

**THE TRUE PROFESSIONAL
QUALITY PHOTO PRINTER.**

Take your creativity to the next level with the Epson SureColor™ SC-P407. The P407 packs in advanced features that you would expect in a professional photo printer, enabling you to explore all of your creative aspirations. The advanced Epson UltraChrome® Hi-Gloss 2 pigment ink set delivers an ultra-wide range of colours and smooth, vibrant skin tones. Epson's multi award-winning Micro Piezo™ printhead gives you high-quality prints with amazing intricate details and colour transitions that will surely take your breath away.

Versatile Media Handling Up to 1.3mm Thick Print 5760 dpi Print onto CD/DVD Wi-Fi iPrint

ENGINEERED FOR BUSINESS

Superior Print Quality

Epson UltraChrome® Hi-Gloss 2 ink delivers unprecedented print quality and durability, in vibrant and smooth colours.

Unsurpassed Media Flexibility

Supports a full range of media, from fine art and roll papers to panoramas up to 13" by 44", and even CD/DVDs.

Advanced Connectivity

Print your photos conveniently through Ethernet, over a wireless network or straight from mobile devices with Epson iPrint.

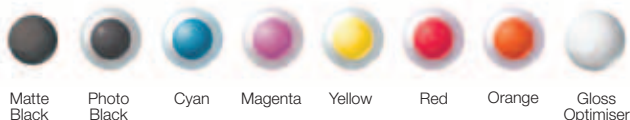

The Epson SC-P407 uses the industry-leading Epson UltraChrome® Hi-Gloss 2 pigment ink technology, giving you beautiful archival prints with an unprecedented glossy effect. It supports a range of media, including glossy, lustre, matte, fine art paper and canvas. Create images so stunning, you're sure to get rave reviews from the most demanding of critics.

Superior Print Quality

The advanced 8-colour pigment ink set in the SureColor™ SC-P407 gives you prints that look incredible, and will draw admiring comments for years to come. The UltraChrome® Hi-Gloss 2 ink set includes red and orange inks, giving you a wide range of colours and smooth, vibrant skin tones. Landscape photographers will also love the lush greens and richer blues that the ink set delivers.

To ensure that your pictures never lose their shine, the High-gloss Microcrystal Encapsulated inks dry instantly and offer immediate colour stability. That way, your treasured photographs remain highly smudge, fade and water-resistant. Both photo black and matte black ink cartridges are loaded simultaneously. Depending on the media you select, the P407 switches between the two black inks via the printer driver to match the media in use, achieving large print runs at an extremely low cost.

Unsurpassed Media Flexibility

A true professional-quality photo printer, the SC-P407 gives you the opportunity to showcase your best photos in a wide range of sizes and formats. It can print border-free photos from 4" x 6" up to 13" x 19", on anything from glossy, lustre, matte and fine art media, including canvas to thick board up to 1.3mm thick. For greater flexibility, it can also print on inkjet-printable CD/DVDs and roll paper for panoramas up to 13" x 44".

Whether you are printing for a gallery display or doing customised printing on DVDs, the SC-P407 has the capability and versatility to deliver outstanding results to fulfil the most demanding requirements.

Advanced Connectivity

The SC-P407 features a range of connectivity options. A built-in 100 Mbit Ethernet enables wired networking, while the latest Wi-Fi CERTIFIED™ 802.11n technology enables the fastest wireless connectivity to date. For direct connections, the SC-P407 offers a Hi-Speed USB option.

Epson Creative Print

The Epson Creative Print app lets you print photos from Facebook, create personalised CD/DVDs, greeting cards and stationery or even turn your photos into fun colouring book projects.

Epson iPrint

Print from and scan directly to your smart devices or online cloud storage services.

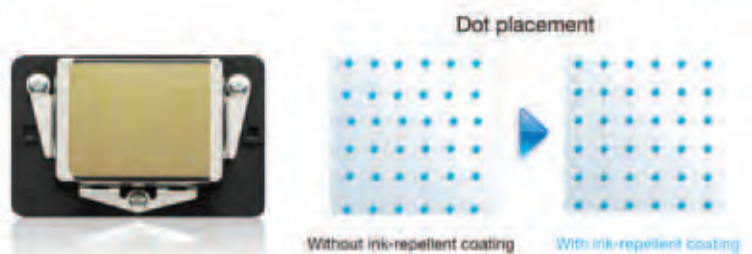

Enhanced Print Mode

The SC-P407's wide range of print modes gives you control over just about any printing situation that you can think of, delivering brilliant quality prints every time. Besides boosting blue and green saturation, the PhotoEnhance mode on the SC-P407 automatically enhances shadows, details and colour brightness in the darker areas of images.

Award-winning Printhead Technology

The SC-P407's 8-channel Micro Piezo™ printhead is a marvel in inkjet technology - and the proof can be found showcased in many of the world's finest art galleries. It creates droplets as small as 1.5 picolitres and places them with remarkable accuracy and precision, offering you unrivalled details in your prints.

The Micro Piezo™ printhead also features an ink-repelling coating, which improves print quality and increases reliability. A built-in sensor saves time by enabling automatic printhead alignment and automatic nozzle cleaning, ensuring trouble-free printing, while prolonging the life of your printer.

Epson Print Layout Manager

The new Epson Print Layout interface takes the guesswork out of printing, so you can preview images before you print them from applications like Adobe® Photoshop®, Adobe® Lightroom® or Nikon® ViewNX-i – putting you in charge and saving wasted prints.

PARTNERS IN PERFECTION

Epson Signature Worthy Media

Designed in collaboration with the world's leading creative professionals, Epson Signature Worthy Papers have been developed and tested at the highest levels to work in concert with Epson's industry-leading professional printers and inks.

Perfection™ V800 Photo Scanner

The V800 photo scanner boasts a scanning resolution of up to 6400 dpi, with an Optical Density of 4.0 D-max for film scanning, enhanced by energy-efficient ReadyScan LED technology. So you get brilliant high-resolution images, with zero warm-up time.
