Solutions for Education

Today’s rapidly changing educational landscape demands intelligent, easy-to-use technology that inspires new ways of thinking. At Epson, we have over 40 years of experience developing groundbreaking education tools to help engage students, promote collaboration, and support faculty and administrators. From the classroom to the administrative office, our cost-effective, reliable and versatile Brighter Futures® solutions will help you shape your curriculum and drive the future of education at your institution.

Designed for the Classroom and Beyond

Enhance every student’s learning experience with dynamic, user-friendly imaging technology that invites participation and engages viewers in any environment, whether it’s a classroom, study space, lecture hall, lab, athletic facility or gymnasium. From advanced displays to projectors, printers to scanners, Epson’s comprehensive suite of education solutions will meet any need.

Budget-friendly Solutions

We understand the strategic planning that goes into budget initiatives — that’s why our Brighter Futures program goes beyond special pricing. Our products deliver outstanding ROI, tremendous scalability, solid reliability, and easy integration with existing infrastructure and systems to help institutions achieve a better bottom line. Find the latest pricing information online at www.epson.com/edguide

Reliability You Can Count On

Our products are designed to work day in and day out to serve students, faculty, staff and guests at your institution. Offering decades of road-tested reliability, Epson® education solutions are backed by one of the world’s finest customer care programs, with service and support that go the extra mile.

Projectors and Displays

Whether you’re searching for state-of-the-art laser displays, networked classroom projectors or visual solutions for larger rooms and venues, Epson offers a comprehensive lineup of displays and projectors that are designed to connect students and teachers in ways never before imagined.

We understand that — just like no two students are alike — each classroom and learning environment offers a unique space for exploration and understanding. From interactive whiteboarding solutions that make collaborative, personalized learning a regular part of instruction to high-brightness, large-venue products for well-lit spaces, Epson is education’s #1 choice for projection technology.

Display Size Makes a Difference in the Classroom

Now more than ever, display size is an essential feature for socially distanced learning spaces. A recent study shows that 55 percent of viewers cannot read content on a 70” display in an average-sized room. That’s why it’s important that a classroom display is large enough for every student to clearly see it in an average-sized classroom — and read what’s on it from anywhere in the room. For many classrooms, flat-panel displays are simply too small to give students optimum readability. In contrast, Epson offers the flexibility to maximize readability for all students. To understand the connection between display size and viewing distance, and for help in making sure your display image size meets your goals, visit www.epson.com/displaysize

Visibility in different rooms and seating arrangements

For detailed information on why "Display Size Matters" for classrooms, including the 4x/6x/8x rule, visit www.epson.com/classroomdisplaysize

See page 29 for projector disclaimers.
Determining Optimal Display Sizes for Different Rooms
To optimize visibility, productivity and interaction, consider both room size and use.

<table>
<thead>
<tr>
<th>GENERAL RULE OF THUMB</th>
<th>Study Spaces/Seminar Rooms/Medium-sized Rooms</th>
<th>Large Rooms</th>
<th>Lecture Halls</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 16' long, Active Collaboration</td>
<td>Desktop Equivalent Visibility (DEV)</td>
<td>Longer than 13', Passive Participation</td>
<td>4/6/8 Rule, 4x Multiplier</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Longer than 18', Passive/Active Blend</td>
<td>4/6/8 Rule, 6x Multiplier</td>
</tr>
</tbody>
</table>

**Study Spaces, Seminar and Medium-sized Rooms**

**Use the Desktop Equivalent Visibility (DEV) method.** The DEV method uses the OSHA standard that sizes monitors for individuals sitting at their desks and transfers this standard to the group meeting space. The key point is that the content being shared needs to migrate over from an individual’s viewing experience to a group’s active collaboration experience. **Chart 1** provides recommended display sizes based on the DEV standard to optimize the environment for group collaboration.

**Large Rooms**

**Use the 4x portion of the 4/6/8 Rule.** A room of this size can probably accommodate 15 or more participants, which means it will typically be used for presentations/review (passive participation). **Chart 2** shows acceptable display sizes based on four times (4x) the display height, as noted in the 4/6/8 Rule, which is the best standard to use for larger rooms. This enables analytical viewing and critical decision-making, as anticipated by 4/6/8 Rule recommendations.

**Lecture Halls**

**Use the 6x portion of the 4/6/8 Rule.** Lecture halls feature visual displays that are used to share materials developed specially for large audiences. The ideal viewing in this space, per the 4/6/8 Rule, is six times (6x) the display height, which applies to basic viewing/decision making. **Chart 3** illustrates the applicability of different display sizes in lecture halls at the 6x height parameter.

Epson Technology Advantages

Epson 3-chip, 3LCD technology delivers high color brightness, uncompromising image quality and road-tested reliability, making our visual solutions an ideal fit for any learning space. Plus, they offer large, easy-to-see images and the latest in connectivity and support for Chromebooks, tablets and smartphones.

Wirelessly share content from multiple devices, including Chromebooks

Designed for today’s BYOD and 1:1 classrooms, Epson iProjection™ is a robust wireless solution offering true multi-platform support for Chromebooks, PCs and Mac® computers, as well as iOS® and Android™ devices. Students and teachers alike can wirelessly display documents, images, webpages and more from their devices for the entire classroom to see on the big screen. Advanced functionality includes two-way content sharing — available with select Epson models — annotation, real-time mobile camera display and more.

Plus, Epson iProjection’s built-in Moderator feature — available for both mobile devices and computers — allows teachers to connect up to 50 devices, then manage and display content from up to four students at a time. It’s the perfect tool for sharing a variety of content at once, or for comparing students’ work side by side.

And, Epson iProjection for Chromebook™ makes it easy for students to wirelessly share their Chromebook screens with the rest of the class. With full mirroring capabilities, the app allows students to display content from Google Docs™, Google Slides™ and Google Sheets™, as well as Web content from their Chrome™ browser (audio support not available for mirroring).

Virtually maintenance-free laser light source

As a world leader in digital 3LCD projection solutions, Epson continues to drive the future of classroom and projection technology with its full suite of laser displays and projectors. Featuring lamp-free, long-life, laser light engines, Epson laser solutions achieve new levels of performance and reliability.

Why choose laser?

- **Breakthrough laser technology** — long-life laser light engine provides up to 20,000 hours of virtually maintenance free light source life

- **Outstanding color performance and contrast** — get exceptional, true-to-life color reproduction and deep, dark blacks for stunning visuals you can count on for an array of applications

- **Instant Off®/On** — displays and projectors reach maximum brightness and turn off almost immediately, without having to warm up or cool down

- **Reliable operation** — ideal for applications requiring continuous projection

Large-venue Projectors

Designed for exceptional performance, Epson large-venue installation projectors are powerful performers for virtually all large spaces, including auditoriums, lecture halls, event centers, cafeterias, stadiums and more. Available in laser and lamp-based models, these large-venue projectors feature high lumens for bright, colorful images and utilize advanced display technologies to create immersive experiences that will captivate any audience.

Visit www.epson.com/largevenue for more information and to compare models.

Why choose Epson for your large-venue projection needs?

- **3-chip, 3LCD technology** — for high color brightness
- **Industry-leading service and support** — limited warranty of 3 years or 20,000 hours, whichever comes first, plus free Next-Business-Day replacement with postage-paid returns
- **Epson 4K Enhancement Technology** — a revolutionary technology that accepts 4K signal and enhances the native resolution for output that surpasses Full HD image quality
- **Wide selection of powered lenses with lens memory** — including zero- and negative-offset 0.35 ultra short-throw lenses for shallow spaces
- **Diverse connectivity options** — including 3G-SDI, HDBaseT™, HDMI®, DVI-D, and wireless
- **Emulation Mode** — saves time and money when replacing other manufacturers’ projectors
- **Compatible with leading control systems** — such as Crestron®, AMX®, Extron XTP®, Control4®, and DMX/Art-Net®

Large-venue Installation Projectors

Delivering up to 15,000 lumens\(^8\) and extraordinary brightness and performance, the Pro L1000 Series are lightweight, space-saving, large-venue installation laser projectors that feature native Full HD WUXGA\(^*\) with Epson 4K Enhancement Technology\(^6\). And, they support a full range of inputs for seamless integration.

**FEATURES**

- **Up to 15,000 lumens color and white brightness**\(^8\) — Epson is the first projector manufacturer to combine inorganic 3LCD panels with an inorganic phosphor wheel to achieve high brightness and reliability
- **Wide selection of powered lenses with lens memory** — including a negative-offset 0.35 ultra short-throw lenses for shallow spaces\(^**\)
- **Versatile connectivity** — supports the full range of inputs, including HDBaseT, HDMI, 3G-SDI\(^*\), DVI-D, VGA and 5-BNC, for easy integration with any system
- **Industry-leading service and support** — limited warranty of 3 years or 20,000 hours, whichever comes first, plus free Next-Business-Day replacement\(^2\) with postage-paid returns

**RECOMMENDED ACCESSORIES**

- HDBaseT Transmitter
- Low Ceiling Mount
- High Ceiling Mount
- Wireless LAN Module

See pages 27-29 for product codes and more information.

**CONNECTIVITY**

Product shown is Pro L1755UNL. Visit www.epson.com/support to see the connectivity options for all models listed.

---

\(^8\) Specifications vary by model.
\(^**\) Lens compatibility varies by model.

See page 13 for details.
Epson’s most compact interchangeable lens laser projectors, offering 6,000 – 7,000 lumens\(^8\), the Pro L10 Series are compatible with a wide selection of optional lenses for extraordinary installation flexibility. WUXGA models include revolutionary Epson 4K Enhancement Technology\(^6\) for output that surpasses Full HD.

### FEATURES

- **Installation made easy** — interchangeable lens options, lens shift capability, HDBaseT inputs, 360-degree installation
- **Dynamic projection capabilities** — advanced built-in Edge Blending, image warping and curved-surface capability for a variety of applications
- **Web-based remote management** — control and monitor projector status via a web browser
- **Epson 4K Enhancement Technology\(^6\)** — a revolutionary technology that accepts 4K signal and enhances the native resolution for output that surpasses Full HD image quality
- **Industry-leading service and support** — limited warranty of 3 years or 20,000 hours, whichever comes first, plus free Next-Business-Day replacement\(^5\) with postage-paid returns
- **Wide selection of powered lenses with lens memory** — including a zero-offset 0.35 ultra short-throw lens for shallow spaces\(^**\)

Optional Ultra Short-throw Lenses

Project supersized images using Epson’s ultra short-throw lenses. Install the projector just inches from the screen or wall and still get huge, bright, crisp projection. Featuring a 0.35 throw ratio and zero offset, the ELPLX01 and ELPLX02 are ideal for installation in narrow or tight spaces. And, wide lens shift gives you even more flexibility when you need it.

Using this lens, you can project from above or below for a dynamic screen or wall display. All projected images in this catalog are simulated.
Large-venue Projectors — Optional Lenses

### Lenses Compatible with Pro G7000 Series Projectors and the Pro L1060U, Pro L1070U, Pro L1075U, Pro L1060W, Pro L1070W

Epson offers an array of projector lenses to fit all types of applications and requirements.
Interactive Display Solutions

Epson’s BrightLink® collaborative display solutions connect people, technology and ideas into one seamless digital experience, facilitating better communication by turning any flat surface into an interactive area. BrightLink is the perfect display solution for classrooms, study spaces, administrative offices and more. Built for today’s learning environments, these displays offer whiteboard sharing for local, on-campus collaboration as well as engagement with remote participants anywhere in the world.

Epson also offers the high-performance, network-ready BrightLink Series interactive displays, available in laser models. The budget-friendly BrightLink offers the lowest cost image per square inch vs interactive flat panel displays*. Designed for classrooms, seminar rooms, study spaces and more, these displays provide a fully integrated system that eliminates the need for a dedicated electronic whiteboard. Turn existing dry-erase whiteboards, plain walls and tables into interactive display areas measuring from 60" up to 100" with no extra cost.

For more information, visit www.epson.com/brightlink

* Versus comparable interactive flat panel displays measuring 65-inches and above. PMA Research data for 2020 1Q, North America
**Interactive Displays**

With images up to 120”, these flexible displays breathe new life into ordinary walls and dry-erase boards, eliminating the need for dedicated electronic boards or space-consuming flat panels.

Bright, dynamic and easy to use, BrightLink interactive displays are designed to maximize student collaboration and engagement. Instructors can share presentations – or students’ work – from laptops, notebooks, tablets, and iOS and Android™ mobile devices².

### Features

- **Fully integrated, pen- and finger-based interactivity** — turns almost any existing dry-erase board or plain wall into an interactive workspace (finger-based interactivity available on select models)

- **Easy content sharing with iProjection** — share images between the big screen and wirelessly connected mobile devices, for individualized learning²

- **Brilliant image quality up to 1080p HD** — with up to 5,000 lumens of color brightness and 5,000 lumens of white brightness⁶

- **Wireless support** — display Chromebook, iOS, Android, Mac and PC screens²

### Recommended Accessories

- Interactive Touch Module V12H007A23

See page 29 for projector disclaimers.
Ultra Short-throw Displays

These bright, versatile displays feature built-in ultra short-throw lenses for images up to 100” (diagonal) from as little as 11” away, with minimal shadows and glare. The lamp-based PowerLite 600 Series displays and laser-based 700/800 Series displays feature advanced wireless capabilities and connectivity, including laptop, notebook, tablet and mobile device support.
These portable powerhouse projectors bring stunning high-definition images to medium- and large-sized classrooms and lecture spaces. Select models feature HDBaseT for easy installation, as well as enterprise-level wireless security and Miracast® screen mirroring from mobile devices.

### POWERLITE 2000 SERIES

**Projectors for Large Rooms and Rooms with High Ambient Light**

These portable powerhouse projectors bring stunning high-definition images to medium- and large-sized classrooms and lecture spaces. Select models feature HDBaseT for easy installation, as well as enterprise-level wireless security and Miracast® screen mirroring from mobile devices.

### FEATURES

- **Extraordinary versatility** — small enough for moving from room to room; features a full array of connectivity options, including 2x HDMI, MHL®13, VGA, RJ-45 and more
- **Robust integrated wireless networking** — enterprise-level security for peace of mind; compatible with WPA, WPA2-PSK and WPA2-EAP security protocols (optional on some models)
- **Simultaneously display and control multiple device screens** — wirelessly share content from up to four devices with Epson iProjection’s built-in Moderator feature
- **Easy wireless content sharing** — share images between the screen and wirelessly connected laptops, notebooks, tablets, iOS and Android devices

### RECOMMENDED ACCESSORIES

Laser Projectors for Large Rooms and Rooms with High Ambient Light

Featuring a lamp-free laser light engine rated for up to 20,000 hours⁴, these bright laser projectors offer virtually maintenance-free operation for the life of the optical engine⁹. Ideal for medium- and large-sized classrooms and training halls, select models feature HDBaseT for easy installation. Enterprise-level wireless security is also available on select models, or by purchasing an optional wireless LAN module.

FEATURES

• Premium quality and installation flexibility — up to Full HD WUXGA resolution and a 1.6x optical zoom for great images, wherever you choose to install the projector

• Manage projectors and send announcements remotely — easy network connectivity; software included

• Simultaneously display and control multiple device screens — wirelessly share content from up to four devices with Epson iProjection’s built-in Moderator feature3

• Wireless support — display Chromebook, iOS, Android, Mac and PC screens2

RECOMMENDED ACCESSORIES

• Wireless LAN Module

• DC-07, DC-13 and DC-21 Document Cameras

See pages 27–29 for product codes and more information.

CONNECTIVITY

Product shown is PowerLite 992F. Visit www.epson.com/support to see the connectivity options for all models listed.

*Standard limited warranty is 3 years for laser models and 2 years for lamp models. Brighter Futures pricing includes 2-year warranty extension for laser models and 1-year for lamp models.
Ultra Portable and Travel-friendly Projectors

These ultra lightweight, thin and bright mobile projectors offer powerful performance in a super-slim design. And, they include built-in tools for quick and simple setup virtually anywhere. Get amazing performance, ease of use and brilliant output — all from these ultra portable projectors.

### FEATURES
- Portable, lightweight and travel friendly — projectors weigh just 4 lb
- Wireless support — display Chromebook, iOS, Android, Mac and PC screens²
- Easy setup and image adjustments — auto Screen Fit, auto Power On, auto vertical keystone correction

### RECOMMENDED ACCESSORIES
- ES1000 Screen
- ES3000 Screen
- DC-07, DC-13 and DC-21 Document Cameras

See pages 27–29 for product codes and more information.

A convergence of lighting and display technology, LightScene laser projectors captivate audiences by simultaneously illuminating and projecting on virtually any surface or material. This groundbreaking solution elevates ordinary spaces into stunning visual environments, unleashing dynamic, experiential content. Utilize LightScene to display your school logo, highlight donors, direct students and staff to the library or a particular lecture hall, or even animate digital mascots.

**FEATURES**

- **Create head-turning digital signage** — illuminate and project on virtually any surface or material for basic signage, wayfinding, school branding and promotional messaging
- **Blends in discreetly** — sleek, white spotlight design easily blends into its surroundings, offering vertical and horizontal rotation, with flexible mounting on tracks, floors, walls or ceilings
- **Breakthrough laser technology** — provides up to 20,000 hours of light source life\(^4\), plus a sealed optical engine, for amazing image quality matched by outstanding performance
- **Robust management and control tools** — via Epson’s web-based application or over the network with Crestron, Art-Net and more

Display and Projector Accessories

**Connectivity**

**HDBaseT Transmitter** | V12H547020 (ELPHD01)
Maximize convenience with this optional HDBaseT transmitter box, a great companion piece to select models in the PowerLite L Series, 2000 and 5000 Series, as well as the Pro G. Three inputs are featured for easy installation: HDMI, LAN and RS-232 to output into a CAT-5/6 cable.

**Wireless LAN Module** | V12H731P02 (ELPAP11)
These high-speed, wireless network adapters plug directly into select Epson projectors and displays, allowing quick and easy access to the LAN or peer-to-peer networks without wires or cables. When used with Epson Projector Management Software, Network Projection and Multi-PC Projection software, they allow users to remotely access and control projectors over the wireless LAN.
- Compliant with 802.11 b/g/n standards
- Compatible with PC or Mac
- Uses USB Type-A connector
- Able to transmit audio

**Sound Enhancement**

**Active Speakers** | V12H467020 (ELPSP02)
Enhance the learning experience with 30 W of rich, powerful sound. This active speaker set (with built-in amplifiers) lets students clearly hear lessons. The ELPSP02 speakers can be easily mounted on the wall and used with any Epson projector or display, with or without the PowerLite Pilot.

**Audio/Visual Control Systems**

**PixiePlus™** | ELPSP10
Featuring a sleek, space-saving design, PixiePlus is an affordable, easy-to-use projector control system designed for in-wall installation.
- Easy installation — installs in any standard wall box
- Save both money and energy — automatic projector shutdown timer feature

**PowerLite Pilot 3 Connection and Control Box** | V12H927020 (ELPCB03)
Maximize cable management and control for your classroom projector with the PowerLite Pilot 3, a convenient wall-mounted A/V connection and control box for Epson short-throw and ultra short-throw projectors. Designed to support an array of devices, the PowerLite Pilot 3 streamlines source switching and volume control. With 3x HDMI control buttons (including 1 MHL13), you can select from an array of connected classroom devices — and even display two sources side-by-side onscreen at once using your projector’s Split Screen feature14. You can also use it as an extension box to expand the range of your cables and increase flexibility.

**Whiteboards and Screens**

**100” Whiteboard for Projection and Dry-erase** | V12H83100
A combined projection and dry-erase surface, this 100” whiteboard is the ultimate projection partner for classrooms. Ideal for use with your widescreen WXGA projector.

**100” Whiteboard (16:9)** | V12H006A01
Designed for Epson PowerLite and BrightLink ultra short-throw displays, the 100” Da-Lite® IDEA™ Screen offers a matte-finish, magnetic surface with 2.5 gain, which enables high-quality projection with minimal glare or reflection on a dry-erase surface.

**100” Whiteboard (16:10)** | V12H831001
This 100” whiteboard features a matte-white, low-gloss surface. This whiteboard enables high-quality projection with minimal glare or reflection and is ideal for use with widescreen projectors.

See page 29 for projector disclaimers.
Display and Projector Accessories

Interactive Pens

Replacement Pens | Orange V12H773010 (ELPPN05A) / Blue V11H774010 (ELPPN05B)
These two pens offer interactive drawing and mouse capabilities and simultaneous operation with BrightLink 500 Series, 600 Series and 710Ui interactive displays. Powered by a single AA battery, the pens include a convenient on/off power button with Sleep Mode to prolong battery life.

Mounting Accessories

Short-throw Wall Mount | V12HA39010 (ELPMB64)
Designed exclusively for use with Epson’s PowerLite 500 Series short-throw displays, as well as the PowerLite 530 for SMART and BrightLink 530Wi, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation, while the vertical and horizontal adjustments provide easy image alignment. And, when your short-throw display is attached to the wall mount, there is less shadow interference and glare, which ensures a more optimal presenting and viewing experience.

Ultra Short-throw Wall Mount | V12HA06A05 (ELPMB62)
Designed exclusively for use with Epson’s PowerLite 600/700/1480 Series ultra-short throw displays, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation from 53” – 100”, while the vertical and horizontal adjustments provide easy image alignment. And, when your ultra short-throw display is attached to the wall mount, there is less shadow interference and glare, which ensures a more optimal presenting and viewing experience.

Ceiling Mount | V12H963210 (ELPMB60W) / V12H963110 (ELPMB60B)
Easily project high-quality images from ceilings with the ELPMB60 Ceiling Mount*. Designed with durability in mind, this state-of-the-art mount provides optimal stability for ceiling and wall-mounted applications. The sleek mount integrates into a variety of settings and features a rotating ball joint, plus image tilt15, for convenient projection onto whiteboards, screens and more.

Lighting Track Mount | V12H964220 (ELPMB61W) / V12H964120 (ELPMB61B)
Control the distance and orientation of your projector displays with the sleek ELPMB61 Lighting Track Mount*. Designed with ease-of-use in mind, the ELPMB61 Lighting Track Mount quickly and efficiently connects Epson projectors to compatible lighting tracks16 for hassle-free integration and enhanced mobility. Featuring a ball joint for 360-degree horizontal and 90-degree vertical movement, plus image tilt15, this mount is a convenient, flexible solution for projecting onto screens, walls and more.

Low Ceiling Mount / High Ceiling Mount | V12H802010 (ELPMB47) / V12H803010 (ELPMB48)
Specifically designed for use with Epson Pro G and L Series projectors, these heavy-duty mounts support up to 165 lb and offer independent adjustments for vertical tilt, horizontal roll, and rotation. The Low Ceiling Mount offers a low-profile, aesthetic design, while the High Ceiling Mount features MicroZone adjustments for fast, precise projector registration. And, their sleek, silver finish blends in with ceilings.

Adapter Plate for SMART UF55/65/70/75 Series Mount | V12H870001
A cost-effective solution for extending the life of previous interactive investments, this easy-to-install bracket enables a quick retrofit solution for SMART Board interactive systems using select Epson projectors.

Universal Projector Kit | V12H808001 (ELPMBPJG)
Includes a Universal Projector Mount, 3” (76 mm) Fixed Extension Column and Speed-Connect Ceiling Plate.

* Projector not included.
Custom Micro-adjustable Projector Mount | V12H809001 (ELPMBPRH)
Specifically designed for use with the Epson Pro G and PowerLite 2000 and 5000 Series.

Speed-Connect Above-tile Suspended Ceiling Kit | V12H804001 (ELPMBP04)
Provides a host of features that ensure a faster, more secure installation of most lightweight, front-projection models.

Suspended Ceiling Tile Replacement Kit | V12H805001 (ELPMBP05)
Designed to replace one 2’ x 2’ ceiling tile or sit above a suspended ceiling.

Speed-Connect Suspended Ceiling Tile Replacement Kit | V12H806001 (ELPMBP06)
Provides features that ensure a faster, more secure installation of most lightweight, front-projection models.

6” Speed-Connect Ceiling Plate | V12H807001 (ELPMBP07)
Offers a clean look and time-saving cable management features while focusing on the speed of installation.

9” – 12” Adjustable Extension Column | V12H810001 (ELPMBC02)
Saves installation time and maximizes security.

6” Fixed Extension Column | V12H811001 (ELPMBC03)
Lowers projectors to the desired height.

3” Fixed Extension Column | V12H812001 (ELPMBC04)
Lowers projectors to the desired height.

Replacement Lamps FOR AS LOW AS $59
Epson offers low-cost, user-replaceable lamps for our education customers. Designed to last, these lamps offer a low overall total cost of ownership with your Epson projector.

Projector Disclaimers
1 Leading 70” class 4K resolution flat panel in a 22” (width) by 27” (depth) classroom-style arrangement. Participants were seated 8’ to 27’ from the display. When asked to copy down six short items of information from slides being displayed, 58 percent of students ages 12 – 22 copied at least one item incorrectly. Based on U.S. research conducted by Radius Research 2016.

2 For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details.

3 Moderator control, Image sharing, Annotation tools, Connecting via QR code and Projector Remote are not available on Epson iProjection for Chromebooks.

4 Actual hours may vary depending on mode and usage environment. For the Pro L Series laser projectors, 20,000 hours is the estimated life when the projector is used in Normal Mode in an ordinary environment. The projector has a limited warranty of 3 years or 20,000 hours, whichever comes first; for the BrightLink Pro 1470Ui, BrightLink 710Ui, and PowerLite 700U, 20,000 hours is the estimated projector life when used in Normal Mode. The projector has a standard limited warranty of 3 years or 20,000 hours, whichever comes first.

5 Expedited shipping not available in all areas. Road Service orders must be in by 3 p.m. Eastern Time for Next-Business-Day delivery.

6 4K Enhancement Technology shifts each pixel diagonally by 0.5 pixels to double the resolution and surpass Full HD image quality.

7 Emulation Mode is limited to certain code sets and may not support all codes. Contact Epson Support for the latest supported sets.

8 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

9 Life of the optical engine may vary depending on mode and usage environment. The projector has a standard limited warranty of 3 years.

10 Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.

11 Requires Easy Interactive Driver. Certain functionality is only available through Epson Interactive Tools (EIT) software. For a list of supported operating systems, visit www.epson.com

12 Full HD WXGA (1920 x 1200), WXGA+ (1400 x 1050), WXGA (1280 x 800), XGA (1024 x 768), SVGA (800 x 600).

13 Includes one Mobile High-Definition Link® (MHL) HDMI port.

14 Split Screen feature requires remote control. Consult your user manual for input combinations.

15 +/- 30 degrees on select models.

16 Track not included.
Document Cameras

Journey to the intersection of discovery and understanding with Epson document cameras, which allow students and teachers to explore content, objects and complex concepts in real time. With features like one-touch auto focus, digital zoom, HDMI connectivity and a microscope adapter, these essential instructional tools elevate math, science, technology and arts lessons into engaging and dynamic learning experiences.
Engage students like never before with Epson’s easy-to-use document cameras. Capture and display books, 3D objects and experiments with amazing HD 1080p resolution. Display content from your tablet, PC or Mac computer, record lessons for viewing at a later time, and give students a more interactive learning experience.

### Easy-to-use Document Cameras

#### FEATURES

- **Astounding clarity and remarkable detail** — with one-touch auto focus
- **Share magnified images** — microscope adapter included on the DC-13 and DC-21; supports many standard microscopes
- **Record and share audio/video lessons** — built-in microphone and included software; one-touch A/V recording
- **Convenient Freeze and Capture buttons** — easily pause and/or resume the image

#### CONNECTIVITY

Product shown is DC-21. For more information, visit [www.epson.com/documentcameras](http://www.epson.com/documentcameras)

*SD card not included. Not all SD cards are supported.*

Printers

Bring color printing back to school with Epson printers and all-in-ones. Ideal for educators, administrators and students alike, this innovative lineup — including our groundbreaking Supertank printers and WorkForce Pro HC printers — makes color printing affordable again.
Epson's line of WorkForce® and WorkForce Pro Supertank printers feature revolutionary ink replacement technology. They offer an unbeatable combination of value* and convenience with super-high-capacity ink bottles and packs. These printers come with 2 years of ink guaranteed*, so you can print thousands of pages black/color** before replacing ink.

Maximize convenience, savings, quality and reliability with these incredible printers. Supertank printers offer the freedom to print in color, with less impact on your supplies budget — plus you’ll save up to 80 percent with low-cost replacement ink bottles vs. ink cartridges*** (ST-2000, ST-3000 and ST-4000 only). It’s the smart choice for high-volume, high-quality, hassle-free printing.

**  Promo valid for ET-M1170, ET-M2170 and ET-M3170 printers purchased through authorized Epson resellers only from 12/1/19 to 9/30/21. Product must be registered before 10/31/21. Limit one 532 ink bottle per claim. Retain your empty 532 ink bottle for submission along with rebate form. Promotion applies to ink only. **ST-2000/3000/4000 included ink bottle yields based on the ISO/IE 24712 pattern with Epson's methodology. WF-C5790 and WF-M5799 Supertank included ink pack yields are estimated based on ISO/IEC 24711 test in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors must be available for printing. For more information, visit www.epson.com/inkinfo

***Savings comparison based on the purchase cost of replacement ink bottles and the cost of enough cartridges to achieve the total page yields of the bottles using the manufacturers’ online prices and yields for the highest-capacity cartridges for the best-selling similarly featured consumer inkjet printers priced at $499 USD or less per industry available data, October 2020. Actual savings will vary based on print tasks, print volumes and usage conditions.

---

### Features

- **Supertank monochrome MFP** — comes with up to 2 years of ink guaranteed*
- **Save up to 80 percent with low-cost ink replacement bottles vs. ink cartridges*** — features easy-to-fill, supersized ink tanks (ST-2000, ST-3000, ST-4000 only)
- **Chromebook printing right out of the box** — no additional software is required
- **Ultimate wireless solution, plus Ethernet** — easy iPad®, iPhone®, Android™, tablet and smartphone printing; includes Wi-Fi Direct® for network-free printing
- **Epson Solutions Suite Ready** — for WF-C5790, WF-M5799

**See page 38 for printer disclaimers.**
Classroom and Workgroup Printers

Classrooms evolving towards 1:1 learning and mobile device usage are on the rise. Epson printers have evolved, too, with a full portfolio of desktop and mobile printers that come equipped with wireless connectivity and mobile device printing.

Ideal for fast, high-volume, low-cost printing, Epson WorkForce and WorkForce Pro printers offer heavy-duty, reliable performance, plus easy, cost-effective print management for your entire education network.

FEATURES

- **Performance you can count on** — amazing quality, fast speeds and exceptional reliability to meet your classroom printing needs
- **Chromebook printing right out of the box** — no additional software is required
- **Ultimate wireless solution** — easy iPad, iPhone, Android, tablet and smartphone printing; includes Wi-Fi Direct for network-free printing
- **Print on the go** — lightweight, small printer for out-of-town teachers’ conferences or class field trips (EC-C110 only)
- **Epson Solutions Suite Ready** — for WF-M5299, WF-M5799, WF-C8190, WF-C8690

WORKFORCE AND WORKFORCE PRO SERIES

### WHAT IS THE REPLACEABLE INK PACK SYSTEM (RIPS)?

WorkForce Pro printers, featuring Epson’s Replaceable Ink Pack System, use high-capacity ink packs to help reduce total operating costs, providing amazingly affordable, low-cost printing plus versatile media handling for budget-minded schools.

The replacement ink packs for the WF-C529R and WF-C579R deliver enough ink to print up to 50,000 ISO pages black/20,000 color** — equivalent to about 100 reams of paper.
Ultra High-speed Multifunction Network Printers

Epson’s flagship color multifunction network printers speed through prints at up to 100 ISO ppm† (WF-C21000), the fastest in its class. Powered by PrecisionCore Heat-Free Technology™, they deliver brilliant-quality output. Powerful but efficient printers, they feature the lowest power consumption in their class, to keep operating costs in check, and can be installed with any 110 V outlet.

### FEATURES

- **Breakthrough print speed** — 100 ISO ppm† on the WF-C21000, the fastest in its class.
- **Quality without compromise** — advanced PrecisionCore Heat-Free Technology and a stationary line head deliver both speed and professional-quality output.
- **Solution ready** — customizable print management option; manage and track prints from touchscreen via user login or ID card; available solution sold separately
  - Epson Solutions Suite: Epson Print Admin, Epson Print Admin Serverless
  - Partner Solutions: Kofax Equitrac, Kofax eCopy, PaperCut and MyQ
- **Conserve energy** — lowest power consumption in their class, works with any 110 V outlet

- Optional High-capacity Input Tray (C12C933331)
- Optional Paper Cassette Lock (C12C933231)
- Optional Professional Staple Finisher (C12C935031BU)
- Optional Professional Booklet Finisher (C12C935061BU)

This intuitive 9” interface makes it easy to do more — print, copy, scan — with just a touch.

---

**NOTES:**

- **Design** for use exclusively with Epson cartridges or ink packs (ink delivery varies by model).
- **Replacement** cartridge and ink pack yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer/all-in-one maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges or packs is used for printer startup and a variable amount of ink remains in the cartridges or packs after the “replace cartridge” or “replace ink pack” signal. For more information, see www.epson.com/inkinfo
- **Comparison** with best-selling, single-function and multifunction color laser printers priced at $2,000 (USD) or less and with speeds of 40 ppm or less per industry available data as of June 2018.
- **Calculation** based on continuous printing with highest-capacity individual cartridges sold in retail. Actual savings will vary based on print task and use conditions.
- **Epson Print Admin Serverless** is only available for WF-C879R.
SURECOLOR® T-SERIES PRINTERS

Large-format Single and Multifunction Graphics Printers

Produce professional-quality graphics and signs for a fraction of the cost of outsourcing printing. Whether you’re looking to print posters for a fundraiser or student performance, backlit film for a lighted display, or simple plain-paper flyers, it’s all in a day’s work with Epson SureColor T-Series printers.

### FEATURES

- **No need to laminate** — prints are water resistant and smudge resistant with UltraChrome XD and UltraChrome XD2 pigment ink
- **Low cost of operation** — high-capacity ink cartridges up to 700 mL and Supertank options for low printing costs
- **Versatile** — print a variety of media, including rigid posterboard up to 1.5 mm thick**
- **Optional 320GB internal print server** — remotely manage print queues and save and reprint jobs (available for select models; sold separately)

### RECOMMENDED ACCESSORIES

- **Optional Stand (C12C933151) — T2170/T3170/T3170M only**
- **Multifunction Scanner Module for 36” (SCT36SCAN) — T2x70xx only**
- **Multifunction Scanner Module for 44” (SCT44SCAN) — T2x70xx only**
- **320GB Internal Print Server (C12C848031) — T2x70xx only**

#### Printer Disclaimers

* This product uses only genuine Epson-brand cartridges or ink packs (ink delivery varies by model). Other brands of ink supplies are not compatible and, even if described as compatible, may not function properly.
** SureColor T3170/T5270/T5270D/T7270/T7270D only.
† Black and color copy speeds are determined in accordance with ISO/IEC 29183. Actual copy times will vary based on system configuration and page complexity. For more information, visit www.epson.com/copyspeed
†† Black and color copy speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed
1 Wi-Fi CERTIFIED™ level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software.
2 Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect™ enabled printers and compatible devices and apps, visit www.epson.com/connect
3 Not all media types are supported for PCL printing.
4 With optional paper tray(s). Number of optional trays varies by model.
5 WF-M5299/WF-M5799 compared to similarly featured mono MFPs and copiers at 70 ppm or higher based on industry available data as of June 2020. Actual power savings will vary by product model and usage.
6 WF-C5790/WF-C5710/WF-C5290/WF-C5210 actual savings will vary based on print tasks, print volumes and usage conditions. Savings comparison based on the purchase cost of replacement ink packs and the cost of enough color toner cartridges to achieve the total page yields of the ink packs using the manufacturers’ online prices and yields for the highest-capacity toner cartridges for the best-selling similarly featured color laser printers priced at $999 (USD) or less with speeds of 40 ppm or less per industry-available data as of July 2019.
7 Print speeds are based on the print engine speed only. Total throughput time for any print depends on workstation configuration, file size, print resolution, ink coverage, networking, etc. Actual print speeds will vary.

SureColor T3170x shown
Maximize productivity and simplify file management. Our wide array of mobile, desktop, flatbed, photo and large-format scanners makes it easy to capture important student documents, artwork, photos and more.
Document Scanners for Staff on the Go

These lightweight mobile document scanners let educators and administrators scan documents, ID cards and more, whether working on campus or remotely. For even more flexibility, this versatile lineup includes wireless and ADF models for easy, efficient organization in virtually any setting.

### FEATURES
- **Organization on the go** — scanners easily fit in a shoulder bag or briefcase
- **Scan to online storage accounts** — intuitively scan to Dropbox®, SharePoint®, Evernote®, FileBound, Google Drive™ and more
- **Generate searchable and editable files** — scan to editable Word and Excel® files or searchable PDF files
- **Powerful software included** — Epson Scan 2, Epson Document Capture and more

### RECOMMENDED ACCESSORIES
- Maintenance Sheet Kit for DS-70/DS-80W (B12B819481)
- Carrier Sheets for DS-70/DS-80W (B12B819451)
- Separation Pad for DS-320 (B12B819271)
- Pick-up Roller for DS-320 (B12B819251)

*USB power requires USB 3.0 connection port on your computer.

See page 44 for scanner disclaimers.
These fast, efficient and compact desktop/workgroup scanners breeze through stacks of 2-sided documents — plus rigid ID cards, folded pages up to 11” x 17”* and more. Designed for situations where speed is critical and dependability is paramount, these workgroup scanners offer world-class performance at a significant value.

**FEATURES**

- **Seamless compatibility with document management systems** — TWAIN and ISIS drivers available for easy integration with existing software.
- **World-class performance and reliability** — advanced paper feed technology includes Dynamic Skew Correction and Double-feed Detection.
- **Scan to online storage accounts** — intuitively scan to Dropbox, Google Drive, SharePoint, Evernote and more.
- **Generate searchable and editable files** — scan to editable Word and Excel files or searchable PDF files; OCR software included.

**RECOMMENDED ACCESSORIES**

- Network Interface Unit for DS-870/DS-970 only (B12B808441)
- Flatbed Dock** for DS-530 II/770 II/870/970 (B12B819011)

*Requires optional carrier sheet (sold separately).
**Requires Epson Perfection® V19/V39 flatbed scanner (sold separately).
Document Scanners for High-speed, High-volume Scanning

Offering high-speed duplex document scanning* along with flatbed versatility, these scanners are the smart solution for fast, easy scanning for virtually any need. Use the high-capacity ADFs* to blaze through stacks of 1- or 2-sided documents, or use the flatbed to scan hardbound books or other odd-sized items.

**FEATURES**

- **Achieve remarkable results** — 4-line CCD sensor (RGB and black) provides vivid color and crisp, sharp text (not available on DS-1630)
- **Work smarter and more efficiently** — ultra fast speeds, long-paper scanning up to 100", built-in high-capacity ADFs, plus auto duplex scanning*
- **Seamless compatibility with document management systems** — TWAIN and ISIS drivers included for easy integration with existing software
- **3-year limited warranty** with world-class service and support — includes Advance Exchange with free Next-Business-Day Replacement¹⁴ to minimize downtime

EPSON PERFECTION AND EPSON EXPRESSION® SERIES

Photo and Graphic Arts Scanners

Epson offers a wide range of photo scanners perfect for media centers, libraries and fine arts departments. From artwork and book pages to slides and negatives, Epson photo and graphic arts scanners deliver superior scans with precise color and detail.

FEATURES

- Remarkable tonal range and shadow detail — film scanning with high Dmax for smooth gradations and fine shadow detail
- Scan 35mm slides, negatives and film — select models include a built-in Transparency Unit
- Automatically remove dust and scratches — Digital ICE Technologies remove many surface defects from film and prints
- ReadyScan® LED light source — for fast scans with no warmup time needed

RECOMMENDED ACCESSORIES

- Fluid Mount Accessory for V800/V850 (B12B818272)
- Transparency Unit for 12000XL-GA (B12B819221)
