WorkForce Pro WF-C878R WorkForce Pro WF-C879R

With Replaceable Ink Pack Systems
offering Low TCO in Class

PRECISIONCORE
Heat-Free Technology

Powered by **Epson's PrecisionCore Heat-Free Technology™**, the **WF-C879R** and **WF-C878R** offer low total printing costs and low power consumption, delivering speed, accuracy and cost-effective printing, and energy conservation for productivity- demanding and cost-conscious workgroups.

User-friendly Panel

WF-C878R and WF-C879R provide a user-friendly panel for easier operation.

HIGHER PRODUCTIVITY WITH INNOVATIVE INK PACKS

Epson has developed ink packs for business use. By reducing replacement frequency, operating efficiency and cost performance are increased. The volume of liquid ink required to print the same image is less than half that of toners. This translates into smaller and fewer cartridges. The replacement frequency of consumables is also lower thus leading to cost savings and less solid waste.

Easy To Replace Ink

Business Inkjet

INK PACK × **4**

Laser

TONER CARTRIDGE × **22**

**The calculation is based on the assumption of large ink pack with printing page at 86,000 pages (K) and 50,000 pages (C,M,Y) compared with relevant laser models. The actual number of toner cartridges used to print the same number of pages may vary according to different laser printing models*

AVAILABLE OPTIONS

Authentication Solution

PRECISIONCORE HEAT-FREE TECHNOLOGY™

Epson inkjet printers use Heat-Free Technology to deliver advanced customer benefits. Epson Heat-Free Technology does not require heat in the ink ejection process. Instead pressure is applied to the Piezo element, which flexes backwards and forwards firing the ink from the printhead. It helps to:

Save time with consistent high-speed printing

Less power consumption saves energy and money

Fewer replacement parts, lower environmental impact

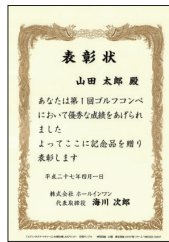

Less intervention increases productivity

WIDE VARIETY OF PRINTING APPLICATIONS

Thanks to the PrecisionCore Heat-Free Technology™, WF-C878R and WF-C879R Business Inkjet Printers support wide variety of printing applications such as embossed paper, labels, long paper etc.
