CORPORATE VISION

Creating a new connected age of people, things and information with efficient, compact and precision technologies

INDUSTRY OVERVIEW

To ensure that new knowledge and ideas are shared effectively with students, schools have been looking for smarter solutions to facilitate teaching and learning.

Over the years, Epson has been supporting educators with interactive projection solutions. The cutting-edge interactive projectors with ultra-short throw and outstanding brightness defy the constraint of space and setting, and make every lesson more interesting and enjoyable. Meetings and administrative tasks are also smoother with convenient and reliable technologies.

In the information age, Epson continues to bring teachers and students even closer with exciting visual devices that clearly convey thoughts and ideas, while its constant technology innovation will further enrich the interactive learning experience.
