Today’s rapidly changing educational landscape demands intelligent, easy-to-use technology that inspires new ways of thinking. At Epson, we have 40 years of experience developing groundbreaking education tools to help engage students, promote collaboration, and support faculty and administrators. From the classroom to the administrative office, our cost-effective, reliable and versatile Brighter Futures® solutions will help you shape your curriculum and drive the future of education at your institution.

Designed for the Classroom and Beyond
Enhance every student’s learning experience with dynamic, user-friendly imaging technology that invites participation and engages viewers in any environment, whether it’s a classroom, lab or gymnasium. From advanced displays, projectors, printers and scanners all the way to our innovative Moverio® smart glasses, Epson’s comprehensive suite of education solutions will meet any need.

Budget-friendly Solutions
We understand budgets can be tight, so we make solutions accessible through our Brighter Futures program with special pricing for schools, districts and other agencies. Our products offer outstanding value, solid reliability, and easy integration with existing curriculum software and systems to help schools achieve a better bottom line. Find the latest pricing information online at www.epson.com/edguide

Reliability You Can Count On
Our products are designed to work day in and day out, so teachers and staff can focus on the classroom. Offering decades of road-tested reliability, Epson® education solutions are backed by unsurpassed customer service and support that goes the extra mile.

Displays and Projectors

Whether you’re searching for state-of-the-art laser displays, networked classroom projectors, or visual solutions for larger rooms and venues, Epson offers a comprehensive lineup of displays and projectors that are designed to connect students and teachers in ways never before imagined.

We understand that — just like no two students are alike — each classroom and learning environment offers a unique space for exploration and understanding. From interactive whiteboarding solutions that make collaborative, personalized learning a regular part of instruction to high-brightness, large-venue products for well-lit spaces, Epson is education’s #1 choice for projection technology.
Display Size Makes a Difference in the Classroom

A recent study shows that 58 percent of students can't read content on a 70" flat panel. That's why it's important that a classroom display is large enough for every student to clearly see it in an average-sized classroom — and read what's on it from anywhere in the room. For many classrooms, flat-panel displays are simply too small to give students optimum readability. In contrast, Epson offers the flexibility to maximize readability for all students. To understand the connection between display size and viewing distance, and for help in making sure your display image size meets your goals, visit www.epson.com/classroomdisplaysize

Visibility in different rooms and seating arrangements

For detailed information on why “Display Size Matters” for classrooms, including the 4/6/8 rule, visit www.epson.com/classroomdisplaysize

Drawings not to scale.
See page 27 for projector disclaimers.
Epson Technology Advantages

Epson 3-chip, 3LCD technology delivers high color brightness, uncompromising image quality and road-tested reliability, making our visual solutions an ideal fit for any learning space. Plus, they offer large, easy-to-see images and the latest in connectivity and support for Chromebooks, tablets and smartphones.

Wirelessly share content from multiple devices, including Chromebooks

Designed for today’s BYOD and 1:1 classrooms, Epson iProjection™ is a robust wireless solution offering true multi-platform support for Chromebooks, PCs and Mac® computers, as well as iOS® and Android™ devices. Students and teachers alike can wirelessly display documents, images, webpages and more from their devices for the entire classroom to see on the big screen. Advanced functionality includes two-way content sharing — available with select Epson models — annotation, real-time mobile camera display and more.

Plus, Epson iProjection’s built-in Moderator feature — available for both mobile devices and computers — allows teachers to connect up to 50 devices, then manage and display content from up to four students at a time. It’s the perfect tool for sharing a variety of content at once, or for comparing students’ work side by side.

And, Epson iProjection for Chromebook™ makes it easy for students to wirelessly share their Chromebook screens with the rest of the class. With full mirroring capabilities, the app allows students to display content from Google Docs™, Google Slides™ and Google Sheets™, as well as Web content from their Chrome™ browser (audio support not available for mirroring).

Find out more, including device compatibility, at [www.epson.com/projectorapp](http://www.epson.com/projectorapp)
Epson Laser Projection Technology

**Virtually maintenance-free operation**
As a world leader in digital 3LCD projection solutions, Epson continues to drive the future of classroom and projection technology with its full suite of laser displays and projectors. Featuring lamp-free, long-life, laser light engines, Epson laser solutions achieve new levels of performance and reliability.

**Why choose laser?**
- **Breakthrough laser technology** — long-life laser light engine provides up to 20,000 hours of light source life\(^4\)
- **Outstanding color performance and contrast** — get exceptional, true-to-life color reproduction and deep, dark blacks for stunning visuals you can count on for an array of applications
- **Instant Off\(^R\)/On** — displays and projectors reach maximum brightness and turn off almost immediately, without having to warm up or cool down
- **Reliable operation** — ideal for applications requiring continuous projection

www.epson.com/edguide
Engage the entire classroom with these bright, dynamic and easy-to-use interactive displays, available in laser and lamp-based models. Offering dual-user pen-based and/or touch-enabled interactivity for up to six users at a time (on select models), these displays are designed to maximize classroom collaboration and allow you to share lessons — or students’ work — from Chromebooks, computers, iOS and Android devices, or annotate PC-free with no device at all.

**BRIGHTLINK® AND BRIGHTLINK PRO SERIES**

### Interactive Displays

**FEATURES**

- **Fully integrated, pen- and finger-based interactivity** — turns almost any existing dry-erase board or plain wall into an interactive workspace (finger-based interactivity available on select models)
- **Easy content sharing** — share images between the big screen and wirelessly connected mobile devices, for individualized learning³
- **Brilliant image quality up to Full HD WUXGA** — with up to 4,400 lumens of color brightness and 4,400 lumens of white brightness⁵
- **Laser models available** — up to 20,000 hours of light source life⁴

### RECOMMENDED ACCESSORIES

- **Short-throw Wall Mount for BrightLink 536Wi**
- **Ultra Short-throw Wall Mount**
- **Wireless LAN Module**
- **100" Whiteboard**
- **Replacement Pen — Orange**
- **Replacement Pen — Blue**
- **Replacement Air Filter for Laser Displays V13H134A43 (ELPAF43)**

**FEATURES**

- **Portable, lightweight and travel friendly** — projectors weigh just 4 lb
- **Wireless support** — display Chromebook, iOS, Android, Mac and PC screens
- **Easy setup and image adjustments** — auto Screen Fit, auto Power On, auto vertical keystone correction

**RECOMMENDED ACCESSORIES**

- ES1000 Screen
- ES3000 Screen
- DC-21 Document Camera

**CONNECTIVITY**

Product shown is PowerLite 1795F. Visit [www.epson.com/support](http://www.epson.com/support) to see the connectivity options for all models listed.

*Standard limited warranty is 2 years. Brighter Futures pricing includes 1-year warranty extension.

See page 25–27 for product codes and more information.
POWERLITE 2000 SERIES

Projectors for Large Rooms and Rooms with High Ambient Light

These portable powerhouse projectors bring stunning high-definition images to medium- and large-sized classrooms and training halls. Select models feature HDBaseT™ for easy installation, as well as enterprise-level wireless security and Miracast® screen mirroring from mobile devices.

FEATURES

- **Versatile in every way** — small enough for moving from room to room; features a full array of connectivity options, including 2x HDMI, MHL®, VGA, RJ-45 and more
- **Robust integrated wireless networking** — enterprise-level security for peace of mind; compatible with WPA, WPA2-PSK and WPA2-EAP security protocols (optional on some models)
- **Simultaneously display and control multiple device screens** — wirelessly share content from up to four devices with Epson iProjection’s built-in Moderator feature³
- **Wireless support** — display Chromebook, iOS, Android, Mac and PC screens²

RECOMMENDED ACCESSORIES

- Universal Projector Kit
- Wireless LAN Module
- Replacement Air Filter for PowerLite 2142W/2247U V13H134A55 (ELPAF55)
- Replacement Air Filter for PowerLite 2065/2250U/2255U V13H134A41 (ELPAF41)
- HDBaseT Transmitter**

See pages 25–27 for product codes and more information.

CONNECTIVITY

*Standard limited warranty is 2 years. Brighter Futures pricing includes 1-year warranty extension.
**Specifications vary by model.
Laser Projectors for Large Rooms and Rooms with High Ambient Light

Featuring a lamp-free laser light engine rated for up to 20,000 hours, these bright laser projectors offer virtually maintenance-free operation for the life of the optical engine. Ideal for medium- and large-sized classrooms and training halls, select models feature HDBaseT for easy installation. Enterprise-level wireless security is also available on select models, or by purchasing an optional wireless LAN module.

**FEATURES**

- **Breakthrough laser technology** — features a laser light source of up to 20,000 hours; plus, Instant Off/On
- **Virtually maintenance-free operation** — for the life of the optical engine
- **Wireless networking with enterprise-level security** — plus wireless content sharing with Epson iProjection; available on select models, or with optional LAN module where indicated
- **Advanced installation features** — 360-degree flexibility and geometric correction tools such as horizontal and vertical keystone, arc correction, Quick Corner and more

**RECOMMENDED ACCESSORIES**

- Universal Projector Kit
- Wireless LAN Module
- Replacement Air Filter V13H134A56 (ELPAF56)
- HDBaseT Transmitter

See pages 25–27 for product codes and more information.

Large-venue Projectors

Designed for exceptional performance, Epson large-venue installation projectors are powerful performers for virtually all large spaces, including auditoriums, gymnasiums, cafeterias, stadiums and more. Available in laser and lamp-based models, these large-venue projectors feature high lumens for bright, colorful images and utilize advanced display technologies to create immersive experiences that will captivate any audience.

Visit www.epson.com/largevenue for more information and to compare models.

Why choose Epson for your large-venue projection needs?

- **3-chip, 3LCD technology** — for high color brightness
- **Industry-leading service and support** — limited warranty of 3 years or 20,000 hours, whichever comes first, plus free Next-Business-Day Replacement with postage-paid returns
- **Epson 4K Enhancement Technology** — a revolutionary technology that accepts 4K signal and enhances the native resolution for output that surpasses Full HD image quality
- **Wide selection of powered lenses with lens memory** — including zero- and negative-offset 0.35 ultra short-throw lenses for shallow spaces
- **Diverse connectivity options** — including 3G-SDI, HDBaseT, DVI-D, HDMI, 5-BNC and wireless
- **Emulation Mode** — saves time and money when replacing other manufacturers’ projectors
- **Compatible with leading control systems** — such as Crestron, AMX, Extron XTP®, Control4 and Art-Net*

---

\(^1\)Specifications vary by model.
**Large-venue Installation Projectors**

These laser large-venue installation projectors offer virtually maintenance-free operation, with a laser light source rated up to 20,000 hours\(^4\). The projectors also deliver up to native Full HD WUXGA performance with Epson 4K Enhancement Technology\(^{13}\) and exceptional integration capabilities.

## Features

- **Up to 15,000 lumens color and white brightness**\(^5\) — Epson is the first projector manufacturer to combine inorganic 3LCD panels with an inorganic phosphor wheel to achieve high brightness and reliability.
- **Industry-leading service and support** — limited warranty of 3 years or 20,000 hours, whichever comes first, plus free Next-Business-Day Replacement\(^{12}\) with postage-paid returns.
- **Wide selection of powered lenses with lens memory** — including zero- and negative-offset 0.35 ultra short-throw lenses for shallow spaces\(^{**}\).
- **Versatile connectivity** — supports the full range of inputs, including HDBaseT, HDMI, DVI-D, 3G-SDI*, VGA and 5-BNC, for easy integration with any system.

Optional Ultra Short-throw Lenses

Transform your Pro G or Pro L Series projector into an ultra short-throw display for ultimate installation flexibility. Install the projector just inches from the screen or wall — away from foot traffic — and still get huge, bright, crisp projection. Featuring a 0.35 throw ratio — plus zero offset on the ELPLX01 and negative offset on the ELPLX02 — these lenses are ideal for installation in narrow or tight spaces. And, wide lens shift gives you even more flexibility when you need it.

Using this lens, you can project from above or below for a dynamic screen or wall display.

*Lens compatibility varies by model. See page 23 for details.

Epson offers an array of projector lenses to fit all types of applications and requirements.

See page 27 for projector disclaimers.
**LIGHTSCENE™ SERIES**

**Accent Lighting Laser Projectors**

A convergence of lighting and display technology, LightScene laser projectors captivate audiences by simultaneously illuminating and projecting on virtually any surface or material. This groundbreaking solution elevates ordinary spaces into stunning visual environments, unleashing dynamic, experiential content. Utilize LightScene to display your school logo, highlight donors, direct students and staff to the library or a particular classroom, or even animate digital mascots.

**FEATURES**

- **Create head-turning digital signage** — illuminate and project on virtually any surface or material for basic signage, wayfinding, school branding and promotional messaging.

- **Blends in discreetly** — sleek, white spotlight design easily blends into its surroundings, offering vertical and horizontal rotation, with flexible mounting on tracks, floors, walls or ceilings.

- **Breakthrough laser technology** — provides up to 20,000 hours of light source life, plus a sealed optical engine, for amazing image quality matched by outstanding performance.

- **Robust management and control tools** — via Epson’s Web-based application or over the network with Crestron®, Art-Net and more.

Connectivity
HDBaseT Transmitter | V12H547020 (ELPHD01)
Maximize convenience with this optional HDBaseT transmitter box, a great companion piece to select models in the PowerLite L Series, 2000 and 5000 Series, as well as the Pro G and L Series. Three inputs are featured for easy installation: HDMI, LAN and RS-232 to output into a CAT-5/6 cable.

Wireless LAN Module | V12H731P02 (ELPAP10)
These high-speed, wireless network adapters plug directly into select Epson projectors and displays, allowing quick and easy access to the LAN or peer-to-peer networks without wires or cables. When used with Epson Projector Management Software, Network Projection and Multi-PC Projection software, they allow users to remotely access and control projectors over the wireless LAN.
- Compliant with 802.11 b/g/n standards
- Compatible with PC or Mac
- Uses USB Type-A connector
- Able to transmit audio

Sound Enhancement
Active Speakers | V12H467020 (ELPSP02)
Enhance the learning experience with 30 W of rich, powerful sound. This active speaker set (with built-in amplifiers) lets students clearly hear lessons. The ELPSP02 speakers can be easily mounted on the wall and used with any Epson projector or display, with or without the PowerLite Pilot.

Audio/Visual Control Systems
PixiePlus™ | ELPSP10
Featuring a sleek, space-saving design, PixiePlus is an affordable, easy-to-use projector control system designed for in-wall installation.
- Easy installation — installs in any standard wall box
- Save both money and energy — automatic projector shutdown timer feature

PowerLite Pilot 3 Connection and Control Box | V12H927020 (ELPCB03)
Maximize cable management and control for your classroom projector with the PowerLite Pilot 3, a convenient wall-mounted A/V connection and control box for Epson short-throw and ultra short-throw projectors. Designed to support an array of devices, the PowerLite Pilot 3 streamlines source switching and volume control. With 3x HDMI control buttons (including 1 MHL), you can select from an array of connected classroom devices — and even display two sources side-by-side onscreen at once using your projector’s Split Screen feature. You can also use it as an extension box to expand the range of your cables and increase flexibility.

Whiteboards and Screens
100” Whiteboard (16:10) | V12H831000
A combined projection and dry-erase surface, this 100” Whiteboard is the ultimate projection partner for classrooms. Featuring a matte-white, low-gloss surface, this Whiteboard enables high-quality projection with minimal glare or reflection. Ideal for use with widescreen projectors.

ES1000 Ultra Portable Tabletop Projection Screen | V12H002S4Y
This lightweight, compact screen is the perfect partner for on-the-go lessons. When you’re ready to present, the ES1000’s unique one-piece design allows you to set up quickly and easily on any tabletop in less than 30 seconds. It conveniently accommodates up to a 50” (diagonal) image. And, when it’s time to shut down, the ES1000 stores quickly and easily in just seconds.

See page 27 for projector disclaimers. www.epson.com/edguide
Display and Projector Accessories

100" Whiteboard for Projection and Dry-erase | V12H831000
A combined projection and dry-erase surface, this 100" Whiteboard is the ultimate projection partner for classrooms. Ideal for use with your widescreen WXGA projector.

Interactive Pens
Replacement Pens | Orange V12H773010 (ELPPN05A) / Blue V11H774010 (ELPPN05B)
These two pens offer interactive drawing and mouse capabilities and simultaneous operation with BrightLink 500 Series, 600 Series and 710Ui interactive displays. Powered by a single AA battery, the pens include a convenient on/off power button with Sleep Mode to prolong battery life.

Mounting Accessories
Short-throw Wall Mount | V12H706020 (ELPMB45)
Designed exclusively for use with Epson’s PowerLite 500 Series short-throw displays, as well as the BrightLink 536Wi, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation, while the vertical and horizontal adjustments provide easy image alignment. And, when your short-throw display is attached to the wall mount, there is less shadow interference and glare, for a more optimal presenting and viewing experience.

Ultra Short-throw Wall Mount | V12H777020 (ELPMB46)
Designed exclusively for use with Epson’s PowerLite 600 Series and BrightLink 600 Series ultra short-throw displays, as well as the PowerLite 680 for SMART and PowerLite 685W for SMART, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation from 53" – 100", while the vertical and horizontal adjustments provide easy image alignment. And, when your ultra short-throw display is attached to the wall mount, there is less shadow interference and glare, for a more optimal presenting and viewing experience.

Ultra Short-throw Wall Mount for Laser Displays | V12H902020 (ELPMB53)
Designed exclusively for use with Epson’s PowerLite, BrightLink and BrightLink Pro ultra short-throw laser displays, this wall mount offers an easy, affordable solution for wall-mounted displays. The wide mounting plate and telescopic extension arm offer convenient and flexible installation from 70" – 100" for BrightLink 710Ui and BrightLink Pro 1470Ui, and up to 130" for the PowerLite 700U. And, when your ultra short-throw display is attached to the wall mount, there is less shadow interference and glare, for a more optimal presenting and viewing experience.

Low Ceiling Mount / High Ceiling Mount | V12H802010 (ELPMB47) / V12H803010 (ELPMB48)
Specifically designed for use with Epson Pro G and L Series projectors, these heavy-duty mounts support up to 165 lb and offer independent adjustments for vertical tilt, horizontal roll, and rotation. The Low Ceiling Mount offers a low-profile, aesthetic design, while the High Ceiling Mount features MicroZone adjustments for fast, precise projector registration. And, their sleek, silver finish blends in with ceilings.

Adapter Plate for SMART UF55/65/70/75 Series Mount | V12H870001
A cost-effective solution, this easy-to-install bracket enables a quick retrofit solution for SMART Board interactive systems using select Epson projectors.

Universal Projector Kit | V12H808001 (ELPMBPJG)
Includes a Universal Projector Mount, 3" (76 mm) Fixed Extension Column and Speed-Connect Ceiling Plate.
Custom Micro-adjustable Projector Mount | V12H809001 (ELPMBPRH)
Specifically designed for use with the Epson Pro G and PowerLite 2000 and 5000 Series.

Speed-Connect Above-tile Suspended Ceiling Kit | V12H804001 (ELPMBP04)
Provides a host of features for fast, secure installation of most Epson lightweight, front-projection models.

Suspended Ceiling Tile Replacement Kit | V12H805001 (ELPMBP05)
Designed to replace one 2' x 2' ceiling tile or to sit above a suspended ceiling.

Speed-Connect Suspended Ceiling Tile Replacement Kit | V12H806001 (ELPMBP06)
Provides features for fast, secure installation of most Epson lightweight, front-projection models.

6" Speed-Connect Ceiling Plate | V12H807001 (ELPMBP07)
Offers a clean look and time-saving cable management features while focusing on the speed of installation.

9" – 12" Adjustable Extension Column | V12H810001 (ELPMBC02)
Saves installation time and designed to maximize security.

6" Fixed Extension Column | V12H811001 (ELPMBC03)
Lowers projectors to the desired height.

3" Fixed Extension Column | V12H812001 (ELPMBC04)
Lowers projectors to the desired height.

Projector Disclaimers
1 Leading 70” class 4K resolution flat panel in a 22’ (width) by 27’ (depth) classroom-style arrangement. Participants were seated 8’ to 27’ from the display. When asked to copy down six short items of information from slides being displayed, 58 percent of students ages 12 – 22 copied at least one item incorrectly. Based on U.S. research conducted by Radius Research 2016.
2 For wireless functionality, including via the Epson Projection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner’s manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson Projection App does not support all files and formats. See www.epson.com for details.
3 Moderator control, Image sharing, Annotation tools, Connecting via QR code and Projector Remote are not available on Epson iProjection for Chromebooks.
4 Actual hours may vary depending on mode and usage environment. For the Pro L Series laser projectors, 20,000 hours is the estimated laser light source life when the projector is used in Normal Mode in an ordinary environment. The projector has a limited warranty of 3 years or 20,000 hours, whichever comes first; for the BrightLink Pro 1470Ui, BrightLink 710Ui, and PowerLite 700U, 20,000 hours is the estimated light source life when used in Normal Mode. The projector comes with a 3-year limited warranty; for the PowerLite L400/500/600 Series, 20,000 hours is the estimated light source life when used in Normal Mode. The projector has a standard limited warranty of 3 years; for LightScene, 20,000 hours is the estimated projector life when used in Normal Mode. The projector has a limited warranty of 3 years or 20,000 hours, whichever comes first.
5 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.
6 Full HD WUXGA (1920 x 1200), SXGA+ (1400 x 1050), WXGA (1280 x 800), XGA (1024 x 768), SVGA (800 x 600).
7 Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.
8 Requires Easy Interactive Driver. Certain functionality is only available through Easy Interactive Tools (EIT) software. For a list of supported operating systems, visit www.epson.com.
9 Includes one Mobile High-Definition Link® (MHL) HDMI port.
10 Life of the optical engine may vary depending on mode and usage environment. The projector has a standard limited warranty of 3 years.
11 Works only with Epson projectors that support presentation over the network capability.
12 Expedited shipping not available in all areas. Road Service orders must be in by 3 p.m. Eastern Time for Next-Business-Day delivery.
13 4K Enhancement Technology shifts each pixel diagonally by 0.5 pixels to double the resolution and surpass Full HD image quality.
14 Emulation Mode is limited to certain code sets and may not support all codes. Contact Epson Support for the latest supported sets.
15 Split Screen feature requires remote control. Consult your user manual for input combinations.
Journey to the intersection of discovery and understanding with Epson document cameras, which allow students and teachers to explore content, objects and complex concepts in real time. With features like one-touch auto focus, digital zoom, HDMI connectivity and a microscope adapter, these essential instructional tools elevate math, science, technology and arts lessons into engaging and dynamic learning experiences.
Engage students like never before with Epson’s easy-to-use document cameras. Capture and display books, 3D objects and experiments with amazing HD 1080p resolution. Display content from your tablet, PC or Mac computer, record lessons for viewing at a later time, and give students a more interactive learning experience.

**FEATURES**

- **Astounding clarity and remarkable detail** — with one-touch auto focus
- **Share magnified images** — microscope adapter included on the DC-13 and DC-21; supports many standard microscopes
- **Record and share audio/video lessons** — built-in microphone and included software; one-touch A/V recording
- **Convenient Freeze and Capture buttons** — easily pause and/or resume the image

**CONNECTIVITY**

Product shown is DC-21.

Printers

Bring color printing back to school with Epson printers and all-in-ones. Ideal for educators, administrators and students alike, this innovative lineup — including our groundbreaking EcoTank® Supertank printers and Replaceable Ink Pack System (RIPS) printers — makes color printing affordable again.
Epson’s EcoTank line of Supertank all-in-one printers features Cartridge-Free Printing and revolutionary ink replacement technology. They offer an unbeatable combination of value* and convenience, with super-high-capacity, easy-to-fill ink tanks. These all-in-one printers come with enough ink in the box to print for up to 2 years*, so you can print thousands of pages black/color** before replacing ink.

Maximize convenience, savings, quality and reliability, all in one incredible printer. EcoTank printers offer the freedom to print in color, with less impact on your supplies budget — you’ll save up to 80 percent with low-cost replacement ink bottles vs. ink cartridges*** (ET-3750, ET-4750 and ET-16500 only). It’s the smart choice for high-volume, high-quality, hassle-free printing.

### FEATURES

- **Cartridge-Free Printing** — comes with up to 2 years of ink in the box*
- **Save up to 80 percent with low-cost ink replacement bottles vs. ink cartridges*** — features easy-to-fill, supersized ink tanks (ET-3750, ET-4750 and ET-16500 only)
- **Chromebook printing right out of the box** — no additional software is required
- **Ultimate wireless solution plus Ethernet** — easy iPad®, iPhone®, Android tablet and smartphone printing2; includes Wi-Fi Direct1 for network-free printing

---

*Based on average monthly document print volumes of about 300 pages (ET-3750, ET-4750, ET-16500) and 450 pages (ET-8700).

**ET-3750/4750/16500 included ink bottle yields based on the ISO/IEC 24712 pattern with Epson’s methodology. ET-8700 included ink pack yields are estimated based on ISO/IEC 24711 test in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors must be available for printing. For more information, visit www.epson.com/inkinfo

***Savings comparison based on the purchase cost of replacement ink bottles and the cost of enough cartridges to achieve the total page yields of the bottles using the manufacturers’ online prices and yields for the highest-capacity cartridges for the best-selling similarly featured consumer inkjet printers priced at $499 USD or less per NPD, August 2018. Actual savings will vary based on print tasks, print volumes and usage conditions.

****Designed for use exclusively with Epson ink packs.

See page 36 for printer disclaimers.
WORKFORCE PRO SERIES

High-volume Distributed Printing for Administrative Offices

Ideal for fast, high-volume, low-cost, letter-size black-and-white and/or color printing for administrative offices and teacher prep, Epson WorkForce Pro printers and all-in-ones offer heavy-duty, reliable performance, plus easy, secure and cost-effective print management for your entire education network.

FEATURES

• Low total cost of ownership — up to 60% lower total printing costs vs. monochrome laser (WF-M5299, WF-M5799); up to 45% lower total printing costs vs. color laser (WF-C5290, WF-C5790); up to 50% lower printing costs vs. color laser (WF-6090, 6590); and up to 75% lower total printing costs vs. color laser (WF-C529R, WF-C579R)

• Versatile paper handling — auto 2-sided printing with multiple trays for uninterrupted printing with different paper types

• PaperCut™ ready — customizable print management option; manage and track prints from touchscreen via user login or ID card

• Security features — PIN number certification for job release; user control access, printer and network settings via Web Config with printer’s IP address; SSL/TLS security; IPsec

RECOMMENDED ACCESSORIES

WorkForce Pro WF-5000 Series
- Optional 500-sheet Paper Cassette Tray (C12C932871)
- Maintenance Box (T671600)

WorkForce Pro WF-C8000 Series
- Optional 500-sheet Paper Cassette Tray (C12C932611)
- Optional Cabinet (C12C932991)
- Maintenance Box (T671400, C13T671200)

WHAT IS THE REPLACEABLE INK PACK SYSTEM (RIPS)?

WorkForce Pro printers featuring Epson’s Replaceable Ink Pack System use high-capacity ink packs to help reduce total operating costs, providing amazingly affordable, low-cost printing plus versatile media handling for budget-minded schools.

The replacement ink packs for the WF-C529R and WF-C579R deliver enough ink to print up to 50,000 pages black/20,000 color** — equivalent to 100 reams of paper or up to 35 toner cartridges.***

*Designed for use exclusively with Epson cartridges or ink packs (ink delivery varies by model).

**Replacement cartridge and ink pack yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer/all-in-one maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges or packs is used for printer startup and a variable amount of ink remains in the cartridges or packs after the “replace cartridge” or “replace ink pack” signal. For more information, see www.epson.com/inkinfo.

***About 35 toner cartridges estimate based on print yields of the replacement Black and color ink packs as compared to highest-capacity toner cartridges for similarly featured color laser printers based on NPD data, Sept. 2016.
Epson’s WorkForce and WorkForce Pro wide-format printers and all-in-ones offer fast tabloid printing and scanning for pages as large as 13” x 19”. Their versatility is ideal for printing posters, flyers and worksheets by both students and staff.

**FEATURES**
- Versatile paper handling — print letter-sized documents all the way up to 13” x 19”, with auto 2-sided printing and high-capacity paper trays for uninterrupted printing
- Low total cost of ownership — significant savings and dramatically reduced power usage vs. color laser printers
- PaperCut ready — customizable print management option; manage and track prints from touchscreen via user login or ID card***
- Security features — PIN number certification for job release; user control access, printer and network settings via Web Config with printer’s IP address; SSL/TLS security; IPsec***

**RECOMMENDED ACCESSORIES**
- WorkForce Pro WF-8000 Series
  - Optional 500-sheet Paper Cassette (C12C932611)
  - Optional Cabinet (C12C932891)
  - Maintenance Box (T671400)
  - Optional Retractable Output Tray (C12C934171)
- WorkForce Pro WF-C869R
  - Optional 500-sheet Paper Cassette (C12C932611)
  - Optional Cabinet (C12C932891)
  - Maintenance Box (T671400)
  - Optional Retractable Output Tray (C12C934171) – WF-8000 Series, WF-C869R

* Designed for use exclusively with Epson cartridges or ink packs (ink delivery varies by model)**.

**Replacement cartridge and ink pack yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer/all-in-one maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges or packs is used for printer startup and a variable amount of ink remains in the cartridges or packs after the “replace cartridge” or “replace ink pack” signal. For more information, see www.epson.com/inkinfo***

**Not available on the WorkForce WF-7000 series.**

The WorkForce Pro WF-C869R is fitted with an economical, large-capacity Replaceable Ink Pack System so you can print substantially more pages before replacing inks. The replacement ink packs for the WF-C869R deliver enough ink to print up to 86,000 pages black/84,000 color.**

---

**WORKFORCE AND WORKFORCE PRO SERIES**

**Wide-format Distributed Printing for Libraries and Media Centers**

Epson’s WorkForce and WorkForce Pro wide-format printers and all-in-ones offer fast tabloid printing and scanning for pages as large as 13” x 19”. Their versatility is ideal for printing posters, flyers and worksheets by both students and staff.
Ultra High-speed Multifunction Network Printers

Epson’s flagship color multifunction network printers speed through prints at 100 ISO ppm† on the WF-C20590, the fastest in its class. Powered by PrecisionCore® Line Head Technology, they deliver brilliant-quality output. Powerful but efficient printers, they utilize up to 50 percent less power than color lasers†, to keep operating costs in check, and can be installed with any 110 V outlet.

**FEATURES**

- **Breakthrough print speed** — 100 ISO ppm† on the WF-C20590, the fastest in its class.

- **Quality without compromise** — advanced PrecisionCore technology and a stationary line head deliver both speed and professional-quality output.

- **PaperCut ready** — customizable print management option; manage and track prints from touchscreen via user login or ID card (PaperCut software sold separately).

- **Conserve energy** — up to 50 percent lower power consumption than color lasers†, works with any 110 V outlet.

**RECOMMENDED ACCESSORIES**

- Optional Professional Finisher with Bridge Unit (C12C933261BU)

- Optional High-capacity Input Tray (C12C933331)

- Optional Paper Cassette Lock (C12C933231)

*Replacement cartridge yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer startup and a variable amount of ink remains in the cartridges after the “replace cartridge” signal. For details, see www.epson.com/inkinfo.

See page 36 for printer disclaimers.

This intuitive 9” interface makes it easy to do more — print, copy, scan — with just a touch.
**EPSON SURECOLOR® T-SERIES PRINTERS**

Large-format Single and Multifunction Graphics Printers

Produce professional-quality graphics and signs for a fraction of the cost of outsourcing printing. Whether you’re looking to print posters for a fundraiser or student performance, backlit film for a lighted display, or simple plain-paper flyers, it’s all in a day’s work with Epson SureColor T-Series printers.

**FEATURES**

- **No need to laminate** — prints are water resistant and smudge resistant with UltraChrome XD and UltraChrome XD2 pigment ink
- **Low cost of operation** — high-capacity ink cartridges up to 700 mL for low printing costs
- **Versatile** — print a variety of media, including rigid posterboard up to 1.5 mm thick

- **Optional 320GB internal print server** — remotely manage print queues and save and reprint jobs (available for select models; sold separately)

**RECOMMENDED ACCESSORIES**

- **Optional Stand** (C12C933151) – T3170 only
- **Multifunction Scanner Module** for 36” (SCT36SCAN) – T5270D only
- **Multifunction Scanner Module** for 44” (SCT44SCAN) – T7270/D only
- **320GB Internal Print Server** (C12C848031) – Tx270/D only

**Optional Resources**

- Print speeds are based on the print engine speed only. Total throughput time for any print depends on workstation configuration, file size, print resolution, ink coverage, networking, etc. Actual print speeds will vary.
- Ability to print directly to rigid posterboard. Only available on the SureColor Tx270/D models.
Maximize productivity and simplify file management. Our wide array of mobile, desktop, flatbed, photo and large-format scanners makes it easy to capture important student documents, artwork, photos and more.
Document Scanners for Staff on the Go

These lightweight mobile document scanners let educators and administrators scan documents, ID cards and more, whether working on campus or remotely. For even more flexibility, this versatile lineup includes wireless and ADF models for easy, efficient organization in virtually any setting.

### FEATURES
- **Organization on the go** — scanners easily fit in a shoulder bag or briefcase
- **Scan to online storage accounts** — intuitively scan to Dropbox®, SharePoint®, Evernote®, FileBound, Google Drive™ and more
- **Generate searchable and editable files** — scan to editable Word and Excel® files or searchable PDF files
- **Powerful software included** — Epson Scan 2, Epson Document Capture and more

### RECOMMENDED ACCESSORIES
- Maintenance Sheet Kit for DS-70/DS-80W (B12B819481)
- Carrier Sheets for DS-70/DS-80W (B12B819451)
- Separation Pad for DS-320 (B12B819271)
- Pick-up Roller for DS-320 (B12B819251)

*USB power requires USB 3.0 connection port on your computer.

*See page 42 for scanner disclaimers.
These fast, efficient and compact desktop/workgroup scanners breeze through stacks of 2-sided documents — plus rigid ID cards, folded pages up to 11" x 17"* and more. Designed for situations where speed is critical and dependability is paramount, these workgroup scanners offer world-class performance at a significant value.

### FEATURES

- **Seamless compatibility with document management systems** — TWAIN and ISIS drivers available for easy integration with existing software<sup>9</sup>
- **Versatile paper handling** — scan mixed stacks of business and ID cards, single sheets, long documents, and folded pages up to 11" x 17" (carrier sheet required for folded oversized pages, sold separately)
- **Advanced paper feed technology** — includes Dynamic Skew Correction and Double-feed Detection
- **Scan to online storage accounts**<sup>4</sup> — intuitively scan to Dropbox, Google Drive, SharePoint, Evernote and more

### RECOMMENDED ACCESSORIES

<sup>a</sup>Requires optional carrier sheet (sold separately).

<sup>b</sup>Requires Epson Perfection® V19/V39 flatbed scanner (sold separately).
Document Scanners for High-speed, High-volume Scanning

Offering high-speed duplex document scanning along with flatbed versatility, these scanners are the smart solution for fast, easy scanning for virtually any need. Use the high-capacity ADFs to blaze through stacks of 1- or 2-sided documents, or use the flatbed to scan hardbound books or other odd-sized items.

**FEATURES**

- **Achieve remarkable results** — 4-line CCD sensor (RGB and black) provides vivid color and crisp, sharp text (not available on DS-1630)
- **Work smarter and more efficiently** — ultra fast speeds, long-paper scanning up to 100", built-in high-capacity ADFs, plus auto duplex scanning*
- **Seamless compatibility with document management systems** — TWAIN and ISIS drivers included for easy integration with existing software15
- **3-year limited warranty'' with world-class service and support** — includes Advance Exchange with free Next-Business-Day Replacement16 to minimize downtime

EPSON PERFECTION AND EPSON EXPRESSION® SERIES

Photo and Graphic Arts Scanners

Epson offers a wide range of photo scanners perfect for media centers, libraries and fine arts departments. From artwork and book pages to slides and negatives, Epson photo and graphic arts scanners deliver superior scans with precise color and detail.

**FEATURES**

- **Remarkable tonal range and shadow detail** — film scanning with high Dmax for smooth gradations and fine shadow detail
- **Scan 35mm slides, negatives and film** — select models include a built-in Transparency Unit
- **Automatically remove dust and scratches** — Digital ICE Technologies remove many surface defects from film and prints
- **ReadyScan® LED light source** — for fast scans with no warmup time needed

### RECOMMENDED ACCESSORIES

- Fluid Mount Accessory for V800/V850 (B12B818272)
- Transparency Unit for 12000XL-GA (B12B819221)

**Scanner Disclaimers**

1. Subject to limited warranty terms and conditions. For more information, go to www.epson.com/3yearscannerwarranty
2. At 300 dpi, based on 8.5” x 11”, 1-sheet scan speed; DS-80W speed using the battery.
3. Based on letter-sized scans at 300 dpi using the AC adapter.
4. With Document Capture Pro installed on the connected PC. Internet connection is required, (Windows only on the DS-80/860/6500/5700/6000/7000); wirelessly scan to smartphones or tablets (Android/iOS devices) via the Epson DocumentScan app or wirelessly scan to the cloud, PCs or Macs with Epson Document Capture software, installed on the connected Windows PC or Mac. Internet connection is required (DS-80W/575W); with Epson Document Capture software installed on the connected Windows PC or Mac. Internet connection required (DS-320/410/530/770/780N/870/970/1630).
5. Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Color Mode.
6. Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Color Mode, using the USB or wireless interface.
7. Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Color Mode, using the USB interface.
8. Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Color Mode, using the USB interface. Scan speed varies depending on network conditions.
9. May require internet access for software download.
10. Windows only on some models. See product specifications for more details.
11. Scan speed based on letter-size paper; 300 dpi from when page scan begins.
12. Maximum scan size for Mac is 8.5” x 14”; maximum scan size for Windows is 8.5” x 40”.
13. Maximum scan size for Mac is 11.7” x 16.54”; maximum scan size for Windows is 11.7” x 17”.
15. Maximum scan size for Mac is 11.7” x 16.54” via the ADF or flatbed; maximum scan size for Windows is 11.7” x 100” via the ADF.
16. Subject to limited warranty terms and conditions. Expedited shipping not available in all areas. Road Service orders must be in by 3 p.m. Eastern Time for Next-Business-Day delivery.
17. Optical resolution is the maximum scan resolution of the image sensor, using the definition of ISO 14473.
Augmented Reality Smart Glasses

Ideal for computer programming classes, STEM applications and drone training programs, Moverio augmented reality (AR) glasses provide a new way of seeing the world. Epson’s revolutionary Si-OLED micro-projection technology delivers a highly transparent display that blends digital content seamlessly with the real world.
MOVERIO BT-300 AND BT-350

Smart Glasses for Classroom Applications

Moverio smart glasses are designed to change how you experience the world around you. Continuing to set the standard in augmented reality, Epson offers an innovative and affordable solution with this lightweight, comfortable eyewear, plus a growing ecosystem of partners and hardware.

**FEATURES**

- **Built on an Android platform** — familiar and open development environment, plus access to the Moverio SDK with developer tools and resources
- **Ideal for computer programming students** — students can learn how to program Android and Unity applications to support a wearable display, versus traditional mobile devices
- **FPV Edition** — compatible with DJI GO and GO 4 App, providing drone enthusiasts with First-person View (FPV) piloting to maintain line-of-sight control
- **From the world leader in projection technology** — revolutionary Si-OLED micro-projection technology for superior transparency and amazing color and contrast
- **Integration with Dino-Lite® handheld digital microscopes** — connecting Moverio smart glasses to a Dino-Lite microscope allows students to view the output directly in their field of view

**RECOMMENDED ACCESSORIES**

- Quint Controller Dock for BT-350 (V12H882W02)

---

*SDHC card not included.
**Battery life may vary considerably depending on applications used, device settings (for example, wireless on or off, brightness setting), and temperature.
