UltraChrome® UV Ink:

Vibrant 10-color ink set includes Red and Gray Inks for an expanded color gamut and high color saturation.

High productivity and performance:

Three PrecisionCore Micro TFP® printheads help ensure extremely accurate prints at high production speeds.

Large print area:

Supports media up to 700 mm (27.5") x 980 mm (38.5").

Media versatility:

Prints directly on a wide range of materials; ideal for signage, photo, fine art, and promotional goods such as golf balls and keychains.

Print on tall items:

Automatically detects and adjusts to accommodate media up to 20 cm (7.8") thick for virtually endless printing possibilities.

Varnish Ink:

Choose between Gloss and Matte Varnish for finishes, textures and other embellishments.

Braille printing capability:

To produce output that complies with the Americans with Disabilities Act (ADA).¹

White Ink:

For high White opacity on clear or dark substrates.

Easy to use:

Open print bed with all-front operation and noncontact object height sensor provides intuitive media setup.

*Epson strongly recommends the use of genuine ink to ensure optimal print quality and performance. Use of non-genuine ink may cause damage not covered by the printer's limited warranty

* * Epson strongly recommends the use of genuine ink to ensure optimal print quality and performance. Use of non-genuine ink may cause damage not covered by the printer's limited warranty. 1 1 Compliance with the Americans with Disabilities Act is the sole responsibility of the operator. 1 2 All features of this system require an active Internet connection and the use of a supported browser. 1 3 Part of the ink from the first cartridges/packs/bottles is used for initializing the printer. Ink usage will vary considerably based on images printed, print settings, paper type, frequency of use, temperature and humidity. Variance may be more pronounced when printing infrequently or predominantly with one ink color. Ink is used for printing and printer maintenance, and all colors must be available for printing. For print quality, a variable amount of ink remains after the "replace ink" indicator comes on. 1 4 For the latest drivers, visit epson.com/support 1 5 For convenient and reasonable recycling options, visit epson.com/recycle 1 6 SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
