LABEL SPECIFICATIONS

Choose the right label catered to your needs.

StickyPOS®

Label Category	Packaging Surface Type	Environment Usage	Name	Width (mm)	Qty Per Box	GSM	Length (m)	Application	Product Image
BT Pattern	Smooth	🌡️ **Room temperature** environment usage for smooth and flexible packaging. Maximum self-cleaning by cutting on the black mark and completely avoiding adhesive.	BT 40x270	40	36	68	82	Beverage Tags	
	Smooth		BT 58X270	58	27	68	82	Beverage Tags / Exception Orders & Bag Tags	
	Smooth		BT 80X270	80	18	68	82	Bag Tag / Exception Orders	
BTX Pattern	Extra Smooth and/or Rigid	🌡️ **High temperature*** environment usage. Creates shorter tags, saving money where packaging is easy to stick to. Less adhesive than the BT Pattern, with no black mark.	BTX 40X270	40	36	74	82	Beverage Tags	
	Extra Smooth and/or Rigid		BTX 58X270	58	27	74	82	Beverage Tags / Exception Orders & Bag Tags	
	Extra Smooth and/or Rigid		BTX 80X270	80	18	74	82	Bag Tag / Exception Orders	
2HT-14 Pattern	Rough	🌡️ **High temperature*** environment usage. Sticks to packaging that does not have a smooth surface. The printer cuts on the black mark so the blade never touches the adhesive.	2HT-14 40X250	40	36	74	76	Beverage Tags	
	Rough		2HT-14 58X250	58	27	74	76	Beverage Tags / Exception Orders & Bag Tags	
	Rough		2HT-14 80X250	80	18	74	76	Bag Tag / Exception Orders	

* High Temperature environment equivalent to food packaging placed under heat lamps, hot drinks, etc.
We recommend tagging an item to test how it reacts in the environment to determine the best label type for your application as it is also dependent on quality of packaging.

Increase productivity in QSRs with the reliable TM-L90LFC and excel despite the ever-changing challenges in food and delivery orders. Find out how QSRs can easily meet the demands with Epson's TM-L90LFC, all while saving costs and being environmentally-friendly.

A one-stop solution: From order taking, preparation and fulfilment, to order delivery, Epson's TM-L90LFC provides QSRs and food businesses with a reliable labelling solution, ensuring orders are correctly fulfilled.

Linerless Label Key Features

StickyPOS® Linerless Labels with the EPSON TM-L90 LFC is a proven system that improves speed and accuracy while reducing (or eliminating) the reliance on the Kitchen Display System and helping businesses do their part for the environment.

Food Safe Labelling

Label without worries! Being food packaging safe, StickyPOS® Linerless labels can follow through each and every step of the food order preparation process to minimise human error.

Impeccable Re-Stick Ability

Re-positionable labels that will not stick to gloves, can easily be peeled and re-stuck during the order fulfillment process, ensuring speed and accuracy.

Hassle-Free Clean Printing

StickyPOS® Linerless labels include self-cleaning technology that continually sweeps the print head and other components to ensure continuous trouble-free and clean printing while reducing maintenance.

1	**ORDER TAKING**

- ✓ Reduce paper wastage with liner-free labels as it does not have backing paper
- ✓ Able to re-stick throughout the order fulfilment process

2	**ORDER FULFILMENT**

- ✓ Efficient workflow with the ability to directly refer to order details
- ✓ Improve fulfillment accuracy and speed without having to refer to the Kitchen Display system

3	**ORDER DELIVERY**

- ✓ Quick order verification
- ✓ Enhance customer experience with professional image
- ✓ Environmentally friendly

No Liner Wastage

Being an eco-friendly printer, TM-L90LFC uses liner-free labels, minimising wastage and enhancing sustainability, helping businesses do their part for the environment.

Sticks to Any Surface

Regardless of the packaging material, the linerless adhesive-backed labels can be applied safely and securely, ensuring orders are clear and fulfilled correctly.
