

Epson® Easy Mobile Printing Solutions

Looking for mobile-friendly Point of Sale printing solutions? Epson keeps it simple, with a full line of plug-n-play printers and ePOS-Print SDKs for fast, easy mobile printing.

Epson offers a complete lineup of mobile Point of Sale (mPOS) friendly printers and interfaces for all your mPOS printing requirements. Epson provides all the resources you need for easy integration – SDKs, drivers, interfaces, printers and software – for iOS, Android and Windows 8 operating systems and devices. Epson and mPOS are the right combination, every time, for easy mobile printing.

ePOS-Print SDK for Native Apps

Why use mPOS-friendly printers?

- When using iOS, Android or Windows 8 mobile devices as POS
- No special setting and pre-configuration required
- No need to use PC or Mac for set up
- Bottom Line: easy to use, easy to set up. Out-of-box ready with mobile tablets.

How are mPOS-friendly printers different from standard receipt printers?

- DHCP enabled for easy IP / network configuration
- Printer class ready for easy connection and discovery

*TM-Series printers are iOS and MFI compliant when configured with the Bluetooth Connect-It interface at the Epson factory, but not when configured outside the factory.

Already have Epson printers?

Upgrading your existing Epson printers for mobile applications is easy. Just add the Connect-It™ interface of your choice and you're ready to go!

Epson Ethernet Interface

- Uses standard TCP/IP Protocol
- Features speeds of up to 100 Mbps
- Field programmable firmware
- Fast and easy installation and configuration

Epson 802.11 a/b/g/n Wireless Interface

- Remote printing at distances up to 328 feet
- Dual frequency band of 2.4 GHz/5 GHz
- Secure WiFi Protected Access (WPA2) and EAP-TLS
- ePOS-Print API Ready

Bluetooth 2.1 (EDR Supported)*

- Secure wireless printing up to 33 feet (10m)
- Easy discovery pairing
- Built-in Simple Secure Pairing (SSP) security
- Fast and easy installation into Epson printers

*TM-Series printers are iOS and MFi compliant when configured with the Bluetooth Connect-It interface at the Epson factory, but not when configured outside the factory. The Bluetooth Connect-It interface alone is not iOS or MFi compliant.
