Added Convenience

The built-in OCR enables searchable PDF files. Secure your PDF files by setting a password to prevent unauthorised viewing, editing or printing.

Document Management

Document Capture Software*

Epson document scanners come bundled with document management software that allows you to easily manage your scanned files.

Easily scan, view, edit, save and transfer scanned documents. The software optically recognises barcodes, characters and blank pages in scanned documents to separate them into different folders. It allows you to create up to 30 customised job settings, making multiple scan jobs a breeze.

The software also provides quick access to post-scan destinations, including scan-to-print, email, Windows® Public Folder, FTP, Web Folder, and Scan-to-Cloud services such as Microsoft® SharePoint Server, Evernote®, Google® Drive™ and SugarSync®.

* Document Capture Pro (Windows), Document Capture (Mac OS X)

Document Capture Pro Server

Document Capture Pro Server helps to centralise your scanning and manage your fleet of scanners without the need to install drivers on individual computers.
