EcoTank M15140

TURNING A NEW PAGE IN LOW-COST, HIGH-PERFORMANCE A3+ MONOCHROME PRINTING

The Monochrome EcoTank M15140 multi-function printer is engineered to handle workloads at office effortlessly. It's powered by Epson's Heat-Free Technology - an innovation that helps consume less power, as compared to laser printers, thereby saving money and the environment. Printing turns uninterrupted with high-capacity refill ink bottles that deliver up to 6,000 pages each. WiFi Direct and Epson Connect facilitate printing from PCs and smart devices. All of the above plus a warranty of 1 year or up to 350,000 pages[1] for complete peace of mind.

Epson's Heat-Free Technology

An innovation that does not require heat in the ink ejection process as opposed to laser printers which need to heat the toner drum for printing. As a result, offices will cut costs, reduce power consumption and mitigate environmental impact.

Increased Efficiency

A print speed of up to 25 ipm^ and a scan speed of up to 26 ipm^ help offices blaze through jobs.

High-capacity Paper Trays

Two 250-sheet A3 front trays, a 50-sheet A3 rear feed and a 50-sheet A3 ADF for reduced loading frequencies.

*1 Print speed (Pages Per Minute) is calculated when printed on A4 plain paper in the fastest mode, Print speed may vary depending on system configuration, print mode, document complexity, software, type of paper used and connectivity. Print speed does not include processing time on host computer.

#1
Black text

*2 Default mode in accordance with ISO7779 for MFPs

*3 Quoted yields are based on the ISO 24711/24712 patterns of mixed text and colour graphics with Epson methodology. Quoted yields are based on the replacement ink bottles purchased. For print quality, part of the ink from the included bottles is used for printer startup so yields could be lower than those of replacement ink bottles. Actual yields will vary due to reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. Ink is used for both printing and printhead maintenance. All inks are used for both black and colour printing.
