Solutions for Education

Today’s colleges and universities demand accessible and reliable technology that supports organizational effectiveness and meets ever-expanding infrastructure needs for the future. At Epson®, we have 40 years of experience developing breakthrough solutions that broaden learning experiences, promote collaboration, and serve students, faculty and staff. From lecture halls and events centers to libraries and administrative suites, our economical, scalable and dependable Brighter Futures® solutions will support your institution as you evaluate and plan for the years ahead.

Designed for Learning and Beyond
Enhance your institution’s academic environment with dynamic, world-class imaging technologies that invite participation and engage viewers in any environment, whether it’s a study space, lab, lecture hall or athletic facility. From powerful large-venue projectors, advanced displays, ultra fast printers and robust scanners all the way to our innovative Moverio® smart glasses, Epson’s comprehensive suite of technology solutions will meet any need.

Economical Solutions That Deliver on Investment
We understand the strategic planning that goes into budget initiatives — that’s why our Brighter Futures program goes beyond special pricing. Our products deliver outstanding ROI, tremendous scalability, solid reliability, and easy integration with existing infrastructure and systems to help institutions achieve a better bottom line. Find the latest pricing information online at www.epson.com/edguide

Reliability You Can Count On
Our products are designed to work day in and day out to serve students, faculty, staff and guests at your institution. Offering decades of road-tested reliability, Epson education solutions are backed by one of the world’s finest customer care programs, with service and support that go the extra mile.

Display Size Makes a Difference in the Classroom

A 2016 study shows that 55 percent of viewers cannot read content on a 70" display in an average-sized room. That’s why it’s important that a display is large enough for everyone to clearly see it in an average-sized room — and read what’s on it from anywhere in the room. For many rooms, flat-panel displays are simply too small to give viewers optimum readability. In contrast, Epson offers the flexibility to maximize readability for everyone in the room. To understand the connection between display size and viewing distance, and for help in making sure your display image sizes meet your goals, visit www.epson.com/displaysize

Determining optimal display sizes for different rooms

To optimize visibility, productivity and interaction, consider both room size and use.

Study Spaces, Seminar and Medium-sized Rooms:
- Use the Desktop Equivalent Visibility (DEV) method (Chart 1, next page)
- More conducive to group interaction and creative exchange
- Both readability and personal engagement are important
- These spaces are usually 16’ or less in length

Large Rooms:
- Use “4x the display height” as a guide, as indicated in the 4/6/8 Rule (Chart 2, next page)
- Information is typically shared by one person to many others
- Readability of content shared (presentations, spreadsheets, webpages) is of primary importance for viewers to process information and achieve results
- Viewing distances are typically greater than 13’ and sometimes as long as 30’ or more

Lecture Halls:
- Use “6x the display height” as a guide, as indicated in the 4/6/8 Rule (Chart 3, next page)
- Information is typically presented by one person to an entire audience
- Periods of uninterrupted focus, with easily readable content, are critical
- Viewing distances are typically greater than 18’ and sometimes as long as 45’ or more

<table>
<thead>
<tr>
<th>Study Spaces/Seminar Rooms/ Medium-sized Rooms</th>
<th>Up to 16’ long, Active Collaboration</th>
<th>Desktop Equivalent Visibility (DEV)</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>Lecture Halls</td>
<td>Longer than 18’, Passive/Active Blend</td>
<td>4/6/8 Rule, 6x Multiplier</td>
</tr>
</tbody>
</table>

Study Spaces, Seminar and Medium-sized Rooms

Use the Desktop Equivalent Visibility (DEV) method

The DEV method uses the OSHA standard that sizes monitors for individuals sitting at their desks and transfers this standard to the group meeting space. The key point is that the content being shared needs to migrate over from an individual’s viewing experience to a group’s active collaboration experience.

Chart 1 provides recommended display sizes based on the DEV standard to optimize the environment for group collaboration.

See page 27 for projector disclaimers.
Large Rooms
Use the 4x portion of the 4/6/8 Rule
A room of this size can probably accommodate 15 or more participants, which means it will typically be used for presentations/review (passive participation).

Chart 2 shows acceptable display sizes based on four times (4x) the display height, as noted in the 4/6/8 Rule, which is the best standard to use for larger rooms. This enables analytical viewing and critical decision making, as anticipated by 4/6/8 Rule recommendations.

Lecture Halls
Use the 6x portion of the 4/6/8 Rule
Lecture halls feature visual displays that are used to share materials developed specially for large audiences. The ideal viewing in this space, per the 4/6/8 Rule, is six times (6x) the display height, which applies to basic viewing/decision making.

Chart 3 illustrates the applicability of different display sizes in lecture halls at the 6x height parameter.

Large-venue Projectors

Designed for uncompromising performance, Epson large-venue installation projectors are powerful performers for virtually all large spaces, including lecture halls, events centers, stadiums and more. Available in laser and lamp-based models, these premium large-venue projectors feature high lumens for bright, colorful images and utilize advanced display technologies to create immersive experiences that will captivate any audience.

Visit www.epson.com/largevenue for more information and to compare models.

Why choose Epson for your large-venue projection needs?

- **3-chip, 3LCD technology** — for high color brightness
- **Industry-leading service and support** — limited warranty of 3 years or 20,000 hours, whichever comes first, plus free Next-Business-Day replacement2** with postage-paid returns
- **Epson 4K Enhancement Technology3** — a revolutionary technology that accepts 4K signal and enhances the native resolution for output that surpasses Full HD image quality
- **Wide selection of powered lenses with lens memory** — including zero- and negative-offset 0.35 ultra short-throw lenses for shallow spaces***
- **Diverse connectivity options** — including 3G-SDI, HDBaseT™, DVI-D, HDMI®, 5-BNC and wireless
- **Emulation Mode** — saves time and money when replacing other manufacturers’ projectors
- **Compatible with leading control systems** — such as Crestron®, AMX®, Extron XTP®, Control4®* and Art-Net**

Epson Laser Projection Technology

Virtually maintenance-free operation

As a world leader in digital 3LCD projection solutions, Epson continues to drive the future of classroom and projection technology with its full suite of laser projectors and displays. Featuring lamp-free, long-life, laser light engines, Epson laser solutions achieve new levels of performance and reliability.

Why choose laser?

- **Breakthrough laser technology** — long-life laser light engine provides up to 20,000 hours of light source life6

- **Outstanding color performance and contrast** — get exceptional, true-to-life color reproduction and deep, dark blacks for stunning visuals you can count on for an array of applications

- **Instant OFF®/ON** — displays and projectors reach maximum brightness and turn off almost immediately, without having to warm up or cool down

- **Reliable 24/7 operation** — ideal for applications requiring continuous projection

</table>
These laser large-venue installation projectors offer virtually maintenance-free operation, with a laser light source rated up to 20,000 hours. The projectors also deliver up to native Full HD WUXGA performance with Epson 4K Enhancement Technology and exceptional integration capabilities.

### FEATURES

- **Up to 25,000 lumens color and white brightness** — Epson is the first projector manufacturer to combine inorganic 3LCD panels with an inorganic phosphor wheel to achieve high brightness and reliability.
- **Industry-leading service and support** — limited warranty of 3 years or 20,000 hours, whichever comes first, plus free Next-Business-Day replacement with postage-paid returns.
- **Wide selection of powered lenses with lens memory** — including zero- and negative-offset 0.35 ultra short-throw lenses for shallow spaces.
- **Versatile connectivity** — supports the full range of inputs, including HDBaseT, HDMI, DVI-D, 3G-SDI, VGA and 5-BNC, for easy integration with any system.

Optional Ultra Short-throw Lenses

Transform your Pro G or Pro L Series projector into an ultra short-throw display for ultimate installation flexibility. Install the projector just inches from the screen or wall — away from foot traffic — and still get huge, bright, crisp projection. Featuring a 0.35 throw ratio — plus zero offset on the ELPLX01 and negative offset on the ELPLX02 — these lenses are ideal for installation in narrow or tight spaces. And, wide lens shift gives you even more flexibility when you need it.

Using this lens, you can project from above or below for a dynamic screen or wall display.

Using this lens, you can project from above or below for a dynamic screen or wall display.
Epson offers an array of projector lenses to fit many types of applications and requirements.

Interactive Display Solutions

Epson’s BrightLink® Pro collaborative display solutions connect people, technology and ideas into one seamless digital experience, facilitating better communication by turning any flat surface into an interactive area. Available in laser and lamp-based models, BrightLink Pro is the perfect display solution for classrooms, study spaces, administrative offices and more. Built for today's learning environments, these displays offer whiteboard sharing for local, on-campus collaboration as well as engagement with remote participants anywhere in the world on the same network.

Epson also offers the high-performance, network-ready BrightLink 600/700 Series interactive displays, also available in laser and lamp-based models. Designed for classrooms, seminar rooms, study spaces and more, these displays provide a fully integrated system that eliminates the need for a dedicated electronic whiteboard. Turn existing dry-erase whiteboards, plain walls and tables into interactive display areas measuring from 60" up to 100" with no extra cost.

For more information, visit www.epson.com/brightlinkpro and www.epson.com/brightlink
Big, bright and easy to use, BrightLink Pro reinvents the traditional whiteboard for dynamic collaboration both on-campus and across the globe. Share whiteboard content instantly with up to 15 local or remote participants connected to the same network. Participants can join the session and annotate content using a tablet, smartphone or computer, via a Web browser, or another BrightLink Pro. Plus, it offers flexible installation on a wall, drafting table or other flat surface.

### FEATURES
- **Reinvent your whiteboard** — turn any wall or existing dry-erase board into a 100” interactive display
- **Full HD WUXGA display up to 100” (diagonal)** — for an optimal viewing experience and clear readability — 3x as big as a 60” (diagonal) flat panel
- **DuoLink** — install two interactive displays side by side to achieve an even larger interactive display area
- **Laser model available** — up to 20,000 hours of light source life

*Standard limited warranty is 2 years. Brighter Futures pricing includes 1-year warranty extension.
Introduce collaborative learning to almost any classroom or study space with these bright, dynamic and easy-to-use interactive displays. Offering dual-user pen-based and/or touch-enabled interactivity for up to six users at a time (available on select models), these displays are designed to maximize student collaboration and engagement. Plus, instructors can share presentations — or students’ work — from laptops, notebooks, tablets, and iOS® and Android™ mobile devices, or annotate PC-free with no device at all.

### Features

- **Fully integrated, pen- and finger-based interactivity** — turns almost any existing dry-erase board or plain wall into an interactive workspace (finger-based interactivity available on select models)
- **Remote management and control** — easy network connectivity for help desk support; software included
- **Brilliant image quality up to Full HD WUXGA** — with up to 4,400 lumens of color brightness and 4,400 lumens of white brightness
- **Laser models available** — up to 20,000 hours of light source life

### Recommended Accessories

- Short-throw Wall Mount for BrightLink 536Wi
- Ultra Short-throw Wall Mount
- Wireless LAN Module
- 100” Whiteboard
- Replacement Pen — Orange
- Replacement Pen — Blue
- Replacement Air Filter for Laser Display V13H134A43 (ELPAF43)

### Connectivity

Product shown is BrightLink 697Ui.

Visit [www.epson.com/support](http://www.epson.com/support) to see the connectivity options for all models listed.

See page 27 for projector disclaimers.
These bright, versatile displays feature built-in ultra short-throw lenses for images up to 100” (diagonal) from as little as 11” away, with minimal shadows and glare. The lamp-based PowerLite 600 Series and 700U laser signage display feature advanced wireless capabilities and connectivity, including laptop, notebook, tablet and mobile device support.

**POWERLITE® 600 AND 700 SERIES**

**Presentation Displays**

- **Easy wireless content sharing** — share images between the screen and wirelessly connected laptops, notebooks, tablets, iOS and Android devices.
- **Up to 3x HDMI ports** — supports high-definition A/V devices including the latest laptops, Blu-ray Disc® and media players.
- **Remote management and control** — easy network connectivity for help desk support; software included.
- **Long-life displays** — lamp-based models last up to 10,000 hours in ECO Mode; PowerLite 700U offers up to 20,000 hours of light source life.

**RECOMMENDED ACCESSORIES**
- Wireless LAN Module
- DC-21 Document Camera
- ES3000 Screen

See pages 25–27 for product codes and more information.

**CONNECTIVITY**
- Product shown is PowerLite 1286.
- Visit [www.epson.com/support](http://www.epson.com/support) to see the connectivity options for all models listed.

8Standard warranty is 2 years. Brighter Futures pricing includes 1-year warranty extension.
A convergence of lighting and display technology, LightScene laser projectors captivate audiences by simultaneously illuminating and projecting on virtually any surface or material. This groundbreaking solution elevates ordinary spaces into stunning visual environments, unleashing dynamic, experiential content. Utilize LightScene to display your school logo, highlight donors, direct students and staff to the library or a particular lecture hall, or even animate digital mascots.

**FEATURES**

- **Create head-turning digital signage** — illuminate and project on virtually any surface or material for basic signage, wayfinding, school branding and promotional messaging
- **Blends in discreetly** — sleek, white spotlight design easily blends into its surroundings, offering vertical and horizontal rotation, with flexible mounting on tracks, floors, walls or ceilings
- **Breakthrough laser technology** — provides up to 20,000 hours of light source life, plus a sealed optical engine, for amazing image quality matched by outstanding performance
- **Robust management and control tools** — via Epson’s Web-based application or over the network with Crestron, Art-Net and more

Epson Technology Advantages

Offering high color brightness, plus large, easy-to-see images and the latest in connectivity and wireless support for laptops, notebooks, tablets and mobile devices, Epson visual solutions include a host of convenient features*, making them an ideal fit in any education setting.

**Safe, secure and easy to use**

**Advanced wireless security protocol** — available as a built-in feature on select models, or via an optional wireless LAN module for select products with wireless functionality, Epson supports WEP, WPA-PSK, WPA-EAP, WPA2-PSK and WPA2-EAP wireless encryption.

**Epson iProjection** — with true multi-platform support, users can share images from wirelessly connected devices to the classroom screen, or view the screen’s image on their device8. Advanced functionality includes two-way content sharing — available with select Epson models — annotation, real-time mobile camera display and more.

**Moderator Device Management** — this built-in feature allows as many as 50 users to connect simultaneously to the projector/display. Instructors can then select and display content from up to four devices at a time.

**Easy, safe integration with existing systems**

**HDBaseT and diverse connectivity** — available on select models, HDBaseT simplifies installation with just one CAT-5/6 cable carrying Full HD video, audio, network and control commands. Additional connectivity options include HDMI, DVI-D, VGA, BNC and LAN inputs, and more.

**HDCP 2.2 support** — select models support HDCP 2.2, the latest security protocol, designed to create an encrypted, secure connection between a source and a display.

**Compatible with leading control systems** — select products are compatible with Crestron RoomView®, AMX, Extron XTP and Control4 Simple Device Discovery Protocol (SDDP).

**Easy management and control**

**Epson Projector Management** — Epson Monitor software allows built-in remote access to troubleshoot and monitor up to 2,000 Epson networked projectors from any computer over a wired or wireless Ethernet network. View status, including input sources, power on/off, lamp life hours, temperature levels and error alerts, as well as schedule filter and lamp timer settings. Email notification (SMTP) and an enterprise SNMP plug-in are also available.

*Availability varies by model. Please see product specification notes for further information.*
**Connectivity**

**HDBaseT Transmitter**  
V12H547020 (ELPHD01)
Maximize convenience with this optional HDBaseT transmitter box, a great companion piece to select models in the PowerLite L Series, 2000 and 5000 Series, as well as the Pro G and L Series. Three inputs are featured for easy installation: HDMI, LAN and RS-232 to output into a CAT-5/6 cable.

**Wireless LAN Module**  
V12H731P02 (ELPAP10)
These high-speed, wireless network adapters plug directly into select Epson projectors and displays, allowing quick and easy access to the LAN or peer-to-peer networks without wires or cables. When used with Epson Projector Management Software, Network Projection and Multi-PC Projection software, they allow users to remotely access and control projectors over the wireless LAN.
- Compliant with 802.11 b/g/n standards
- Compatible with PC or Mac
- Uses USB Type-A connector
- Able to transmit audio

**Sound Enhancement**

**Active Speakers**  
V12H467020 (ELPSP02)
Enhance the learning experience with 30 W of rich, powerful sound. This active speaker set (with built-in amplifiers) lets students clearly hear lessons. The ELPSP02 speakers can be easily mounted on the wall and can be used with any Epson projector or display, with or without the PowerLite Pilot.

**Audio/Visual Control Systems**

**PixiePlus™**  
ELPSP10
Featuring a sleek, space-saving design, PixiePlus is an affordable, easy-to-use projector control system designed for in-wall installation.
- Easy installation — installs in any standard wall box
- Save both money and energy — automatic projector shutdown timer feature

**PowerLite Pilot 3 Connection and Control Box**  
V12H927020 (ELPCB03)
Maximize cable management and control for your classroom projector with the PowerLite Pilot 3, a convenient wall-mounted A/V connection and control box for Epson short-throw and ultra short-throw projectors. Designed to support an array of devices, the PowerLite Pilot 3 streamlines source switching and volume control. With 3x HDMI control buttons (including 1 MHL), you can select from an array of connected classroom devices — and even display two sources side-by-side onscreen at once using your projector’s Split Screen feature. You can also use it as an extension box to expand the range of your cables and increase flexibility.

**Whiteboards and Screens**

**100” Whiteboard (16:10)**  
V12H831000
A combined projection and dry-erase surface, this 100” Whiteboard is the ultimate projection partner for classrooms. Featuring a matte-white, low-gloss surface, this Whiteboard enables high-quality projection with minimal glare or reflection. Ideal for use with widescreen projectors.

**ES1000 Ultra Portable Tabletop Projection Screen**  
V12H002S4Y
This lightweight, compact screen is the perfect partner for on-the-go lessons. When you’re ready to present, the ES1000’s unique one-piece design allows you to set up quickly and easily on any tabletop in less than 30 seconds. It conveniently accommodates up to a 50” (diagonal) image. And, when it’s time to shut down, the ES1000 stores quickly and easily.

**ES3000 Ultra Portable Projector Screen**  
V12H002S3Y
An easy-to-use, portable projection screen, the ES3000 is designed to expand to the size that best meets your needs: standard 4:3, widescreen 16:9 or widescreen 16:10. Plus, you can take it anywhere — with the included wheeled case, it’s easy to transport. Its unique, one-piece design means there’s no need to assemble various components. And, when it’s time to shut down, the ES3000 stores quickly and easily.
Interactive Pens

Replacement Pens | Orange V12H773010 (ELPPN05A) / Blue V11H774010 (ELPPN05B)

These two pens offer interactive drawing and mouse capabilities and simultaneous operation with BrightLink 500 Series, 600 Series and 710Ui interactive displays. Powered by a single AA battery, the pens include a convenient on/off power button with Sleep Mode to prolong battery life.

Mounting Accessories

Short-throw Wall Mount | V12H706020 (ELPMB45)

Designed exclusively for use with Epson’s PowerLite 500 Series short-throw displays, as well as the BrightLink 536Wi, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation, while the vertical and horizontal adjustments provide easy image alignment. And, when your short-throw display is attached to the wall mount, there is less shadow interference and glare, for a more optimal presenting and viewing experience.

Ultra Short-throw Wall Mount | V12H777020 (ELPMB46)

Designed exclusively for use with Epson’s PowerLite 600 Series and BrightLink 600 Series ultra short-throw displays, this wall mount offers an easy, affordable solution for wall-mounted displays. The wide mounting plate and telescopic extension arm offer convenient and flexible installation from 53” – 100”, while the vertical and horizontal adjustments provide easy image alignment. And, when your ultra short-throw display is attached to the wall mount, there is less shadow interference and glare, for a more optimal presenting and viewing experience.

Ultra Short-throw Wall Mount for Laser Displays | V12H902020 (ELPMB53)

Designed exclusively for use with Epson’s PowerLite, BrightLink and BrightLink Pro ultra short-throw laser displays, this wall mount offers an easy, affordable solution for wall-mounted displays. The wide mounting plate and telescopic extension arm offer convenient and flexible installation from 70” – 100” for BrightLink 710Ui and BrightLink Pro 1470Ui, and up to 130” for the PowerLite 700U. And, when your ultra short-throw display is attached to the wall mount, there is less shadow interference and glare, for a more optimal presenting and viewing experience.

Low Ceiling Mount / High Ceiling Mount | V12H802010 (ELPMB47) / V12H803010 (ELPMB48)

Specifically designed for use with Epson Pro G and L Series projectors, these heavy-duty mounts support up to 165 lb and offer independent adjustments for vertical tilt, horizontal roll, and rotation. The Low Ceiling Mount offers a low-profile, aesthetic design, while the High Ceiling Mount features MicroZone adjustments for fast, precise projector registration. And, their sleek, silver finish blends in with ceilings.

Universal Projector Kit | V12H808001 (ELPMPJG)

Includes a Universal Projector Mount, 3” (76 mm) Fixed Extension Column and Speed-Connect Ceiling Plate.

Custom Micro-adjustable Projector Mount | V12H809001 (ELPMBPRH)

Specifically designed for use with the Epson Pro G and PowerLite 2000 and 5000 Series.

Speed-Connect Above-tile Suspended Ceiling Kit | V12H804001 (ELPMBP04)

Provides a host of features for fast, more secure installation of most lightweight, front-projection models.

Suspended Ceiling Tile Replacement Kit | V12H805001 (ELPMBP05)

Designed to replace one 2’ x 2’ ceiling tile or to sit above a suspended ceiling.

Speed-Connect Suspended Ceiling Tile Replacement Kit | V12H806001 (ELPMBP06)

Provides features that ensure a faster, more secure installation of most lightweight, front-projection models.

6” Speed-Connect Ceiling Plate | V12H807001 (ELPMBC07)

Offers a clean look and time-saving cable management features while focusing on the speed of installation.

9” – 12” Adjustable Extension Column | V12H810001 (ELPMBC02)

Saves installation time and maximizes security.
Leading 70" class 4K resolution flat panel in a 22' (width) by 27' (depth) training room arrangement. Participants were seated 8' to 27' from the display. When asked to copy down six short items of information from slides being displayed, 55 percent of respondents ages 18+ copied at least one item incorrectly. Based on U.S. research conducted by Radius Research 2016.

Expedited shipping not available in all areas. Road Service orders must be in by 3 p.m. Eastern Time for Next-Business-Day delivery. In the event of service or repair for the Pro L25000U, Next-Business-Day shipping is not available. However, the projector comes with a postage-paid return shipping label. And, it will be shipped back to you free of charge.

4K Enhancement Technology shifts each pixel diagonally by 0.5 pixels to double the resolution and surpass Full HD image quality.

Emulation Mode is limited to certain code sets and may not support all codes. Contact Epson Support for the latest supported sets.

Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

Actual hours may vary depending on mode and usage environment. For the Pro L Series laser projectors, 20,000 hours is the estimated laser light source life when the projector is used in Normal Mode in an ordinary environment. The projector has a limited warranty of 3 years or 20,000 hours, whichever comes first; for the BrightLink Pro 1470Ui, BrightLink 710Ui, and PowerLite 700U, 20,000 hours is the estimated projector laser light source life when used in Normal Mode. The projector comes with a postage-paid return shipping label. However, the projector comes with a postage-paid return shipping label. And, it will be shipped back to you free of charge.

For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details.

## Projector Disclaimers
1. Leading 70" class 4K resolution flat panel in a 22' (width) by 27' (depth) training room arrangement. Participants were seated 8' to 27' from the display. When asked to copy down six short items of information from slides being displayed, 55 percent of respondents ages 18+ copied at least one item incorrectly. Based on U.S. research conducted by Radius Research 2016.
2. Expedited shipping not available in all areas. Road Service orders must be in by 3 p.m. Eastern Time for Next-Business-Day delivery. In the event of service or repair for the Pro L25000U, Next-Business-Day shipping is not available. However, the projector comes with a postage-paid return shipping label. And, it will be shipped back to you free of charge.
3. 4K Enhancement Technology shifts each pixel diagonally by 0.5 pixels to double the resolution and surpass Full HD image quality.
4. Emulation Mode is limited to certain code sets and may not support all codes. Contact Epson Support for the latest supported sets.
5. Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.
6. Actual hours may vary depending on mode and usage environment. For the Pro L Series laser projectors, 20,000 hours is the estimated laser light source life when the projector is used in Normal Mode in an ordinary environment. The projector has a limited warranty of 3 years or 20,000 hours, whichever comes first; for the BrightLink Pro 1470Ui, BrightLink 710Ui, and PowerLite 700U, 20,000 hours is the estimated projector laser light source life when used in Normal Mode. The projector comes with a 3-year limited warranty; for the PowerLite L400/500/600 Series, 20,000 hours is the estimated laser light source life when used in Normal Mode. The projector has a standard limited warranty of 3 years; for LightScene, 20,000 hours is the estimated projector life when used in Normal Mode. The projector has a limited warranty of 3 years or 20,000 hours, whichever comes first.
7. Full HD-WUXGA (1920 x 1200), SXGA+ (1400 x 1050), WXGA (1280 x 800), XGA (1024 x 768), SVGA (800 x 600).
8. For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson Projection App does not support all files and formats. See www.epson.com for details.
9. For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson Projection App does not support all files and formats. See www.epson.com for details.
10. Lamp life will depend upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.
11. Requires Easy Interactive Driver. Certain functionality is only available through Epson Interactive Tools (EIT) software. For a list of supported operating systems, visit www.epson.com
12. Works only with Epson projectors that support presentation over the network capability.
13. Includes one Mobile High-Definition Link™ (MHL) HDMI port.
14. Life of the optical engine may vary depending on mode and usage environment. The projector has a standard limited warranty of 3 years.
15. Split Screen feature requires remote control. Consult your user manual for input combinations.
Expand the focus of your curriculum with Epson document cameras, which allow students and instructors alike to explore content, objects and complex concepts in real time. With features like digital zoom, A/V recording, one-touch auto focus, HDMI connectivity, and a microscope adapter, these essential instructional tools elevate mathematics, science, engineering and arts coursework into engaging, collaborative and dynamic learning experiences.
Easy-to-use Document Cameras

Bring coursework to life with Epson’s easy-to-use document cameras. Capture and display books, 3D objects, equations, and experiments with amazing resolution up to HD 1080p. From demonstrating chemical reactions to zooming in on documents, artifacts, and specimens — or even recording lessons for distance learning and online applications — Epson DC Series document cameras help improve the efficiency and effectiveness of classroom instruction.

Printers

Offering outstanding value, advanced print management and security features, and easy wireless integration, Epson’s letter-size and wide-format single-function and multifunction printers reduce overall costs and improve efficiencies. Ideal for use in libraries and resource centers, administrative offices, labs, and more, this innovative lineup — including Epson’s groundbreaking WorkForce® Enterprise printers and Replaceable Ink Pack System (RIPS) printers — delivers ultra high-speed, affordable color printing without sacrificing quality.
Epson’s flagship color multifunction network printers speed through prints. Powered by PrecisionCore® Line Head Technology, these printers deliver brilliant-quality output. Powerful but efficient printers, they utilize up to 50 percent less power than A3 color MFPs, to keep operating costs in check, and can be installed with any 110 V outlet.

### Ultra High-speed Multifunction Network Printers

**Workforce Enterprise**

- **Model:** WF-C17590
- **Model:** WF-C20590
- **Product Code:** C11CH011201
- **Functionality:** Print, Copy, Scan, Fax
- **Ink Delivery:** Ink cartridges
- **Highest Replacement Ink Yield**: ~50,000 pgs. bk/~50,000 pgs. clr
- **ISO Print Speed 1-sided**: 75 ISO ppm (bk/clr)
- **ISO Print Speed 2-sided**: 75 ISO ipm (bk/clr)
- **Paper Capacity:** Up to 5,350 sheets
- **Connectivity:** Ethernet, USB, Wireless, Wi-Fi Direct, NFC, PCL/PS
- **Mobile Device/Chromebook Printing:** Yes
- **Max. Paper Size:** Standard cassette up to 11" x 17"; multipurpose tray up to 13" x 47.2"
- **IT Administration/Security Tools:** Yes

### Features
- **Breakthrough print speed** — 100 ISO ppm† on the WF-C20590, the fastest in its class
- **Quality without compromise** — advanced PrecisionCore technology and a stationary line head deliver both speed and professional-quality output
- **PaperCut™ ready** — customizable print management option; manage and track prints from touchscreen via user login or ID card (PaperCut software sold separately)
- **Conserve energy** — up to 50 percent lower power consumption than color lasers, works with any 110 V outlet

### Recommended Accessories
- **Optional Professional Finisher with Bridge Unit** (C12C933261BU)
- **Optional High-capacity Input** (C12C933331)
- **Optional Paper Cassette Lock** (C12C933231)

*Replacement cartridge yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer startup and a variable amount of ink remains in the cartridges after the "replace cartridge" signal. For details, see www.epson.com/inkinfo

www.epson.com/edguide
High-volume Distributed Printing for Labs and Administrative Offices

Ideal for fast, high-volume, low-cost, letter-size black-and-white and/or color printing in computer labs and administrative offices, Epson WorkForce Pro single-function and multifunction printers offer heavy-duty, reliable performance, plus easy, secure and cost-effective print management for your entire education network.

FEATURES
- Low total cost of ownership — up to 60% lower total printing costs vs. monochrome laser (WF-M5299, WF-M5799); up to 45% lower total printing costs vs. color laser (WF-C5290, WF-C5790); and up to 50% lower printing costs vs. color laser (WF-6090, 6590); and up to 75% lower total printing costs vs. color laser (WF-C529R, WF-C579R).7
- Versatile paper handling — auto 2-sided printing with multiple trays for uninterrupted printing with different paper types
- PaperCut™ ready — customizable print management option; manage and track prints from touchscreen via user login or ID card
- Security features — PIN number certification for job release; user control access, printer and network settings via Web Config with printer’s IP address; SSL/TLS security; IPsec

RECOMMENDED ACCESSORIES
WorkForce Pro M5000/ C5000/C500R Series
- Optional 500-sheet Paper Cassette Tray (C12C932871)
- Maintenance Box (T671600)
WorkForce Pro C8000 Series
- Optional 500-sheet Paper Cassette Tray (C12C932611)
- Optional Cabinet (C12C932891)
- Maintenance Box T671400 (C13T671200)

WHAT IS THE REPLACEABLE INK PACK SYSTEM (RIPS)?
WorkForce Pro printers featuring Epson’s Replaceable Ink Pack System use high-capacity ink packs that reduce total operating costs, providing amazingly affordable, low-cost printing plus versatile media handling for budget-minded schools.

The replacement ink packs for the WF-C529R and WF-C579R deliver enough ink to print up to 50,000 pages black/20,000 color**

*Designed for use exclusively with Epson cartridges or ink packs (ink delivery varies by model):
**Replacement ink pack yields are based on the ISO/IEC 24711 standard using the ISO/IEC 19752 pattern in Default Mode printing continuously. Ink pack yields vary considerably for reasons including images printed, print settings, temperature, humidity, and frequency of use. Yields may be lower when printing infrequently. Ink is used for printing and printer maintenance. For print quality, part of the ink from the included pack is used for printer startup and a variable amount of ink remains in the pack after the “replace ink pack” signal. For details, see www.epson.com/inkinfo
Wide-format Distributed Printing for Libraries and Resource Centers

Epson’s WorkForce and WorkForce Pro wide-format single-function and multifunction printers offer fast printing and scanning for pages as large as 13” x 19”. Their versatility is ideal for wide-format printing, copying and scanning of documents, books, and more by both students and faculty.

**FEATURES**

- **Versatile paper handling** — print letter-sized documents all the way up to 13” x 19”, with auto 2-sided printing and high-capacity paper trays for uninterrupted printing
- **Low total cost of ownership** — significant savings and dramatically reduced power usage vs. color laser printers
- **PaperCut ready** — customizable print management option; manage and track prints from touchscreen via user login or ID card***
- **Security features** — PIN number certification for job release; user control access, printer and network settings via Web Config with printer’s IP address; SSL/TLS security; IPsec***

### RECOMMENDED ACCESSORIES

Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer/all-in-one maintenance, and all colors have to be installed for printing. For print quality, some of the ink from the included cartridges or packs is used for printer startup and a variable amount of ink remains in the cartridges or packs after the “replace cartridge” or “replace ink pack” signal. For more information, see www.epson.com/inkinfo

***Not available on the WorkForce WF-7000 series printers.

---

See page 37 for printer disclaimers.
Classrooms are evolving towards 1:1 learning, and mobile device usage is on the rise. Epson printers have evolved, too, with a full portfolio of desktop all-in-ones and mobile printers that come equipped with wireless connectivity and mobile device printing.

**FEATURES**

- **Performance you can count on** — amazing quality, fast speeds and exceptional reliability to meet your classroom printing needs
- **Chromebook printing right out of the box** — no additional software is required
- **Ultimate wireless solution** — easy iPad®, iPhone®, Android tablet and smartphone printing6; includes Wi-Fi Direct® for network-free printing
- **Print on the go** — lightweight, small printer for out-of-town teachers’ conferences or class field trips (WF-100 only)

*Designed for use exclusively with Epson cartridges.

**Replacement cartridge yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer startup and a variable amount of ink remains in the cartridges after the “replace cartridge” signal. For details, see www.epson.com/inkinfo.
Epson’s EcoTank line of supertank all-in-one printers features Cartridge-Free Printing and revolutionary ink replacement technology. They offer the perfect combination of value and convenience, with super-high-capacity, easy-to-fill ink tanks. These all-in-one printers come with enough ink in the box to print for up to 2 years*, so you can print thousands of pages black/color**.

Maximize convenience, savings, quality and reliability, all in one incredible printer. EcoTank printers offer the freedom to print in color, with less impact on your supplies budget — you’ll save up to 80 percent on ink with low-cost replacement ink bottles vs. ink cartridges*** (ST-3000, ST-4000 and ET-16500 only). It’s the smart choice for high-volume, high-quality, hassle-free printing.

### FEATURES

- **Cartridge-Free Printing** — comes with up to 2 years of ink in the box*
- **Save up to 80 percent with low-cost replacement ink bottles vs. ink cartridges*** — features easy-to-fill, supersized ink tanks (ST-3000, ST-4000, and ET-16500 only)
- **Chromebook printing right out of the box**° — no additional software is required
- **Ultimate wireless solution plus Ethernet** — easy iPad, iPhone, Android tablet and smartphone printing°; includes Wi-Fi Direct® for network-free printing

---

*Based on average monthly document print volumes of about 300 pages (ST-3000, ST-4000, ET-16500), and 450 pages (ET-8700).

**ST-3000/4750/16500 included ink bottle yields based on the ISO/IEC 24712 pattern with Epson’s methodology. ET-8700 included ink pack yields are estimated based on ISO/IEC 24711 test in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors must be available for printing. For more information, visit www.epson.com/inkinfo.

***Savings comparison based on the purchase cost of replacement ink bottles and the cost of enough cartridges to achieve the total page yields of the bottles using the manufacturers’ online prices and yields for the highest-capacity cartridges for the best-selling similarly featured consumer inkjet printers priced at $499 USD or less per industry available data, August 2018. Actual savings will vary based on print tasks, print volumes and usage conditions.

°Designed for use exclusively with Epson ink packs°.

# EPSON SURECOLOR® T-SERIES PRINTERS

## Large-format Single and Multifunction Graphics Printers

Easily produce a wide range of large-format, professional-quality graphics and signage up to 44" wide for indoor and outdoor usage. From rigid posterboard or posters to CAD drawings or backlit film for a lighted display, it’s all in a day’s work with Epson SureColor T-Series printers.

### FEATURES
- **No need to laminate** — prints are water resistant and smudge resistant with UltraChrome XD and UltraChrome XD2 pigment ink
- **Low cost of operation** — high-capacity ink cartridges up to 700 mL for low printing costs
- **Versatile** — print a variety of media, including rigid posterboard up to 1.5 mm thick
- **Optional 320GB internal print server** — remotely manage print queues and save and reprint jobs (available for select models; sold separately)

### RECOMMENDED ACCESSORIES
- **Optional Stand (C12C933151)** — T3170 only
- **Multifunction Scanner Module for 36" (SCT36SCAN)** — T5270/D only
- **Multifunction Scanner Module for 44" (SCT44SCAN)** — T7270/D only
- **320GB Internal Print Server (C12C848031)** — T270/D only

Printer Disclaimers

1. This product uses only genuine Epson-brand cartridges or ink packs (ink delivery varies by model). Other brands of ink supplies are not compatible and, even if described as compatible, may not function properly.

† Black and color print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed

†† Black print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed

1 Compared to best-selling A3 color MFPs with MSRP of $41,000 or less. Competitive data gathered from manufacturer websites and third-party industry sources as of Nov. 2016.

2 With optional paper tray(s). Number of optional trays varies by model.

3 Wi-Fi CERTIFIED™; level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software.

4 NFC requires use of a device that includes NFC, and may require additional software.

5 Not all media types are supported for PCL printing.

6 Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect™ enabled printers and compatible devices and apps, visit www.epson.com/connect.

7 Compared to similarly featured monochrome printers under $500 and under 40 ppm based on industry available data, April 2018. Cartridge prices are based on manufacturer yield and online pricing. Printer prices are average sales prices per industry available data, April 2018. Savings ranges from up to 40% – 75%. Savings will vary based on printers, cartridges and usage conditions (WF-M5299, WF-M5799); compared with best-selling, color laser printers priced at $499 (USD) or less and 30 ppm or less, as of October 2017. Calculation based on continuous printing with highest-capacity individual cartridges. Actual savings will vary based on print task and use conditions. (WF-C5290, WF-C5790); compared to best-selling color lasers priced at $600 (USD) or less as of May 2015. Actual power savings will vary by product model and usage (WF-6090, WF-6590); compared with best-selling, single-function and multifunction color laser printers priced at $2,000 (USD) or less and with speeds of 40 ppm or less per industry available data as of June 2018. Calculation based on continuous printing with highest-capacity individual cartridges sold in retail. Actual savings will vary based on print task and use conditions (WF-C529R, WF-C579R).

8 Print speeds are based on the print engine speed only. Total throughput time for any print depends on workstation configuration, file size, print resolution, ink coverage, networking, etc. Actual print speeds will vary.

9 Ability to print directly to rigid posterboard. Only available on the SureColor Td270/D models.
Scanners

Maximize productivity and simplify file management. Epson’s wide array of mobile, desktop, flatbed, photo and large-format scanners makes it easy to capture important student documents, artwork, photos and more.
MOBILE SCANNERS

Document Scanners for Staff on the Go

These lightweight mobile document scanners let administrators and staff scan documents, ID cards and more, whether working on campus or remotely. For even more flexibility, this versatile lineup includes a wireless model and ADF model for easy, efficient organization in virtually any setting.

### FEATURES

- **Organization on the go** — scanners easily fit in a shoulder bag or briefcase
- **Scan to online storage accounts** — intuitively scan to Dropbox®, SharePoint®, Evernote®, FileBound, Google Drive™ and more
- **Generate searchable and editable files** — scan to editable Word and Excel® files or searchable PDF files
- **Powerful software included** — Epson Scan 2, Epson Document Capture and more

### RECOMMENDED ACCESSORIES

- Maintenance Sheet Kit for DS-70/DS-80W (B12B252202)
- Carrier Sheets for DS-70/DS-80W (B12B253202)
- Separation Pad for DS-320 (B12B819271)
- Pick-up Roller for DS-320 (B12B819251)

*USB 3.0 power requires USB 3.0 connection port on your computer.*

These fast, efficient and compact desktop/workgroup scanners breeze through stacks of 2-sided documents — plus rigid ID cards, folded pages up to 11" x 17"** and more. Designed for situations where speed is critical and dependability is paramount, these workgroup scanners offer world-class performance at a significant value.

**DOCUMENT SCANNERS**

**Document Scanners for Records, Grading, Forms and More**

---

**FEATURES**

- Seamless compatibility with document management systems — TWAIN and ISIS drivers available for easy integration with existing software
- World-class performance and reliability — advanced paper feed technology includes Dynamic Skew Correction and Double-feed Detection
- Scan to online storage accounts — intuitively scan to Dropbox, Google Drive, SharePoint, Evernote and more
- Generate searchable and editable files — scan to editable Word and Excel files or searchable PDF files; OCR software included

**RECOMMENDED ACCESSORIES**

- Network Interface Unit (B12B808441)
- Flatbed Dock** for DS-530/770 (B12B819011)
- Carrier Sheets
- DS-410/530/575W/770/780N/870/970 (B12B819011)
- DS-860 (B12B813431)
- Roller Assembly Kit
- DS-410 (B12B819381)
- DS-530/575W/770/780N/870/970 (B12B819031)
- DS-860 (B11B813581)

*Requires optional carrier sheet (sold separately).
**Requires Epson Perfection® V19/V39 flatbed scanner (sold separately).
Document Scanners for High-speed, High-volume Scanning

Offering high-speed duplex document scanning* along with flatbed versatility, these scanners are the smart solution for fast, easy scanning for virtually any need. Use the high-capacity ADFs* to blaze through stacks of 1- or 2-sided documents, or use the flatbed to scan oversized hardbound books or other odd-sized items.

### FEATURES

- **Versatile scanning from a leader in image capturing technology** — quickly scan stacks of documents* or use the flatbed for IDs, passports, booklets, fragile items and more
- **Work smarter and more efficiently** — ultra fast speeds, long-paper scanning up to 100", built-in high-capacity ADFs, plus auto duplex scanning*
- **Seamless compatibility with document management systems** — TWAIN and ISIS drivers included for easy integration with existing software
- **3-year limited warranty** with world-class service and support — includes Advance Exchange with free Next-Business-Day Replacement13 to minimize downtime

### RECOMMENDED ACCESSORIES

- **Network Scan Module** for WorkForce DS-6500/7500/50000/60000/70000 (B12B808411)
- **Network Interface Unit** for WorkForce DS-1630 (B11B808441)
- **Roller Assembly Kit**
  - WorkForce DS-6500/7500 (B12B813481)
  - WorkForce DS-60000/70000 (B12B813501)

*ADF not available on WorkForce DS-50000.
