Product shown with mount, sold separately.

Interactive Laser Displays

Education

The large, easy-to-read display for captivating interactive lessons.

Best-in-Class Color Brightness¹ with 3-chip 3LCD technology — 4,100 lumens of color and white brightness²

Incredible image quality — Full HD 1080p resolution for amazing clarity and readability

See more, do more — ultra wide 21:9 and 16:6 display with split screen³ support allows for simultaneous display of whiteboard and digital content

Interactive display up to 100" — provides up to 75 percent more interactive space vs. 75" interactive panels for a low cost per square inch

Multi-user capability for easy collaboration — dual-pen-enabled interactivity; optional slim design touch module allows up to eight users to collaborate at once

Convenient connectivity — works with popular applications and devices including Microsoft[®] Office 365 and Google[®] Workspace

PC-free digital whiteboard — draw, save, print and email without a computer; also share whiteboard content to other networked BrightLink projectors⁴

No lamps to replace ever — solid-state, 20,000-hour, virtually maintenance-free laser light source⁵

Connect and cast from up to 50 devices⁶ — free downloadable Epson iProjection[™] software makes it easy to cast wirelessly from Chromebooks, iOS[®] and Android[™] devices, Mac[®] computers and PCs⁶; with moderator feature⁷, teachers never lose control of the displayed content

Easy-to-use interactive Home screen — with image preview capability makes source selection easier than ever

1 Color brightness measured per IDMS 15.4. Additional colors and picture modes tested. Top-selling Epson 3LCD projectors vs. comparable top-selling 1-chip DLP projectors based on NPD sales data for October 2019 – September 2020. COLOR BRIGHTNESS WILL VARY BASED ON USAGE CONDITIONS. 2 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118. 3 Consult your user manual for split screen input combinations. 4 Networked Screen Sharing is supported by the following models: BrightLink 725Wi, 735Fi, 760Wi, 770Fi, 1480Fi and 1485Fi. 5 No required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 - 0.20 mg/m³ of particulate matter. Time varies depending on usage conditions and environment. Replacement of parts other than the light source may be required in a shorter period. 6 For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner's manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.com for details. 7 Moderator control, connecting via QR code and projector remote are not available on Epson iProjection for Chromebooks. 8 For convenient and reasonable recycling options, visit www.epson.com/recycle 9 SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
