Document Skew Correction

Automatically adjusts and straightens scanned images.

Colour Enhancement & Colour Dropout

Remove or enhance the visibility of ink signatures such as "Confidential" and "Urgent" stamps. Users can pick one of the preset colours, all colours except black), or use the customised settings to dropout or enhance up to 5 colours of your choice with a single scan. Automatic Feeding Mode

The Automatic Feeding Mode enables large volumes of documents to be scanned continuously. In addition, this mode allows you to scan documents one at a time without needing to arrange them by size and they will be saved into a single PDF.
