The SureColor T-Series is designed exclusively for use with our Epson UltraChrome XD Ink and not for use with any other brands of inks or cartridges.

¹ Print speeds for a single page and for square feet per hour are based on print engine speed only. For A1/D-size prints the SC-T3270 prints slightly slower than the SC-T5270 and SC-T7270. Total throughput time for any print depends on workstation configuration, file size, print resolution, ink coverage, networking, etc.
