EXCEED YOUR VISION

MAXIMUM SPEED, LOW DUPLEX PRINTING COSTS.

Experience high printing speeds and borderless printing for up to A4 size with the EcoTank L6160/L6170/L6190 printers. Armed with PrecisionCore Heat-Free Technology, print speeds are improved for increased efficiency. The design of the new EcoTank printers makes them sleek and compact. With the tank integrated into the printer, these printers have the smallest footprint* amongst all brands of ink tank printers. Together with a new set of low-cost ink bottles which guarantees spill-free ink refilling and the paper-saving auto-duplex function, enjoy one of the lowest printing cost solutions. Maximise connectivity with a suite of Epson Connect features which enables printing on the go over a network.

*1 Print speed (Pages Per Minute) is calculated when printed on A4 plain paper in the fastest mode, 10 x 15 cm photo print speed when printed on Epson Premium Glossy Photo Paper. Print speed may vary depending on system configuration, print mode, document complexity, software, type of paper used and connectivity. Print speed does not include processing time on host computer.

#1 Black Text | #2 Black Text and graphics | #3 Photo 4R (4 x 6 ")

*2 When printed on Epson Premium Glossy Photo Paper.

*3 Default mode in accordance with ISO7779 for MFPs.

*4 Otherwise 3 mm top, left, right, bottom, and except plain paper.

*5 In accordance with ISO 24711/24712. Actual yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. A variable amount of ink remains in the cartridges after the "replace cartridge" signal. Part of the ink from the first cartridges is used for priming the printer. Ink is used for both printing and print head maintenance. All inks are used for both black and colour printing.
