New color variations added to the 2019 Good Design Award winning ORIENT STAR Diver collection

ORIENT STAR has introduced 3 new Diver watches to its ORIENT STAR Sports collection. In addition to the traditional colours for which the ORIENT STAR Diver watches are known, they will also be available in themed colours representing the beauty of the sea. The new Diver watches have evolved to include a combination of colour gradations and multiple hues, with both metal and silicone straps available making them ideal for both work and play. The new models have also received the Good Design Award.

ORIENT STAR

The Diver, which was added to the ORIENT STAR Sports collection in 2019, is a true diver's watch with water resistance to 200m. It includes the new caliber F6N47, manufactured in-house, with power reserve indicator, which has been modified to meet today's divers' watch standards. The 46-F6 series automatic winding movement, known for its stability, precision and reliability, boasts excellent self-winding efficiency with a 50-hour power reserve.

The new Diver comes with a newly designed shock-resistant case, box-shaped high intensity "luminous light" indices and hands providing high visibility even in dark water.

A key feature of the new Diver is the new diving themed colour variations. The deep blue and green dials represent the depth and mystery of the ocean, while the bezel, which includes a function to prevent reverse rotation, has dual colours of deep blue plus red, and green which add a fashionable touch to this practical watch.

The new Diver comes with a bracelet with diver extension, as well as an additional reinforced silicone strap that can be used as a flexible alternative. With its smooth profile, it can be worn as easily with wet suits, business suits or casual attire.

About ORIENT STAR

Established in Japan in 1951, ORIENT STAR originates from a desire to create a mechanical watch that would become a “brightly shining star” in every aspect, from its design and movements to its manufacture and assembly. Drawing on traditional watchmaking skills and the latest in-house integrated design and manufacturing competencies, the brand has continued to create timeless pieces such as the mechanical movements of the 46-F7 series. The delicate details, sophisticated designs and fine intricacies of these high-quality masterpieces attract the attention of watch connoisseurs from all over the world.

— Product Specifications —

Collection	Sports	
Series name	Diver	
Reference	RE-AU0306L	RE-AU0307E
Movement	Automatic (with hand winding) mechanical in-house caliber F6N47 made in Japan	
Power reserve	50hrs	
Accuracy	+ 25 seconds ~ - 15 seconds per day	
Case material	Stainless steel (SUS316L)	
Case size	43.6mm / thickness 14.0mm	
Glass	Front: sapphire crystal (anti reflective coating)	
Strap	Stainless steel (SUS316L) / width 22mm / exchangeable silicon strap attached / trifold deployant buckle with push button and security latch with diver's extension
